Customizable.
Containers can be modified to meet your specific requirements. Options range from adding a door or shelving system to changing the colour.

Portable.
Transportation of our containers is made easy with built-in forklift guides, lifting hooks, and optional wheel receivers.

Flexible.
Containers can be used to store equipment on construction sites, for disaster relief, as pop-up stores or mobile offices – the possibilities are endless.

Stackable.
When folded flat, each container can be stacked eight high, saving on freight charges and warehouse space.
THE PORTABLE CONTAINER SOLUTION

SELF STORAGE • MOBILE STORAGE • DISASTER RELIEF • CONSTRUCTION SITES
