ALL ALUMI-GUARD PRODUCTS ARE MANUFACTURED WITH PRIDE IN THE UNITED STATES OF AMERICA

Located in a state-of-the-art manufacturing facility in Brooksville, Florida, Alumi-Guard has become a leading manufacturer in the aluminum fence and rail industry. For over a decade, Alumi-Guard has established itself as an innovator in quality and design; providing a large selection of maintenance-free fence, railing, and gates that are manufactured to withstand some of the harshest conditions. Alumi-Guard's product line is available in all fifty states and Canada.

In 2010 Alumi-Guard's powder coating process was certified DuPont Platinum in AAMA 2604 and AAMA 2605, making us one of only a few powder coaters in the United States to receive this coveted honor. This is the highest level of certification available to architectural applicators.

Alumi-Guard partners with domestic companies including our primary aluminum extrusion suppliers in the Southeast and DuPont powder, which is made in Texas. As a domestic manufacturer, we're proud to say that everything we produce - including all panels, posts, and gates - are made right here at home. So know that when you choose Alumi-Guard, you're choosing an American company that manufactures quality, American made products.
