TECHNOLOGY SAFES

REST EASY.

Browning is committed to ensuring that your guns and valuable possessions are protected from theft and the ravages of fire. A leader in the industry for decades, Browning ProSteel safes are constructed using security measures based on proven and proprietary designs, using dependable materials, top-quality construction and hands-on testing procedures to ensure our safes are ultra-tough and able to withstand the onslaught of drill, punch and pry attacks. Rest easy knowing that Browning has you and your family covered.

PRY-STOP CORNER BOLTS

PRY-STOP CORNER BOLTS

Pry-Stop Corner Bolts (U.S. patent #8,276,527) provide better protection than other pry-defense designs. Innovative long locking bolts extend diagonally from a reinforced support at the corners of the door to protect against pry attack at the corner areas.

PRY-STOP END BOLTS

PRY-STOP END BOLTS

Superior to other bolt designs which allow the locking bolt support bar to bend. Pry-Stop End Bolts are over two and one-half times longer and attach to a high-strength steel angle iron that prevents the locking bolt support bar from bending in a pry attack. The top and bottom locking bolts on the door side secure the critical door corners.

PRY-STOP TABS

PRY-STOP TABS

Pry-Stop Tabs are pieces of angled steel added to the top and bottom bolts and inside of the safe door. These reinforcements work together to increase pry resistance.

OMNI BARRIER

OMNIBARRIER® LOCK PROTECTION SYSTEM

A carefully engineered structure of steel hard plate and steel components designed to protect the safe lock from drill, punch and push attacks.

DUO FORMED DOOR

DUO-FORMED DOOR

The best Browning ProSteel safe door is made from multiple layers of steel formed together to provide superior strength, pry resistance and attack protection. Full second panel for outstanding strength. The door face is 1-11/16" thick.

FORMED DOOR

FORMED DOOR

The Formed Door is engineered with a rugged steel face. Back and reinforcement panels provide excellent strength and attack protection compared to the competition.

REINFORCED DOOR FRAME

REINFORCED DOOR FRAME

The door opening of the safe is strengthened by an integrated return flange to create added pry and attack resistance.

UNI FORCE

UNI-FORCE™ LOCKING SYSTEM

The finest Browning ProSteel safe locking mechanism uses robust cam locks and a large, multiple diversion bar system to prevent bolt or handle pressure from reaching the lock. Forces go to the cams and diversion bars, not the lock, for protection unmatched by other locking systems.

FORCE DEFLECTOR

FORCE DEFLECTOR™ LOCKING SYSTEM

The Force Deflector Locking System (U.S. patent #7,665,405) prevents bolt or handle forces from reaching the lock by using a rotating cam device. It prevents energy transfer to the lock better than most systems used in the safe industry.

180°

180° HEAVY DUTY HINGES

Rugged exterior hinges allow the door to swing open 180° for unhindered access to the safe interior. Door locking bolts maintain security if the hinges are cut off. Fire protection is better with internal hinges because no insulation is removed to accommodate the hinges.

Pry-Stop End Bolts

Omnibarrier® Lock Protection System

Pry-Stop Corner Bolts

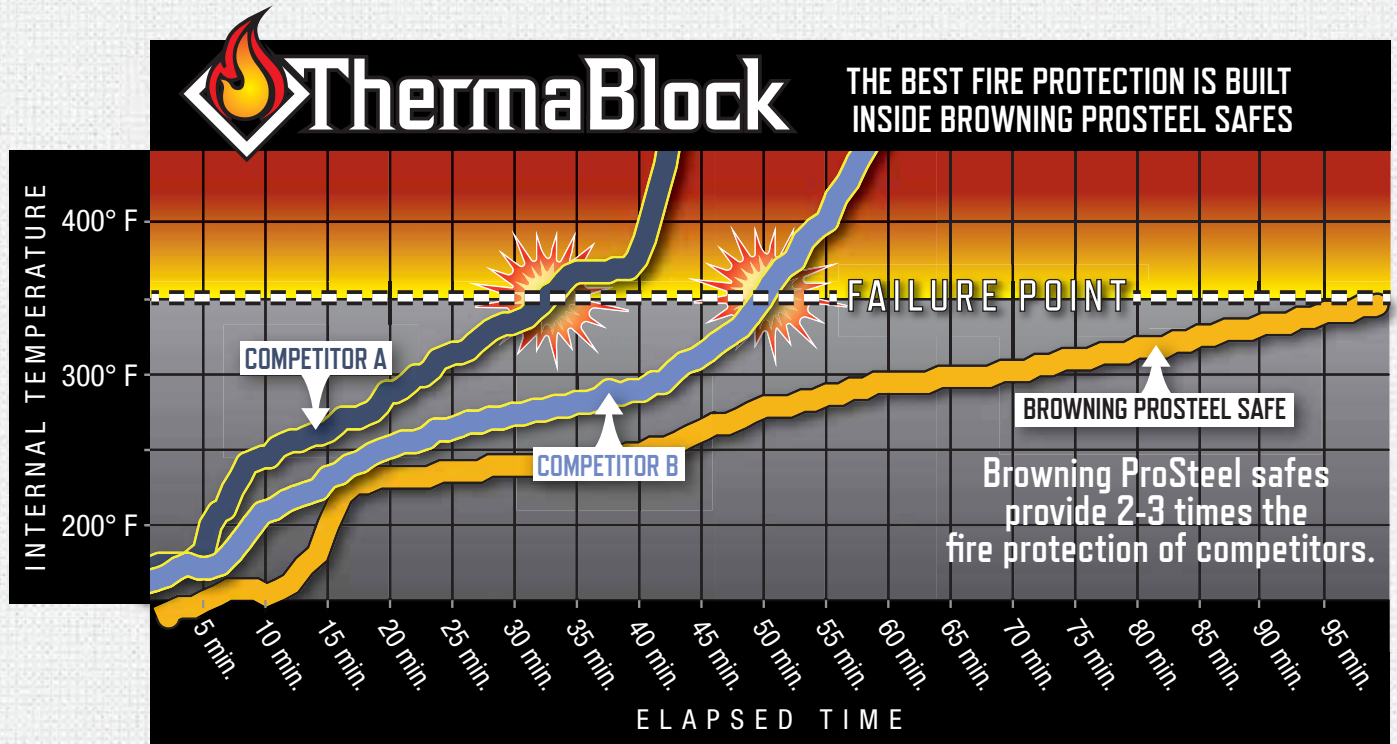

Uni-Force™ Locking System

FIRE PROTECTION SAFES

THERMABLOCK: UP TO 3 TIMES THE PROTECTION.

Browning ProSteel safes feature ThermaBlock fire protection technology. ThermaBlock combines external door hinges and thicker sheets of fire insulation that are arranged in an interlocking pattern to eliminate gaps where heat can migrate into a safe and raise the internal temperature. Our fire testing begins where the other brands' testing ends. The chart below shows that a Browning ProSteel safe with ThermaBlock offers two to three times the fire protection of a comparable safe with internal hinges.

This graph compares a Browning ProSteel safe with ThermaBlock and external hinges to a pair of comparable safes from leading competitors with internal hinges.

COMPETITOR A
(Rated 90 min. at 1650° F)

COMPETITOR B
(Rated 90 min. at 1200° F)

Browning ProSteel Safe
(Rated 100 min. at 1680° F)

Browning ProSteel safe with 1-7/8" thick insulation after 100 minutes at 1680°.

Leading competitor safe with 1-7/8" thick insulation after 90 minutes at 1680°.

External hinges offer several advantages over the internal hinges found on other safes, most notably in fire protection. To accommodate an internal hinge, fire protection material must be removed where the hinges attach.

In a fire, these two unprotected areas allow the internal temperature of a safe to rise, to a significantly higher temperature, than in a Browning ProSteel safe with external hinges and no gaps in the fire protection.

OUR EXTERNAL HINGES

External hinges eliminate gaps in the fire insulation to block heat from entering the safe.

COMPETITORS' INTERNAL HINGE

Internal hinges allow up to eight times more heat to radiate inside the safe through gaps in the fire insulation.

WARRANTY/STORAGE SOLUTIONS

SAFES

THE BEST THERE IS WARRANTY PROTECTION.

Differences among gun safes are difficult to see on a sales floor, but be confident that you won't find another brand that lives up to the high standards set by Browning. Our safes combine quality construction, proprietary technology and patented interior designs to elevate them above the rest. In addition to groundbreaking features, all Browning ProSteel safes carry the UL RSC (Underwriters Laboratories Residential Security Container) rating — the industry standard that defines a home security safe. The UL RSC rating ensures that a safe meets construction specifications and has passed a series of independent laboratory test attacks. Confidence in Browning ProSteel product leads to the best warranty in the gun safe industry — a lifetime warranty that covers attempted break in, break in, or fire. If one of our safes is involved in one of these situations and your homeowner's insurance policy does not cover the damage to the safe, ProSteel will repair or replace the safe. (Safe contents are not covered.)

UNMATCHED CONVENIENCE AND STORAGE SOLUTIONS.

A gun safe is more than long gun capacity. Handguns, cameras, jewelry, documents, laptops and external hard drives with thousands of digital memories will be safe and secure. Browning ProSteel safes have the most versatile interiors in the industry to store more of your valuables. Beginning in 2018, Axis and CMS shelves and accessories are interchangeable for Browning ProSteel safes greater than 20 cubic feet in size.

ONE-OF-A-KIND AXIS ADJUSTABLE SHELVING

When it comes to maximizing safe interior storage, Browning ProSteel safes lead the industry with unmatched versatility. The exclusive Axis Adjustable Shelving (U.S. patent #D662341) is a completely customizable system with an array of shelves that can be configured to meet virtually every need.

Unlike shelves in the competitors' safes that are either fixed in position or only offer vertical adjustment, Axis shelves can be adjusted up and down, side to side, added and removed to accommodate items over a broad range of sizes. Axis maximizes the interior storage of long guns, handguns and other valuables. Several different shelves and options are available to further customize the interior to meet specific needs. The Axis shelf is made from a single piece of sturdy steel. Shelves are clad in a soft, protective silicone rubber that is highly durable and designed to protect guns and valuables. It also adds a sleek appearance to the safe interior. Axis accessories, featured on page 109 are designed to easily mount to the solid steel shelf or barrel rack. (Compatible with safes that feature Axis Adjustable Shelving built in 2013 or later.)

CANTILEVERED MODULAR SHELVING (CMS)

Creative interior storage solutions don't end with Browning ProSteel Custom Collection models. CMS shelves are constructed of wood, covered in soft carpet and built upon a tough steel frame. CMS borrows essential components from the patented Axis Adjustable Shelving (U.S. patent #D662341) to retain much of the adjustability of the higher-end system. Like Axis, CMS shelving can be adjusted up and down, side to side, added and removed to fit a wide range of valuables.

NEW
2018

Beginning in 2018, Axis and CMS shelves and accessories are interchangeable for all Browning ProSteel safes greater than 20 cubic feet in size.

DPX® STORAGE SOLUTIONS SAFES

UP TO 43% MORE LONG GUN STORAGE.

THE DPX ADVANTAGE

The patented DPX storage system (U.S. patent #7,409,790) is available exclusively on Browning ProSteel safes. This unequalled organizational tool allows long guns, handguns, shooting gear and more to be stored on the back of the safe door. The DPX gun rack creates as much as 43% more long gun capacity inside the safe, and makes the guns on the door easy to access. The Scope Saver increases storage and protects optics. DPX pouches and pockets hold valuables and gear where they are easy to find and free up shelf space for even more items.

THE QUICK ACCESS DPX BARREL RACK

Flexible polymer wings protect the barrel finish, secure the barrel in place and allow firearms to easily be pushed into or pulled from the rack. (U.S. patent #0643500)

MESH POCKETS

See-through mesh pockets hold smaller items and make valuables fast and easy to visually locate.

CAPACITY COMPARISON	COMPETITOR'S SAFE 25-28 CUBIC FT.	BROWNING PROSTEEL SAFE 26 CUBIC FT.	RESULT
Total Gun Capacity - Half Shelf Interior	14 Guns	20 Guns	43% More
Total Gun Capacity - All Gun Interior	27 Guns	33 Guns	22% More
Fast Access Guns - Half Shelf Interior	2 Guns	14 Guns	600% More
Fast Access Guns - All Gun Interior	7 Guns	21 Guns	200% More

HOW DO BROWNING PROSTEEL SAFES HOLD 43% MORE GUNS?

- The long gun capacity is a series of three numbers, for example 13/26+7 on a 26 Cu. Ft. safe.
 - The first number is the long gun capacity in the safe body with a Half Shelf interior (13 in the example).
 - The second number is the long gun capacity in the safe body with an All Gun interior (26 in the example).
 - The "plus" number is the long gun capacity on the back of the door (+7 in the example).
 - Total capacity grows up to 43% in the Half Shelf configuration because there is a full rack of long guns on the door back.
 - "Fast Access Guns" increase in both Half Shelf and All Gun configurations. These are guns on the front row of the safe body and the door gun rack and can be quickly accessed.
- Due to the varying sizes of firearms and optics, actual gun capacity may vary.

DPX HANDGUN POUCHES

The military-style MOLLE system straps on the DPX panel allowing handgun pouches and other MOLLE items to be placed virtually anywhere.

DPX SCOPE SAVER

Store long guns with optics on the DPX door rack with the Scope Saver. The recessed panel protects scopes and increases gun capacity.

PLATINUM™ CUSTOM COLLECTION SAFES

WHY STEP UP TO A PLATINUM SAFE?

Stepping up to a Platinum model gives you the advantage of thicker 3/16" (7-Gauge) steel for added mass and rigidity, and larger (1-1/2") locking bolts on all four sides offer greater security and protection. A superior ThermaBlock 1750°/120 minute fire rating keeps valuables protected longer. A handsome Grade VI Cedar interior, Axis Drawer with Multipurpose Insert and File Box are also featured. Platinum safes are made in the USA.

FEATURES AND BENEFITS

AXIS HIGH CAPACITY BARREL RACK **1**

- The High Capacity Barrel Rack stores up to 13 long guns and offers instant access to 7 (per rack).

AXIS FILE BOX **2**

- Important, irreplaceable documents can be conveniently stored in the File Box.

GRADE VI INTERIOR/LED LIGHTING **3**

- A fragrant cedar interior adds a rich quality to the safe. Interior LED lighting along the door frame makes locating items inside the safe much easier.

AXIS DRAWER AND MULTIPURPOSE INSERT **4**

- The Axis Drawer mounts beneath an Axis steel shelf and includes a Multipurpose Insert that keeps small items organized, easy to locate and protected.

ELECTRICAL OUTLET **5**

- The Electrical Outlet allows electrical accessories to be added without taking apart power cords.

PRY-STOP CORNER BOLTS **6**

- Innovative long bolts extend diagonally from the corners of the door to protect against pry attack at the crucial corner areas.

MEDALLION® CUSTOM COLLECTION SAFES

WHY STEP UP TO A MEDALLION SAFE?

Stepping up to a Medallion safe gives additional security features including Pry-Stop Corner Bolts, Uni-Force™ Locking System and OmniBarrier® Lock Protection System. Thicker steel (10-Gauge vs. 11-Gauge) reduces flex. A higher fire rating (ThermaBlock 1700°/110 min. vs. 1680°/100 min.) affords even greater protection. Medallion safes are made in the USA.

FEATURES AND BENEFITS

AXIS HIGH CAPACITY BARREL RACK **1**

- The High Capacity Barrel Rack stores up to 13 long guns and offers instant access to 7 (per rack).

INTERIOR LIGHT PACKAGE **2**

- LED lighting adds even more value to the Medallion safe line. A sensor turns on the lights when the door is opened.

UNI-FORCE LOCKING SYSTEM **3**

- Robust cam locks and a multiple diversion bar system divert pressure from reaching the lock.

OMNIBARRIER LOCK PROTECTION **4**

- Steel hard plate and steel components protect the lock from drill, punch and push attacks.

ELECTRICAL OUTLET **5**

- The Electrical Outlet allows electrical accessories to be added without taking apart power cords.

PRY-STOP CORNER BOLTS **6**

- Innovative long bolts extend diagonally from the corners of the door to protect against pry attack at the vulnerable corner areas.

SILVER[®] CUSTOM COLLECTION SAFES

WHY STEP UP TO A SILVER SAFE?

Stepping up to the Silver safe provides you with heightened security courtesy the Duo-Formed door, which features a full 10-Gauge inner plate. A higher fire rating (ThermaBlock 1680°/100 min. vs. 1680°/90 min.) and locking bolts on all four sides of the door improve protection from disaster. An elegant five-spoke handle and a full selection of finishes, colors and options are also available. A convenient Interior Light Package is included. Silver safes are made in the USA.

FEATURES AND BENEFITS

AXIS HIGH CAPACITY BARREL RACK **1**

- The High Capacity Barrel Rack stores up to 13 long guns and offers instant access to 7 (per rack).

DPX SCOPE SAVER **2**

- Store long guns with optics on the DPX door rack with the Scope Saver. The recessed panel protects scopes and increases gun capacity.

AXIS ADJUSTABLE SHELVING **3**

- Multiple shelf styles are available and can be moved to allow small and large items to fit in the safe, taking up minimum space.

ELECTRICAL OUTLET **4**

- The Electrical Outlet allows electrical accessories to be added without taking apart power cords.

INTERIOR LIGHT PACKAGE **5**

- A sensor turns on the LED lighting when the door is opened.

AXIS® ACCESSORIES

STORE MORE AND FIND IT EASIER.

Exclusive Axis Adjustable Shelving (U.S. patent #D662341) uses an array of shelves that can be configured to meet virtually any need imaginable. Axis accessories are now compatible with safes built in 2018 that feature CMS Adjustable Shelving and are greater than 20 cubic feet in size.

Axis Bow Hanger Lock up and protect expensive archery equipment while taking up minimal space.

Axis Scoped Pistol Rack With a deeper drop and heavy-gauge rods, handguns with optics are easier to store.

Axis Vertical File Holder This file holder makes it easier to locate and organize important documents.

Axis Deep Drawer The Deep Drawer is the perfect home for larger or oddly shaped items.

Axis High Capacity Barrel Rack Make room for more long guns with this high capacity barrel rack.

Axis Pistol Rack With a five handgun capacity, the pistol rack stores the pistols under the shelf, leaving the shelf available for possessions and gear.

Axis Barrel Rack With 11 slots for long guns, the barrel rack can be raised or lowered to accommodate rifles, shotguns, carbines and modern sporting rifles.

Axis Steel Shelf The most basic shelf is made from tough steel with a protective polymer skin that protects your valuables.

Axis Drawer With Jewelry Insert This insert protects and organizes valuables such as watches, rings, bracelets and necklaces.

Axis Drawer With Foam Insert Isolate your most prized possessions from potential damage. Pick and pluck foam is easily customized to fit nearly any item.

Axis Drawer With Multipurpose Insert Keep delicate jewelry and other small items organized, protected and easy to find.

Axis Drawer With Money/Passport Insert Compartments are sized to organize cash, passports and other documentation.

Axis Drawer The sturdy drawer is perfect for all sorts of goods that need to be separated.

Axis File Box Important documents may be irreplaceable or valuable or both. Keep them easy to find in this handy file box.

Axis Pistol Shelf Holds up to 12 handguns. The soft surface protects handguns from damage.

HELL'S CANYON® CORE COLLECTION SAFES

WHY STEP UP TO A HELL'S CANYON SAFE?

Stepping up to a Hell's Canyon safe offers the kind of cavernous storage capacity that a large collection requires. But if size isn't enough, the Hell's Canyon safe offers a great mix of security and fire protection features to keep its valuable contents protected. Focus has also been placed on interior convenience features, with easy access to guns being a priority.

FEATURES AND BENEFITS

AXIS HIGH CAPACITY BARREL RACK **1**

- The High Capacity Barrel Rack stores up to 13 long guns and offers instant access to 7 (per rack).

AXIS ADJUSTABLE SHELVING **2**

- Multiple shelf styles are available and can be moved to allow small and large items to fit in the safe taking up minimal space.

DPX SCOPE SAVER **3**

- Store long guns with optics on the DPX door rack with the Scope Saver. The recessed panel protects scopes and increases gun capacity.

QUICK ACCESS DPX BARREL RACK **4**

- Flexible polymer wings protect the barrel finish, secure the barrel in place and allow firearms to easily be pushed into or pulled from the rack. (U.S. patent #D643500)

CLOSET/COMPACT SAFES

WHY CHOOSE A CLOSET/COMPACT SAFE?

A Closet or Compact safe gives you a real safe that is loaded with fire protection and security features. These smaller safes are perfect for modest gun collections, handgun collections or just valuables. Additionally, their small dimensions make them ideal to tuck away inside a closet or even a cabinet for additional security against prying eyes.

FEATURES AND BENEFITS

OUT OF SIGHT

- Closet/Compact safes feature trim dimensions that make it ideal for placing into a closet to keep the safe hidden from curious eyes.

INTERIOR

- Closet/Compact safes feature adjustable interiors designed to maximize adjustability.

HUNTER CORE COLLECTION SAFES

WHY STEP UP TO A HUNTER SAFE?

Stepping up to a Hunter safe adds a heavy 11-Gauge steel body that combats flex from break-in attempts and heat, and offers larger diameter locking bolts for greater security. A ThermoBlock 1680° F/90 min. rating elevates fire protection and Axis Adjustable Shelving adds convenience. Hunter safes are made in the USA.

FEATURES AND BENEFITS

QUICK ACCESS DPX BARREL RACK **1**

- Flexible polymer wings protect the barrel finish, secure the barrel in place and allow firearms to easily be pushed into or pulled from the rack. (U.S. patent #D643500)

DPX SCOPE SAVER **2**

- Store long guns with optics on the DPX door rack with the Scope Saver. The recessed panel protects scopes and increases gun capacity.

AXIS HIGH CAPACITY BARREL RACK **3**

- The High Capacity Barrel Rack stores up to 13 long guns and offers instant access to 7 (per rack).

AXIS ADJUSTABLE SHELVING **4**

- Multiple shelf styles are available and can be moved to allow small and large items to fit in the safe taking up minimal space.

HEAVYWEIGHT CORE COLLECTION SAFES

WHY STEP UP TO A HEAVYWEIGHT SAFE?

Stepping up to a Heavyweight safe adds a tough 11-Gauge steel body and Pry-Stop End Bolts for improved break-in protection. The excellent 1550° F/80 min. fire rating offers additional protection. A full DPX door storage rack adds storage for valuables, handguns and long guns, while improving access to more long guns. Black chrome hardware adds a rugged appearance.

FEATURES AND BENEFITS

QUICK ACCESS DPX BARREL RACK **1**

- Flexible polymer wings secure the barrel and allow firearms to easily be pushed into or pulled from the rack.

PRY-STOP END BOLTS **2**

- More than two and one-half times longer than door bolts, they attach to angle iron which prevents the locking bolt support bar from bending in a pry attack. The top and bottom locking bolts on the door secure the critical door corners.

CMS ADJUSTABLE SHELVING **3**

- Multiple shelf styles are available and can be moved to allow small and large items to fit in the safe taking up minimum space.

CMS HIGH CAPACITY BARREL RACK **4**

- The CMS High Capacity Barrel Rack stores up to 13 long guns and offers instant access to 7 (per rack).

BLACK LABEL[®] MARK IV TACTICAL SAFES

WHY STEP UP TO A BLACK LABEL MARK IV SAFE?

Stepping up to a Black Label Mark IV safe gives you top notch security, fire protection features and your choice of two bold tactical-inspired finishes. The Axis Adjustable Interior opens up space for more guns of all sizes inside and the included carbine barrel loops make retaining shorter rifles and shotguns on the DPX Door panel a breeze.

FEATURES AND BENEFITS

AXIS ADJUSTABLE SHELVING **1**

- Multiple shelf styles are available and can be moved to allow small and large items to fit in the safe using the minimum amount of space. Individual shelves can be adjusted to accommodate modern sporting rifles, carbines and shotguns.

EXTERIOR GEAR LOFT **2**

- Tactical and hunting gear can be stored within easy reach on top of the safe, in the semi-enclosed exterior Gear Loft.

AXIS PISTOL RACK **3**

- With a five handgun capacity, the pistol rack stores the pistols under the shelf, leaving the shelf available for possessions and gear.

CARBINE BARREL LOOPS **4**

BLACK LABEL[®] MARK V TACTICAL SAFES

WHY STEP UP TO A BLACK LABEL MARK V SAFE?

Stepping up to a Black Label Mark V safe gives you rugged quality, security and fire protection that you can count on, all wrapped in a smooth tactical black package. The 1400° F/60 minute fire protection rating provides assurance against disaster. The Cantilevered Modular Shelving (CMS) and DPX door storage provide the most versatile storage for gear and guns of all sizes.

FEATURES AND BENEFITS

CMS ADJUSTABLE SHELVING **1**

- Multiple shelf styles are available and can be moved to allow small and large items to fit in the safe using the minimum amount of space. Individual shelves can be adjusted to accommodate modern sporting rifles, carbines and shotguns.

QUICK ACCESS DPX BARREL RACK **2**

- Includes a rack on the back of the door to store long guns and make them easier to access. Pouches and pockets help organize other valuables.

CARBINE BARREL LOOPS **3**

- Lower mounted barrel loops secure shorter rifles and shotguns to the DPX door panel.

CMS HIGH CAPACITY BARREL RACK **4**

- The CMS High Capacity Barrel Rack stores up to 13 long guns and offers instant access to 7 (per rack)..

SELECT FULL LINE DEALER SAFES

WHY CHOOSE A SELECT SAFE?

A Select safe offers a custom blend of features that includes added security with Pry-Stop End Bolts and a big increase in convenience and capacity thanks to the Quick Access Barrel Rack with Scope Saver and full DPX Storage System. The factory-installed LED Interior Light package makes locating items inside the safe easy.

FEATURES AND BENEFITS

CMS ADJUSTABLE SHELVING **1**

- Multiple shelf styles are available and can be moved to allow small and large items to fit in the safe using the minimum amount of space. Individual shelves can be adjusted to accommodate modern sporting rifles, carbines and shotguns.

PRY-STOP END BOLTS **2**

- More than two and one-half times longer than standard door bolts, they attach to angle iron which prevents the locking bolt support bar from bending in a pry attack. The top and bottom locking bolts on the door side secure the critical door corners.

LED INTERIOR LIGHT PACKAGE **3**

- LED lighting around the door frame adds value and makes locating items in the safe easier. A proximity sensor turns on the lights when the door is opened.

CMS PISTOL RACK **4**

- The CMS (Cantilevered Modular Shelving) Pistol Rack stores pistols under the shelf, leaving the shelf available for possessions and gear.

VAULT DOORS

WHY CHOOSE A VAULT DOOR?

When a gun safe just isn't big enough, the next step is a dedicated, walk-in gun room and a Vault Door is the best way to finish off that magnificent bit of architecture. To protect your collection, Vault Doors offer high-end security features and fire insulation. Vault Doors are available in a variety of handsome finishes to perfectly complement your home.

FEATURES AND BENEFITS

INTERNAL LOCK RELEASE 1

- Allows the door to be opened from inside the vault to prevent accidentally being locked inside.

VAULT DOOR SPECIFICATIONS

FEATURES

- Designed to fit a variety of wall types and installation requirements
- OmniBarrier® Lock Protection System
- Uni-Force™ Locking System
- 1-7/8" of fire-resistant insulation in the door
- Knurled five-spoke Buckmark handle
- External ball-bearing hinges
- Palusol® expanding fire seal
- Also available with a black primer finish that is ready to paint and match any decor
- Internal lock release to open the door from within the vault

STANDARD SPECIFICATIONS

- The minimum rough door opening for the Standard Vault Door is 83" x 36"
- External L-frame with 1/2" diameter steel J-bolt anchors (included) can be poured in place in new construction or installed in an existing door frame by using expansion anchors or lag bolts (not included)
- Door frame L-flange will fit any wall with a minimum thickness of 5-1/2"
- Available in Out-Swing Model only

CLAMSHELL SPECIFICATIONS

- The minimum rough door opening for the Clamshell Vault Door is 82" x 40"
- Clamshell flange design uses an internal and external flange for additional security and improved appearance
- Can be secured into an existing door frame using the clamshell flange or, for additional security, using expansion anchors or lag bolts (not included)
- Clamshell flange has a 3-1/2" range of adjustment to fit walls with a minimum thickness of 8" to a maximum thickness of 11-1/2"
- Available in both In-Swing and Out-Swing Models

SECURITY DOOR

WHY CHOOSE A SECURITY DOOR?

If you have a built-in gun room or storage closet and need to finish it off with a top notch door that doesn't scream "guns inside" the Security Door is just the ticket. Made to match a common six-panel door, the Security Door can easily be painted to match other doors in your home. In addition to the incognito appearance, Security Doors feature excellent security and fire protection features.

Minimum Rough Opening: 83" X 36"

PISTOL VAULTS SAFES

BIG SECURITY, SMALL PACKAGES.

A Browning ProSteel pistol vault is ideal for keeping a handgun, cash and small valuables secure, yet readily available. Built with twice the steel found in competitors' models and featuring rugged safe-style bolts that outperform common latch-style locks, these pistol vaults are more than a match for would be thieves.

FEATURES AND BENEFITS

ELECTRONIC 4-BUTTON TOUCH PAD **1**

- Easily program your personal code that provides you ready access to handguns and small valuables. Uses eight AA batteries. (Not included.)

BIOMETRIC PAD **2**

- Grants you instant access with the touch of a fingertip.

LED LIGHTING **3**

- Bright LED lighting illuminates the interior, making it easy to locate the pistol vault's contents at night or in a closet.

LOCKING BOLTS **4**

- A pair of tough 1/2" diameter locking bolts secure the lid.

EXTERNAL ELECTRICAL CONTACTS **5**

- Should the batteries fail or if the key is lost, pistol vaults include external electrical contacts that power the touch pad. (9V back-up battery not included.)

USER INSTALLED ACCESSORIES

OPTIONS

MAXIMIZE YOUR INVESTMENT.

Get more from your safe with Browning safe accessories. We offer a great assortment of accessories designed to help you store more gear and guns, better organize interior space, add lighting to make items easier to locate and ensure your valuables are protected from humidity. We have the extras you need.

DOOR ORGANIZERS

Browning safe door organizers increase gun capacity, free-up shelf space and improve organization in your safe by utilizing the inside surface of the door • Store your most used guns and valuable items on the door for fast access • Accommodates a wide range of long guns • Document pouch keeps important papers within easy reach • MOLLE System straps allow for versatile storage options for handguns and is compatible with any MOLLE pouch, holster or strap

DOOR ORGANIZER - SMALL

14" x 48" • Includes two long gun (up to 47" long) storage pouches and barrel straps • Two handgun pouches • One document pouch

CODE	MSRP
164147	100.00

DOOR ORGANIZER - MEDIUM

20" x 48" • Three long gun (up to 47" long) storage pouches and barrel straps • Three handgun pouches • One large document pouch • One multipurpose pouch

CODE	MSRP
164148	130.00

DOOR ORGANIZER - LARGE

27" x 48" • Four long gun (up to 47" long) storage pouches and barrel straps • Four handgun pouches • Two document pouches • Two multipurpose pouches

CODE	MSRP
164149	150.00

LED LIGHT

This battery-powered LED light adds 75 lumens of bright light to your safe interior • Motion sensor activated • Attaches with hook and loop fasteners • Requires 3 AA batteries (not included)

CODE	MSRP
164154	25.00

BOLT DOWN HARDWARE KIT

Includes the hardware necessary to secure a gun safe to any wood or concrete floor • Includes four lag screws for anchoring to wood floors and four concrete bolts and concrete anchors for securing to concrete • Wood and concrete drill bits are also included

CODE	MSRP
164153	15.00

USER INSTALLED ACCESSORIES

OPTIONS

PISTOL RACK

Store handguns more efficiently • Increases storage space on shelves • Access to handguns is made easier by placing them in an upright position

	DESCRIPTION	CODE	MSRP
A	4-Gun	164150	15.00
B	6-Gun	164152	20.00

ZERUST VCI PROTECTANT

Small capsule emits an invisible vapor that forms a corrosion- and rust-resistant barrier on metal surfaces • Volatile Corrosion Inhibitors (VCIs) have been used for years to protect metal parts in industrial and commercial applications • One capsule protects a standard 30" wide safe for one year

CODE	MSRP
154011	8.00

DPX ACCESSORIES

Take full advantage of the DPX storage system with these accessories • Store more guns without taking up shelf space with DPX Handgun Pouches (sold in sets of two) • Store shorter firearms and make them easily accessible with DPX barrel loops and DPX stock risers

	DESCRIPTION	CODE	MSRP
A	Handgun Pouch	164138	31.00
B	Barrel Loop	164141	23.00
C	Stock Riser	164144	23.00

LED SAFE LIGHTING KIT

The LED Safe Lighting Kit is the best aftermarket lighting solution available today • The expandable, linear design places bright, long-lasting LED lighting anywhere in the safe • A motion sensor turns on the lights when the door opens and automatically shuts them off after 30 or 60 seconds with no motion or when the door closes • Each kit comes complete with six LED light tubes with six LEDs per tube, three flexible connectors, mounting clips with hook and loop tape, A/C adaptor and a motion sensor power module

CODE	MSRP
164112	80.00

VCI GUN SOCK

VCI (Vapor Corrosion Inhibitor) penetrates into the smallest crevices and drives out moisture where oils cannot reach • Provides full protection by forming a vapor enclosure around the firearm from muzzle to butt • Gives additional protection to all metal items in an enclosed area such as a gun safe or cabinet • Drawstring closure • Fits rifles and shotguns 48" to 56"

CODE	MSRP
149985	14.99

USER INSTALLED ACCESSORIES

OPTIONS

DRY-ZONE MOISTURE REDUCER

Absorbs moisture without electricity, and is rechargeable in an oven
 • Can be reactivated indefinitely • One 500-gram box protects up to 37 cubic feet of enclosed space, about the volume of a standard 30" wide safe

CODE	MSRP
154001	30.00

EVERDRY™ ELECTRIC DEHUMIDIFIER

The EverDry Electric Dehumidifier removes humidity from the interior of a safe and protects against rust • The 18" long EverDry should be used on safes 30" wide and larger • Cord is removable for installation

CODE	MSRP
164128	30.00

FLEXIBLE EVERDRY™ DEHUMIDIFIER

The Flexible EverDry is flat and easily bends • Takes up less space and makes installation easier, especially in small safes • Removes humidity from the interior of a safe and protects against rust • Plug is removable for installation
 • LED indicates unit is operating

CODE	MSRP
164129	40.00
