HYDRADERMIE² FACIAL

1 Hour 15 Mins | **£48.00**

The Guinot Hydradermie² facial is the most advanced beauty salon treatment for maintaining a balanced healthy complexion. It deep-cleanses, oxygenates and regenerates the skin. Regular Hydradermie² treatments offer immediate and lasting results: they improve hydration in dry skin, reduce sebum levels in oily skin, and reduce average wrinkle depth in lined skin. Hydradermie² now achieves double ionisation with double the results. The facial uses the Hydraderm machine (unique to Guinot), manual massage and bespoke plant-based extracts to restore the skin's natural beauty. The skin is cleansed and gently exfoliated, the beauty therapist applies the carefully selected gels and uses mild galvanic current to help the active ingredients penetrate deep into the skin to remove impurities and toxins. High frequency action is then used to oxygenate and boost cells before a massage and a customised mask. A touch of moisturiser for the eye contour, face and neck concludes the treatment.

REFLEXOLOGY

Following illness, stress, injury or disease, it is in a state of 'imbalance' and vital energy pathways are blocked preventing the body from functioning effectively. Reflexology treats the whole person, not the symptoms of disease. Most people benefit from treatment, it is a natural way of relaxing, balancing and harmonising the body.

Sun FX - Spray Tan

Natural looking spray on tan, applied by therapists. Contains 3 parts of air and 1 part of tan, which dries instantly and is totally odourless. The bronzer gives you an instant tan, and the developer works over the next 12 hours with your natural pigmentation to reveal a beautiful, non-streaky tan that stays on for up to 5 days. Moisturising your skin regularly will extend the life of your tan.

BEFORE TANNING

1. Exfoliate your body before you tan. Pay attention to rough areas like knees, elbows, ankles and tops of your feet.
2. Do not apply moisturiser to your skin before you come for tan, as this will reduce your tanning result. Make-up has a similar effect should you want your face tanned.
3. Wear attire appropriate for tanning. We suggest old, dark, loose clothing. Do not wear jewellery, no watches if possible. Bring hair clip if hair is long. We still recommend the use of sun block creams for protection against sunburn.

FACIAL LINE SOFTENING

Hyperactivity of the facial expression muscles often results in the development of deep frown lines, forehead lines and/or crows feet. Injecting treatments into the affected area temporarily relaxes the underlying muscles responsible for wrinkling, giving the face a more relaxed and pleasant appearance. The overall result is very natural.

DERMAL FILLER

Dermal filler is a clear gel, which binds with water, creating volume within the skin, smoothing lines, wrinkles and folds. Dermal filler is typically used for naso-labial lines (folds running from the nose to the corner of the mouth), sad lines (from the corner of the mouth), mouth angle depressions and smoker lines. Dermal filler is also used to sculpt beautiful lips. The lip border alone can be contoured to give more definition, or more pouting and fullness can be created in the body of the lip.
