BRINGING HOMES TO LIFE

Of the many different options to consider when updating a home few have as much impact as a beautiful door.

For over 20 years XL Joinery has been designing and crafting the most comprehensive range of timber doors that set the trends for interior and exterior decoration.

But that's just part of the story. Through our own delivery fleet, stringent quality control and dedicated after-sales service we aim to be a partner you can always depend on. For you that means the right products, at the right price, when and where you need them.

What's inside

New
for 2014

Product innovation is a major focus at XL with our designers continuously updating the range and introducing the latest thinking in door design.

These are some of our new additions for 2014.

Design
Trends 2014

Providing inspiration to create an in vogue look to your home, our design trends get you thinking about what can be achieved through the choice of a door.

Get inspired by our design trends for this year...

Mixing aluminium with natural timbers

XL's new Alumina range offers numerous different options building on this trend

Darker Timbers

The new Wenge and Walnut doors in the XL range offer a contemporary solution utilising darker timbers
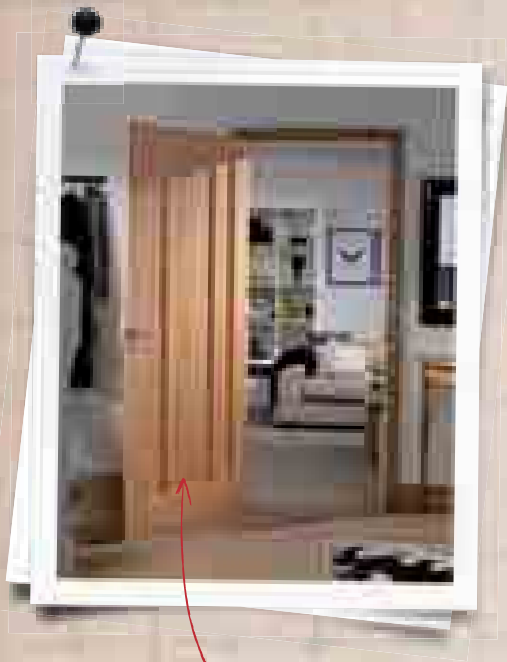

Pre-Finished Doors

XL's comprehensive pre-finished range of doors really does take the hassle away by removing the need for any decoration on the doors

Mixing and matching Oak and White - Oak downstairs, White upstairs!

XL have families of doors in both Oak and White Primed to accommodate this trend

Selected natural wood veneers
reflect the natural beauty of timber
(e.g. Oak, Wenge, Walnut, Hardwood
and Pine)

WHAT MAKES A GREAT INTERNAL DOOR?

Beautiful internal doors are the finishing touch that can turn an ordinary interior into an extraordinary one.

With a constant stream of new products our internal door range combines both up to the minute design with expert craftsmanship ensuring all our doors are built to last for years to come.

Not all doors are the same and often it is difficult to choose between similar products. With this mind you'll find a selection of features highlighted opposite to help you make the right choice. But if there's something more specific you need to know, please ask, we'd be delighted to help.

All of the doors described as Oak, Wenge, Walnut or Hardwood within this catalogue are of engineered construction with high quality veneer.

Right hand opening

Colonist 6 Panel

The centre of the lock block is approx 950mm from the bottom of the door and the overall height of the lock is approx 300mm.
The lock block is located to each side of the door and extends approx 100mm in from the edge of the door.

All of our White Moulded doors are grained and come with a 1 Year Manufacturing Defect Guarantee.

Easi-Frame
Range

The Easi-Frame system offers a flexible choice to help make the most of any living space. A room divider for any scenario can be formed with the numerous configurations available within the range. Available in a choice of Oak or White Primed (see page 66), this range is designed to complement other doors within the XL collection helping create a harmonious look throughout the home.

Step 1
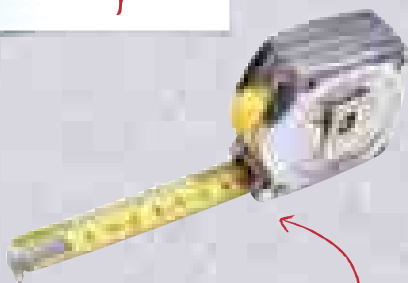

Measure your opening

Step 2

Choose your door style

Step 3

Decide on the configuration

The Easi-Frame is designed around our standard range of doors with complementary semi and demi panels available to build up your desired configuration.

Certain ranges available as pre-finished fully assembled doorsets for easy installation

A range of frame and side light options for non-standard door openings

WHAT MAKES A GREAT
EXTERNAL DOOR?

The choice and finish of an external door can express as much about the individuality of the home and its owner as the architecture. After all it's the first and last thing you see and making a good first impression counts.

Ensuring the perfect blend of form and durable functionality is what we do best. Our designers and global sourcing team work hard to bring you the highest specification products at the most competitive prices.

As with our internal doors you'll find our external range offers superior features and performance. With this in mind you'll find a selection of features highlighted opposite. But if there's something more specific you need to know, please ask, we'd be delighted to help.

All of the doors described as Oak or Hardwood within this catalogue are of engineered construction with high quality Oak or Hardwood veneer.

La Porte
Vista

Pre-Finishing

Having your doors professionally finished enhances the look of any internal door. It's also one less thing to worry about, that's why we offer a pre-finishing service on all our internal doors.

All our internal doors are finished using professional coatings. This provides an aesthetically pleasing and durable solution. All doors come with a clear stain to enhance the natural look of the timber with the exception of hardwood doors which are supplied with a rich mahogany finish.

Ragusa with Clear Glass (see page 25)

Louis (see page 39)

Sassari with Clear Glass (see page 29)

Please maintain regular treatment and care of pre-finished doors.
For more advice on treatment and care please visit our website
www.xljoinery.co.uk

Failure to maintain/replenish the finish can invalidate the guarantee.

We do not recommend the use of clear woodstain on external doors as they give the door less UV protection than other coloured stains.
We do not recommend the use of wax, polishes or treatment with oils.

Performance
and Specification

At XL we realise the importance of product specification and dedicate a lot of time and effort to ensuring the products we offer are products that will stand up to the rigours of everyday life.

But don't just take our word for it. Many of our products have been assessed and certified by independent testing organisations and have consistently scored highly as a result.

Our products are integrated into our quality management system which is BSI accredited ISO 9001:2008. Peace of mind for our customers as they know every product they buy has been manufactured to the same exacting standards.

We are also passionate about the environment with the majority of our range being FSC or PEFC approved and all of our range being procured responsibly. Our ISO 14001 certification is testament to our dedication on environmental issues.

Customer service and support

Our experienced internal sales team cover the whole of the UK and are available to answer any questions you may have. A proactive approach ensures trade customers are kept up to date with promotional offers and new products on a weekly basis.

In addition, our Area Sales Managers ensure trade customers get the support they need with products and services via our Branch Development Programme. This includes help and advice on product ranges and display options and is tailored to suit your business.

After sales support

We want customers to be absolutely delighted with our products. If a problem arises we don't believe you should be inconvenienced, that's why we employ a team of after sales professionals to deal with any issues. Our team will conduct a site visit then prepare and submit a report to our trade customers so they can notify their customer of the action to be taken. It takes the hassle away and people like that.

Technical support

Our technical helpline is available from 9.00am to 5.00pm, 7 days a week to answer questions you may have. Call us on 07000 785571.

Products when you need them

We don't believe our customers should have to wait weeks for their products to be delivered. That's why we hold over four million pounds worth of stock in our 110,000 square foot warehouse for delivery anywhere in the UK by our own fleet and drivers. The right products when and where you need them, just as it should be.

Quality

It's fair to say we're pretty obsessive about quality at XL. We have to be, as the quality of the products we supply are critical to our business. Our ISO 9001 certification is testament to this and proof of our consistent approach to business.

Every product is inspected by our technical team prior to dispatch to the customer and our supply base is monitored constantly to ensure products are manufactured to our exacting standards. It means our quality levels are amongst the best in the industry providing peace of mind for you the customer.

Guarantees

We offer comprehensive guarantees on all the products we supply.

// 10 years on all external and internal timber doors

// 1 year on our white moulded ranges, frames, gates and weather bars

// 5 years on our plastic sheeting.

For further details of our guarantees please visit our website at: www.xljoinery.co.uk

Environment

At XL we recognise the importance of operating in an environmentally friendly manner. That's why we hold our own FSC Chain of Custody Certification (SA-COC-001476) and only procure products from carefully managed, sustainable sources. You'll find the majority of products within this catalogue are FSC certified. We are also ISO 14001 accredited which is testament that we truly operate in an environmentally friendly manner within all aspects of our business.

For more information on our company or products please find us on:

We reserve the right to alter specifications without prior notice.
