First Aid Policy

Policy statement

Binfield Preschool is able to take action to apply first aid treatment in the event of an accident involving a child or adult. At least one adult with a current first aid certificate is on the premises, or on an outing, at any one time. The first aid qualification includes first aid training for infants and young children. We have evidence of due diligence when choosing first aid training and ensure that it is relevant to adults caring for young children.

Procedures

The first aid kit

Our first aid kit is accessible at all times and contains the following items:

- Triangular bandages (ideally at least one should be sterile) x 4
- Sterile dressings:
  - Small x 3
  - Medium x 3
  - Large x 3
- Composite pack containing 20 assorted (individually wrapped) plasters x 1
- Sterile eye pads (with bandage or attachment)
- Container of 6 safety pins x 1
- Guidance card as recommended by HSE x 1

In addition, the following equipment is kept near to the first aid box:

- Disposable plastic (PVC or vinyl) gloves
- 1 plastic disposable apron
- A children’s forehead ‘strip’ thermometer
- A supply of ice packs kept in the freezer
- Information about who has completed first aid training

The first aid box is easily accessible to adults and is kept out of the reach of children. There is a named person in the setting who is responsible for checking and replenishing the first aid box contents.

First Aid

- Medication is only administered in line with our Administering Medicines policy
In the case of minor injury or accidents, first aid treatment is given by a qualified first aider.

In the event of minor injuries or accidents, we complete an accident form and a copy is signed and given to parents at the end of the session. If a child is unduly upset or we have concerns about the injury, we will contact the child’s parents for clarification of what they would like to do, i.e. whether they wish to collect the child and/or take them to their own GP.

An ambulance is called for children requiring emergency treatment. We contact parents immediately and inform them of what has happened and where their child has been taken.

Parents sign a consent form at registration allowing a member of staff to take their child to the nearest Accident and Emergency unit to be examined, treated or admitted as necessary on the understanding that they have been informed and are on their way to the hospital.

Accidents and injuries are recorded in our accident record book and, where applicable, notified to the Health and Safety Executive, Ofsted and/or local child protection agencies in line with our Recording and Reporting of Accident and Incidents Policy.
