

HILTON LAMINATING

PBM Comb closer

The PBM 650 is a heavy-duty modular plastic comb opener that allows you to open and close all standard size binding combs (from 4.8mm up to 50mm in diameter) and up to 350mm in length. Its simple-to-use & all-metal construction design guarantee high productivity and durability.

FEATURES

The CBM650 modular unit is designed to work as a stand alone unit, as well as a mounted module to one of our comb binding punches such as the Combmec 240E and the WB Duo.

The unique ambidexterous design of CBM650 means its handle can be installed on either the left or right side, allowing an efficient operation whether you are left or right handed.

User-friendly design and heavy-duty all metal construction guarantee maximum productivity and durability.
