KEEPSAKES

Personal Keepsakes
page 82

Share the Memory of a Lifetime® with a beautiful keepsake.

Keepsakes provide a thoughtful option for families to share and cherish memories at home. Each Terrybear® keepsake can be used to preserve flower petals from a special arrangement, a small amount of cremated remains, sand from the beach, or soil from the burial site. Some keepsakes are large enough to hold a special piece of jewelry or other small memento.

Terrybear® keepsakes can be found throughout the catalog, as well as in this keepsake section. Since each family member may prefer something different, Terrybear has carefully designed unique products that will look lovely at home.

Please note that the Heart Keepsake Stands that appear in most of the product photos are available separately. The Heart Keepsakes come in a blue velvet box as shown to the right.

Metal and Cloisonné (K) Keepsakes can be ordered individually with a blue velvet bag. Please ask your distributor for more details.

PICK YOUR PHOTO

The photo you select may be the most important part of the photo printing process. The following helpful tips will guide you through the photo selection process and help ensure your custom photo print is of the utmost quality.

Subject of the Photo

✓ Ensure that the subject is in the middle of the photo to allow for the best possible photo placement within the design template.

✗ If your subject is near the edge of a photo, unbalanced cropping may result.

Attributes to ensure a high-quality photo print:

- Your Loved One/subject of the photo is in focus and near the middle of the photo.
- A photo that is at least 4" x 6" and the subject is large and the primary focus of the image.
- The orientation of the photo matches the chosen design template.
- There is adequate space for cropping – at least a .25 inch around your loved one/subject.

Photo Size and Quality

✓ A high resolution photo ensures the highest print quality.

✗ A small photo that requires enlargement to fill the frame, or a photo with low resolution may result in poor print quality.

Photo Orientation

✓ Select a photo that matches the orientation of the design you choose to allow for proper image placement.

✗ A photo that does not match the orientation of the chosen design template may result in unbalanced cropping.

Attributes that may cause a poor-quality photo print:

- Your loved one/subject is out of focus, blurry, or near the edge of the photo.
- A photo that is smaller than 4" x 6" or where the subject of the photo is very small and needs to be enlarged.
- Your loved one/subject of the photo is very small – image quality will be lost when the photo is enlarged to fill the design template.
- The photo is of a group of people – group photos often make it difficult to crop properly. If a group photo must be used, please indicate your loved one.
