## Wessex ProLine Tri-Deck Roller Mowers

A Broadwood International product

**RMX-560**

**RMX-680**

*When only the best will do...*

*"It seems Wessex have thought of it all"  
– says Horticulture Week reporter*

## Reduce mowing times and increase output and profitability!

The Wessex ProLine RMX tri-deck roller mowers incorporate all the features and benefits of the popular rigid deck units into one superb wide area machine which has set a new benchmark in high output roller mowers.

They are the answer when a premium quality cut and a high output are required at an affordable purchase price and minimal maintenance costs. Ideal for the council or local authority contractor, sports club, polo pitch or turf farm, the **RMX tri-deck roller mowers** are available in 5.6m and 6.8m working widths and will allow exceptionally high work-rates increasing profitability.

Independent wing control, the absence of electric clutches, the ability to mow a bank between +30° and -30° and independent suspension for smooth road travel are but a few of the many standard features which set the **RMX tri-deck roller mowers** in a league of their own.

### Key features and benefits:

- ✓ No electro-hydraulics required
- ✓ No electric clutches
- ✓ Independent wing control
- ✓ Operational with one wing lifted
- ✓ Folding wings can cut gradients from -30° to +30°, whilst the middle deck remains on level ground
- ✓ Independent float on all decks
- ✓ Turf tyres for minimal ground compaction
- ✓ Independent suspension for smooth road travel
- ✓ Double taper roller bearings in all rollers
- ✓ Available in 5.6m, 6.8m and 8.0m working widths
- ✓ Optional spare wheel and hydraulic brakes

- ✓ **Reduced maintenance** – Save both time and money
- ✓ **Premium cut** – Superb results every time
- ✓ **Reduce fuel consumption** – Save 50% in fuel costs

### Features with patent pending

- ✓ Linkage system
- ✓ Transmission system

Superb for road travel

Banks present no problem at all

✓ A truly versatile machine with independent wing control operational between +30° and -30° of horizontal
