

# Automatic Letter Opener

Model 3066

## **Milling Cutter Technology**

Protects the contents from being cut or damaged. Removes up to 3mm (1/8") of the envelope edge. The removed material is in the form of tiny chips, which are deposited in the waste bin. Creates a soft, feathered edge opening, which prevents paper cuts and gives easy access to the contents.

## **Mixed Thickness Separator**

This separator design ensures that only one envelope passes through the machine at a time maximizing separation and improving cut quality.

## **High Speed**

Opens up to 28,000 envelopes per hour. Opens mixed mail, from the smallest to the largest, completely. Opens up to 6mm (1/4") thick envelopes. Entire system built to handle large flats and envelopes.

## **Simple and Reliable**

High degree of operational reliability

## **Heavy Duty**

Solid metal construction throughout. Made of steel using the highest quality of components. Has two motors for better performance and a longer life.

## **Easy to Operate**

## **Options/Accessories**

Resettable Counter
