Electric | Fires & Stoves
It’s never been so easy to get the warm inviting atmosphere of a real flame fire with all the convenience, versatility and efficiency of electricity.

Using the latest Flame-Effect Technology, Gazco has created a beautiful range of fires and stoves that provide a versatile and stunning focal point for any home – and all without the need for a chimney!

Whether you want to achieve a modern, contemporary look or a more classic, traditional interior, this brochure will help you make the perfect choice, whatever your style or budget.
When you choose Gazco, quality and technology are assured. From contemporary hang on the wall fires to traditional stoves, Gazco are committed to creating the ultimate in realistic electric flame effects.

Our research and development laboratories are amongst the most advanced in the industry, ensuring that the very latest innovations are incorporated into our products.

Gazco is part of the Stovax Group who offer a prestigious product range which includes everything from traditional to the ultra-contemporary in a wide array of styles and sizes, so whether your choice is solid fuel, gas, or electric you can be sure to find a stove or fireplace from our range to add the perfect warmth and character to your home. Both Gazco and Stovax offer solid fuel and gas versions of several of the fires and stoves in this brochure. Full details of the Stovax Group’s range of products can be found at www.stovax.com.

Gazco is an ISO9001 accredited company. Our rigorous quality control system ensures that all our appliances comply with British Safety Standards as well as stringent European regulations. All fires and stoves in the brochure are CE marked. This means they have been independently tested to exacting European standards.

Warranty Information
Your Gazco retailer will provide you with a Two Year Extended Warranty for your new electric stove or fire, providing it is registered with Gazco. Please note, this warranty excludes certain consumable parts. Stoves and Fires purchased outside of Gazco’s Expert Retailer Network will carry a standard One Year Warranty. Full warranty details, terms and conditions are available at www.gazco.com.
We take great care to ensure that our stoves and fires are designed, tested and manufactured to the highest possible quality and safety standards. We are just as concerned to make certain that they are sold and installed correctly so that you will enjoy years of pleasure from your purchase.

Accordingly, you will find our products are only available from experienced, independent retailers who will be happy to show you a selection of models locally in their showrooms, often fully operational. These independent retailers will discuss your individual requirements both technical (such as sizing the heat output to your room) and design, to ensure that you select the most appropriate product for your home. They will also be able to advise on, or assist with, the installation process as well as help provide any after-sales support and servicing your appliance may require in the future.

Whilst we encourage our retailers to promote fireplace products and their outlets via the internet, we do not believe suitable levels of customer care and satisfaction can be obtained from purchasing the product only online and we would strongly recommend that you consider this when undertaking your research and making a purchasing decision. Furthermore, please be aware that we do not offer technical support (beyond our statutory responsibilities) to products bought via nationwide online sales, where this support would normally be offered by one of our qualified, independent retailers.

In addition, Gazco fires and stoves purchased from within our Expert Retailer Network will have the additional benefit of an extended warranty period, subject to terms and conditions. Full details can be found at www.gazco.com.

### VERIFLAME™ TECHNOLOGY

Gazco’s VeriFlame™ Technology enables you to switch between heat settings and even adjust the brightness of the flames to create the atmosphere you desire with the remote control.
STUDIO ELECTRIC SIZES

The outstanding Studio Electric range is available in a choice of four sizes including a portrait option. With their simple ‘hang on the wall’ installation and a choice of contemporary styles, these advanced technology electric fires can add stylish warmth to almost any room in your home with the ultimate ease. All Studio Electric fires benefit from remote operation and feature an additional thermostatic control.

**Studio 1**

The highly efficient Studio 1 is the most compact landscape model in the range, making it the perfect choice for adding a dramatic focal point in a smaller interior. As with all Gazco Electric fires, you can tailor the atmosphere to suit your mood or occasion. The Studio 1 lets you vary the heat output between 0.9kW or 1.8kW, as well as allowing you to enjoy the flame effect without the heat at all.

**Studio 2**

For effortless style and maximum impact, opt for a Studio 2 Electric fire. The larger dimensions make an eye-catching focal point and accentuate the highly realistic LED flame effect. The Studio’s remote provides complete control over the heat and flame settings from your fingertips. With a variable heat output between 0.9kW or 1.8kW, and the option of the flame effect by itself without the heat, the Studio 2 offers complete versatility for your home.

**Studio 3**

The largest fire in the range the Studio 3 offers not only a truly panoramic view of the highly realistic LED flame effect but also provides you with a maximum heat output of 1.8kW. The larger dimensions make the Studio 3 particularly suited to living spaces of more substantial proportions. Additionally, during the warmer months, you can enjoy the enticing flame effect without the heat.

**Studio 22**

The Studio 22 adds instant presence and vertical definition to any modern interior. With its unusual yet highly attractive portrait form, a Studio 22 Electric is perfect for the contemporary living room but equally capable of making a designer statement in the study or office. On milder evenings, just sit back and enjoy the flickering flames without the heat or bring some cosy warmth to your room with a variable 0.45kW - 0.90kW heat output.
Sleek, chic and contemporary, the Studio Electric Glass offers a distinctive focal point that complements any interior. Available in four sizes, this striking frame offers instant impact, whatever your room size.

Easy to fit, this designer fire can simply be hung on the wall and its shallow depth means it will only protrude minimally into your room.

A stunning flame-effect with 4 levels of brightness is available at the touch of a button on your remote control. You can alter the heat output to suit your requirements, or you can even enjoy the stunning LED flame-effects with no heat at all!

Gazco’s range of Studio Electric Fires has also been uniquely developed so that the fan operation controls both the heat output and flame-effect simultaneously, offering not only better efficiency, but also one of the quietest fan-assisted electric fires available.

For more detailed information please see page 58.
The stylish Studio Electric Verve has a beautifully curved frame in a choice of four stylish finishes, making a striking designer statement that can be appreciated from all angles. Whether it’s a luxurious living room or a stylish study, the hang-on-the-wall Studio Electric Verve is incredibly versatile with three landscape sizes and a portrait option to choose from.

This designer fire heats your room on command from your remote control. With two adjustable heat settings and four flame brightness levels, you can create the perfect atmosphere for every situation. Simply plug in your Studio Electric Verve and instantly enjoy the inviting glow created by our unique LED flame-effect technology.

The Studio Electric Verve comes with a removable White Stone fuel bed effect, giving you even more styling options.

**Finish Choice**

- Studio 22: 676 x 1320 x 156

**Efficiency**
- 99%

* For more information on colour options please see overleaf.

Also see image on page 6. For more detailed information please see page 58.
Studio Electric 22 Verve in Metallic Red
For those that want to add a splash of colour into their living space, Gazco offer a range of vibrant colour options specifically designed to complement the stylish, contemporary form of the Studio Electric Verve.

Whether to liven your living room, brighten your bedroom or even highlight your hallway, these four striking colours are sure to catch the eye and transform your interior space.

The colours shown on this page are available for all four Studio Electric Verve sizes which are additionally shown on pages 10 - 11.

There is a choice of three eye-catching colours to choose from: Metallic Red, Metallic Bronze and Ivory. Please use the product code for the Studio Verve of your choice, with the following suffix for your chosen colour:

- Metallic Red (RD)
- Metallic Bronze (BZ)
- Ivory (IV)

For example: Studio Electric 2 Verre in Metallic Red: 223-427RD

For more detailed information please see page 58.
With a sophisticated two-part design, the new E-Motiv frame features a sleek glass front with a stylish wooden background for a distinctive, layered aesthetic.

Each layer can be tailored with your choice of finish. The front is available in either black or white glass whilst a choice of real Walnut or Oak veneer finishes can be selected for the wood background. Each option is fully compatible so you can choose your preferred combination of glass colour and wood finish to best suit your interior décor.

The E-Motiv is available for all four sizes of the Studio Electric including the portrait Studio Electric 22. With alluring LED flame effects, the Studio Electric E-Motiv will create a warming ambience and eye-catching aesthetics with the ultimate convenience offered by a high quality electric fire.
The Evolve is a stylish two-part frame that features a subtly curving wooden front in a choice of Walnut or Oak finishes bordered by a sophisticated black steel rear.

The Evolve comes with contrasting Brushed Steel infills which fit into recesses on either side of the front of the frame. The Studio Evolve can be further styled to your own décor by choosing from three additional infill options: including Polished, White or Black Steel.

† Wood is a natural material. There will be variations in shading and occasionally knots in the timbers used. For more detailed information please see page 58.
The Designio2 Glass’ reflective black surfaces and subtle detailing perfectly complement this stylish electric fire. Offering chic, contemporary styling this mesmerising fire and frame choice creates an eye-catching centrepiece that can suit a wide range of interiors.

For a streamlined aesthetic, the Riva2 670 Electric can be slotted into a pre-constructed hole. Alternatively you can use the optional wall mounting box to hang your fire on a flat wall. The versatile Designio2 frame also allows the 670 Electric to be hearth mounted for a more traditional fireplace setting.

**Finish Choice**

*Depth when recessed into wall, for more information on the optional wall-mounting box please see page 61.

For more detailed information including firebox dimensions please see page 61.
The Designio2 Steel is a stylish frame that has been thoughtfully shaped for the Riva2 670 Electric and sports a simple yet sophisticated design.

Finished in a choice of stylish Graphite or smart Iridium, the Designio2 Steel offers you a complete focal point with a thoroughly contemporary and cutting edge look that will complement many interiors and decors.

Offering versatile styling options, the Designio2 Steel can be wall or hearth mounted depending on your tastes. Additionally, the fire can also be installed using the optional wall mounting box, for flat wall installation.

For more detailed information please see page 61.
The Evoke Glass is an eye-catching frame with layers of stunning reflective glass and sophisticated steel combining to create a thoroughly stylish accompaniment to the highly efficient Riva2 670 Electric.

Choose from a lustrous black or white glass front to complement the bevelled rear steel section in Graphite. Alternatively the rear can be selected in either Metallic Red, Metallic Bronze and Ivory colour finishes.

All Riva2 670 Electric fires can be recessed into a pre-constructed hole for a more minimalist installation but can also be hung directly on the wall with the optional wall mounting box.

See front cover for additional image.
Riva2 670 Electric Evoke Glass with Black Glass front & Graphite rear
Riva2 670 Electric Evoke Steel
with Graphite front & Graphite rear
The Evoke Steel is a stunning, two-part design that blends expertly into both traditional and more modern interiors. The front face of this frame comes in a stylish Graphite finish with the option for customisation in one of three exciting additional colour choices.

The attractive bevelled rear is left in Graphite to perfectly complement the standard Graphite front finish or form a contrasting border to any of the bold colour choices. With variable flame effect and heating settings, and the option to enjoy the flames without any heat at all, the Riva2 Evoke Steel is as impacting in its functionality as it is in its designer aesthetics.

Studio Electric Inset 80

It’s hard not to warm to the landscape form of the Studio Inset 80. This fire provides all the dramatic presence of a cassette fire, with the proportions to suit small to medium rooms. Created using the latest technology, the Studio Electric Inset 80 has two heat settings from 1 – 2kW and variable LED flame brightness settings. All of its features are easily controlled from the comfort of your sofa, using the remote control.

Studio Electric Inset 105

The longer lines of the Studio Inset 105 make a stylish designer statement in any interior. The Studio Inset 105 has two heat settings, from 1–2kW and benefits from a beautiful LED flame effect, all controlled by the easy to use remote. With no need for a chimney, the Gazco Electric fire ranges can be used to add contemporary style to almost any room in your house.

Studio Electric Inset 150

The Studio Electric Inset 150 is the biggest landscape fire in the range and therefore more suited to larger interiors. The 1-2kW heat settings, LED flame-effect and variable brightness levels are all controlled directly from your remote so you can just sit back and appreciate this stunning fire with complete ease. With its grand proportions and stunning frameless design, the Studio Electric Inset 150 makes a truly impressive statement.

Riva2 Electric 55

The Riva2 Electric 55 has a striking square design and a flame visual to match. Designed with a stunning LED flame-effect, variable brightness and 0.5kW - 1.0kW heat settings, the Riva2 Electric 55 blends form and function, controlling it all with the remote included.

Riva2 Electric 70

The Riva2 Electric 70 has a sleek and contemporary virtually square format to extend your possibilities. The frameless design emphasises the highly realistic flame effect which has variable brightness levels. The Riva2 Electric 70 also benefits from being compatible with Gazco’s exquisite collection of Natural Stone Mantels.
The Studio Electric Inset’s frameless design creates a strikingly contemporary and minimalist look. Available in three different sizes and installed completely flush with the wall, the Studio Electric Inset has the versatility to complement a wide range of stylish room designs.

Relax in your favourite arm chair and enjoy heat at the touch of a button. Designed for ultimate ease of use, you can control everything from the remote control included. With two heat settings from 1 - 2kW, the Studio Electric Inset fires also benefit from variable LED flame-effects and brightness to suit your mood or ambiance.

On warmer evenings you can enjoy the fire without any additional warmth as the LED flame effect can be cleverly operated independently of the heater.

**Heat Output**
- 1.0kW – 2.0kW
  (for flame effect only)

**Efficiency**
- 99%

**Dimensions w x h (mm)**
- Studio Electric Inset 80: 800 x 380
- Studio Electric Inset 105: 1050 x 380
- Studio Electric Inset 150: 1500 x 380

For more detailed information please see page 59.
Creating an impressive focal point in any setting, the Riva2 Electric range offers captivating flame-effects in a choice of sizes to suit a range of interiors.

Featuring one touch heat, two adjustable heat settings and variable brightness, the Riva2 is so versatile that you can create a bespoke atmosphere for any occasion. Alternatively, you can switch off the heat and simply enjoy the authentic atmosphere created by our unique LED flame-effect technology.

You can further increase your design possibilities by pairing your Riva2 Electric 70 with a selection of timeless Riva2 Natural Stone Mantels as shown on pages 36 - 37.

### Heat Output
- **Riva2 Electric Inset 55**: 0.5kW - 1.0kW
- **Riva2 Electric Inset 70**: 1.0kW - 2.0kW (or flame effect only)

### Efficiency

For sheer elegance and ultimate sophistication, you can combine your Riva2 Electric 70 fire with one of Gazco’s beautiful natural stone mantels. There are six designs to suit both traditional and modern decorative styles, each available in either the clean look of antique white marble or the gentle warmth of natural limestone.

A Riva2 Electric stone mantel provides you with the highest levels of aesthetic and tactile appeal from the hand-finished craftsmanship that goes into each and every one.

### Mantel Styles
- Claremont
- Cavendish Bolection
- Georgian Roundel
- Grafton
- Sandringham
- Victorian Corbel

### Dimensions w x h (mm)
- Claremont: 1555 x 1143
- Cavendish Bolection: 1460 x 1320
- Georgian Roundel: 1460 x 1082
- Grafton: 1415 x 1165
- Sandringham: 1550 x 1220
- Victorian Corbel: 1525 x 1170

### Mantel Stone Choice
- Antique White Marble
- Limestone

### Heat Output
1.0kW - 2.0kW (or flame effect only)

### Fire Dimensions w x h (mm)
- 700 x 650

### Efficiency

* Our stone mantels are crafted from high quality, natural material and therefore will contain naturally occurring veining, subtle tonal differences and indeed, small fossils that may be found in the limestone or marble.

† Overall visible dimensions upon installation. For more detailed information, including firebox dimensions please see page 59.
Logic2 Electric Chartwell with Brushed Steel Effect Frame, Highlight Polished Front and Grey Pebble fuel effect. Shown with Claremont Limestone mantel, Stovax Burlington Cast front and Polished Insert Panel.
Logic2 Electric Fire Selection

Featuring advanced LED technology, the Logic2 Electric Inset fire range offers captivating, life-like flame visuals for instant fireside ambience. Designed to fit easily into a standard fireplace opening, 3” rebated mantel with slip or simply against a flat wall using the optional spacer frame, this versatile fire can be enjoyed in almost any interior setting.

The Logic2 features two LED flame effects including deep amber for a warm and inviting atmosphere, as well as cool blue for an eye-catching contemporary focal point. Using the handset that gives you full control over the fire’s features, the Logic2’s flames can be set to high and low brightness settings and can also be displayed with or without the heat if desired.

Enhancing the visual effects, the Logic2 Electric comes complete with three easily interchangeable fuel beds which each add a unique aesthetic to the fire. The log arrangement adds a traditional woodburning feel, or, switch to either white and clear stones or grey pebbles for a strikingly contemporary look.

The versatile Logic2 has a choice of modern and traditionally styled frames and fronts (shown on the following pages) that allow you to customise your fire to suit your home.

3 Interchangeable Fuel Effects

- Log-effect
- White & Clear Stones
- Grey Pebbles

Logic2 Electric Wave with Polished Steel Effect Frame, Polished Front and Log-effect fuel bed on blue flame setting. Shown with White Brompton wooden mantel from Stovax.
Logic2 Electric Arts with Highlight Polished front, Brushed Steel effect frame and White & Clear Stone fuel effect. Also shown: Art Deco wooden mantel in white, available from Stovax.
Taking its design origins from the Arts and Crafts movement in the early twentieth century, the Logic2 Arts embraces simplicity and clean styling. Available in a range of front and frame finishes, the Arts can be selected in a variety of combinations to suit your tastes. Using the optional spacer frame the Arts can also be installed without having to be inset the fire into a wall, minimising building work.

For more detailed information please see page 60.
The elegant Logic2 Chartwell instantly evokes the heritage and classical styling of a traditional fireplace. Available in various front and frame finishes, the Chartwell can be combined with Gazco’s many mantels, fronts and insert panels to create the perfect fireplace for your home.

For easy installation, each frame choice can be used with the optional spacer frame which allows the Logic2 to be fitted directly against a flat wall.

See page 38 for additional image.

The ultra-contemporary Progress front’s minimalist styling perfectly complements the advanced Logic2 fire. Featuring a smoothly curving front with a striking Iridium finish, this modern fire effortlessly makes for a designer centrepiece in any interior.

The versatile Logic2 fire range is designed to be fitted into a standard fireplace opening or flat against the wall with either a 3” rebated mantel with slip or by using the optional spacer frame.

For more detailed information please see page 60.
Logic2 Electric Progress with White & Clear Stone fuel bed on blue flame setting. Also shown: Malmo wooden mantel in white available from Stovax.
The Marlborough Electric offers you an amazingly realistic log-effect fire at the touch of a button in two different sizes. At its heart is Gazco’s unique VeriFlame™ technology which allows you to choose from two heat settings that can both be thermostatically controlled*, three brightness levels, plus the additional option for a blue flame-effect when set to high. You can even turn off the heat and just watch the stunning flame-effects.

Gazco Electric Stoves simply plug into a 13amp socket, so are particularly suited for conservatories, bedrooms or studies, in fact any room without a chimney.

Medium Electric Steel Manhattan in Brushed Stainless Steel
Contemporary, convenient and comforting; the small and medium Steel Manhattan Electric stoves both provide clean lines and contemporary styling, featuring a contrasting cast iron grill plate in the stove top.

With a highly realistic log-effect fire and up to 2kW of heat, you can achieve the perfect ambiance, all at the press of a button on your remote control*.

Both versions benefit from our unique VeriFlame™ technology which offers you three different glow intensities and even an additional blue flame option on the high setting.

Vision Midi Electric

ELECTRIC STOVES
The Vision is a contemporary, electric stove that comes in three sizes: Small, Midi and Medium; each sporting a highly reflective black glass door, integral glass plinth, black glass top plate and contrasting stainless steel detailing for a clean stylish look.

Incorporating an eye-catching flame effect created using Gazco’s unique Veriflame™ technology, the Vision’s alluring visuals glow over a realistic hand painted log-effect fuel bed to give all the ambiance and depth of a real log fire.

The three brightness levels can be easily altered at the touch of a button on the remote control* to create a look to suit your mood. Furthermore, each level is available with or without the 1-2kW of heat output, so you can enjoy the ambiance created by your electric stove whatever the season!

To increase your interior design possibilities, you can enhance your Vision by choosing from one of ten stylish Riva Stove Benches as shown on page 62.

The very latest addition to grace the Gazco Electric range, the Radiance series brings together stylish design and advanced flame technology to create an electric fire with mesmerising effects.

Offering a captivating, realistic flame picture in a choice of effects and colours, this designer fire is available in either wall mounted or inset versions, as well as a variety of sizes and styling options for optimal versatility. A choice of beautiful frames and eye-catching fuel effects allow for individual tailoring to your décor – radiating the utmost sophistication and style.

Featuring our state of the art Chromalight™ LED technology, some fires in the Radiance series incorporate a 12 colour chromotherapy backlighting system, letting you bask in the serenity of a soothing, gradually changing colour spectrum or using the handset, immerse yourself in your favourite aura – at the touch of a button.

For more information on the full Radiance range or other Gazco products, please contact your local retailer or visit www.gazco.com
