

Heritage Range

19th century looks,
21st century windows.

Heritage inspired, modern functionality.

Preserve the traditional look of your home and get all the benefits of a modern window system.

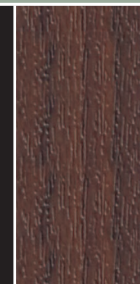

Inspired by 19th century ironmongery, Safechoice 'Monkey tail' style hardware is not only aesthetically pleasing, it's also extremely practical too.

The Heritage Range hardware, comprising the fully functioning, lockable handle and decorative window stay, not only help you retain the classic look of period windows, they're also compatible with all Safechoice casement windows, meaning you benefit from industry leading energy efficiency and improved security too.

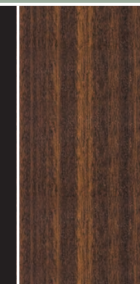

Colours to match and complement.

We have an exciting range of foil finishes to complete your window, all helping to preserve and enhance the design and style of your home.
