INSPIRING INTERIORS
TRANSFORMING HOMES

Avista’s flooring products provide a hard-wearing, seamless surface which gives great strength and durability with fantastic design flexibility.

You can create floors to suit your every need – from that cutting edge feature floor, to unique treatments for kitchens, entertainment areas, laundries, rumpus rooms and garages.

Waterbased epoxy products provide an easy to use and durable option, while an epoxy flake floor can create a unique new look.

Avista recommends application by a professional applicator.

Finish: Avista Terrazzo Flake Flooring
Base Colour: Avista Chris White in Avista Waterbased Epoxy Resin
Flakes: Avista Ashy Grey
Top Coat: Avista 2 Pack Urethane Sealer

Finish: Avista Flake Flooring
Base Colour: Avista White (1L) in Avista Epoxy Resin
Flakes: Avista Made To Order
Top Coat: Avista Polyurethane Sealer
SOLID COLOUR

DURABLE, EASY TO USE AND ECONOMICAL

Waterbased epoxy flooring provides a durable, protective solid colour coating for your internal concrete floor. Avista’s waterbased epoxy system is low-odour, quick-drying and provides a hard-wearing, low-sheen finish which can be tinted to a range of practical colours. It is an easy to use two-part system where Part A and Part B are mixed in equal quantities.

Avista’s waterbased epoxy products are ideal for your garage floor or rumpus room and can also be used for light commercial floors.

Finish: Avista Solid Colour
Colour: Avista Trunk Grey in Avista Waterbased Epoxy Resin
Top Coat: Avista 2 Pack Urethane Sealer (optional)
For an alternative to a solid floor colour or decorative flake flooring, try Avista’s Waterbased Epoxy Stippled Stone look. This can be achieved using the tinted Waterbased Epoxy for the base, and also for the stippled effect, which is applied by a professional applicator using a hopper gun.

For a hard wearing, scratch resistant, high build finish, add Avista’s 2 Pack Urethane as the top coat.
BASE COLOUR

CHOOSE YOUR PERFECT COLOUR

**In Store Tint Range**

These colours form the Avista Waterbased In Store Tint range which can be tinted in Dulux® Trade Centres or Inspirations Stores (check the Avista website for stockist details).

The Waterbased Epoxy Part A must be tinted full strength to 4L to achieve the desired colour.

**Waterbased Colour Tint 400ml Range**

The Avista Waterbased Colour Tint 400ml range can be found on shelf in your local stockist.

Avista Waterbased Colour Tints change colour once mixed with Avista Waterbased Epoxy due to its white base. The images below show the tint colours after being mixed with Avista Waterbased Epoxy.

**Dulux® Colour Tints**

The Avista Waterbased Epoxy Part A can be tinted using any Dulux® colour tint with a white base, however, due to the white base the resulting colour will always be a few shades lighter than it appears on a Dulux® colour card or Dulux® colour chip/sample.

*Note: Colours represented are indicative only. For solid colour, a third coat may be required. When using white/light colours as a base coat for flakes, a third coat may also be required for better opacity.*
DECORATIVE FLAKE FLOORING

SOPHISTICATED TRANSFORMATIONS

Create your own designer look with a hard wearing epoxy floor coating incorporating Avista decorative flakes. A decorative flake floor provides a great alternative to other types of floor coatings and allows you to create your own look. It is a durable seamless finish for internal concrete floors and can be used for both domestic and commercial applications.

EPOXY RESIN BASE COAT COLOURS

The Avista epoxy resin base coat tints are designed to be used with the 10L Epoxy Resin Kit. These tints cannot be used with the Avista Waterbased Epoxy Resin (refer to page 6 for waterbased colour tints).
**EPOXY FLAKE FLOORING SYSTEM**

Avista Decorative flakes are a range of coloured 6mm sized flakes in various colour blends. The Avista Epoxy Flake Flooring System is comprised of the Base Coat* (plus colour tint), followed by Avista Decorative Flakes, and finished with the top coat.

There are a few possible flake systems to choose from:

FLAKES

Avista Decorative Flakes are multi coloured polymer flakes that are available in a range of blend combinations. The flakes are available pre-packaged in six popular designer colours and are also available in a range of other colours, blends and sizes as a custom made to order.

TOP DESIGNER COLOURS
Available in 6mm size flakes in 5kg boxes.

ASHY GREY ON CHRIS WHITE
DEEP GRANITE ON PORTOBELLO FIELD
MIDNIGHT STONE ON BLACK (WATERBASED 400ML)

GREY CLOUDS ON SANDY PIER
TAWNY SAND ON BEIGE TUSK
NAVY GRANITE ON CHRIS WHITE

Finish: Avista Flake Flooring
Base Colour: Avista White (1L) in Avista Epoxy Resin
Flakes: Avista Made To Order
Top Coat: Avista Polyurethane Sealer
**TERRAZZO LOOK**

**What is terrazzo?**
Terrazzo is a flooring material consisting of chips of marble or granite set in concrete and polished to give a smooth surface. A similar look can be achieved with a partial flake application at a fraction of the cost. Many different terrazzo looks can be achieved by choosing different base colours to combine with various flake blends.

**POPULAR TERRAZZO LOOKS**

- **Ashy Grey on Chris White**
- **Navy Granite on Endless Grey**
- **Deep Granite on Portobello Field**
- **Midnight Stone on Black (Waterbased 400ML)**
- **Grey Clouds on Sandy Pier**
- **Tawny Sand on Beige Tusk**

**Finish:** Avista Terrazzo Flake Flooring
**Base Colour:** Avista Chris White in Avista Waterbased Epoxy Resin
**Flakes:** Avista Ashy Grey
**Top Coat:** Avista 2 Pack Urethane Sealer
MADE TO ORDER FLAKES

Looking for something a bit different and unique? Choose from our Made To Order options. The Stone blends are a premixed offering, or choose your own combination from the selection of individual flake colours below.

STONE MADE TO ORDER BLENDS
Available in 6mm and 3mm size flakes in 5kg boxes.

INDIVIDUAL FLAKE COLOURS FOR CUSTOM MADE TO ORDER BLENDS
Available in 6mm and 3mm size flakes in 5kg boxes.

Visit https://www.avista.com.au/order-form/ and fill out our order form to order your custom blend. Note additional lead times may apply for custom orders and you must be an Avista account holder. Please call or email Customer Service for details.

Colours shown in this brochure are intended as a guide only. Colours may vary from batch to batch. Variations in colour and shading may also occur depending on the job conditions, chosen texture and finishing practices employed by your concrete contractor.
To achieve a sophisticated polished concrete finish, it is possible to grind and seal a concrete floor surface. This is done mechanically by a professional with a concrete grinder, until the surface is ground back to achieve the desired result. Avista offers various sealers that can be used as a top coat to provide a gloss finish.

Avista Waterbased Sealer
A semi gloss, low odour sealer designed to give a more natural look.

Avista 2 Pack Urethane Sealer
A two pack sealer with good wear and chemical resistance, with a high gloss appearance.

Avista Polyurethane Sealer
A high gloss, high abrasion resistant, high build coating, for a high performance finish in high traffic areas.
