### NXT Cool Zone™

Revolutionary heat reflective low VOC, high gloss acrylic roof coating with Thermal Protection Technology to reduce the heat of your roof. Available in a range of colours including dark and earthy colours with self cleaning nanotechnology. Drinking water safe.

**Available Sizes:** 20 Lt

### Tileflex

Tileflex impregnated with self cleaning nanotechnology providing significantly more gloss on application and maintains the new roof look for much longer.

**Available Sizes:** 20 Lt

### Nuflex

Technologically advanced 100% acrylic gloss roof and masonry surface coating. Colour fade resistant and non-yellowing to maximum durability and performance under the most adverse weather conditions. Drinking water safe.

**Available Sizes:** 20 Lt

### Master Sealer

High quality roof primer specifically designed for stable cement roof tiles.

**Available Sizes:** 20 Lt

### Supa-Prime

Extremely tough water based primer designed for maximum penetration into the surface of powdery oxidised cement roof tiles.

**Available Sizes:** 20 Lt

### GP Primer

General purpose primer with high solids content designed as a filler coat on very rough and porous cement tiles.

**Available Sizes:** 20 Lt

### Anti-Corrosion Metal Primer

Single pack acrylic metal roof primer. Providing excellent chemical resistance and topcoat adhesion.

**Available Sizes:** 20 Lt

### PaveCoat Colours

Available in Matt, Semi or High Gloss and is recommended for all concrete surfaces to enliven them with a colour of your choice. Suitable for pedestrian and vehicle traffic.

**Available Sizes:** 20, 10, 4, & 1 Lt

### PaveCoat Clear

Available in Matt, Semi or High Gloss and recommended for a wide variety of decorative and protective concrete finishes providing a highly durable surface.

**Available Sizes:** 20, 10, 4, 2, & 1 Lt

### PaveCoat Cure & Seal

Ideal for sealing new green concrete on the day that it is poured. Sealer penetration is greatly improved ensuring better adhesion and a more durable surface.

**Available Sizes:** 20, 10 & 4 Lt

*Also available in PaveCoat H<sub>2</sub>O water based concrete sealer*

### EPIC Polycryl (Part A & B)

High gloss clear or coloured with excellent durability and chemical resistance for both interior and exterior use. Applied over a wide range of concrete surfaces, timber floors and metal surfaces that have been correctly prepared and primed with the appropriate EPIC primer.

**Available Sizes:** 20 & 4 Lt Kits

### EPIC Epoxy 500 (Part A & B)

Is a high gloss coloured solvent based epoxy for interior floor and food preparation areas where impervious floor barriers are required. Excellent durability and chemical resistance.

**Available Sizes:** 20 & 4 Lt Kits

### Epoxy 100 (Part A & B)

High gloss solventless epoxy used for self levelling or high build non slip interior flooring and coving when mixed with silica sand. Attractive finish is achieved with overcoating with coloured Epoxy 500.

**Available Sizes:** 20 & 4 Lt Kits

### EPIC Industrial Enamel

Coloured high gloss coating suitable for a wide range of interior concrete surfaces. **Available Sizes:** 20 & 4 Lt

### Nu EcoSafe Strip

Non-hazardous, biodegradable water based stripper removes coatings with ease while waste collection becomes as easy as scraping raised paint and washing with water. Removes multiple coatings in one application.

**3 Strengths Available** (Lid Colour)

- Architectural Stripper
- Industrial Sacrificial Coating Stripper
- High Performance Stripper

**Available Sizes:** 20, 10, 4 & 1 Lt

### Nu EcoSafe Strip Graffiti Remover

Unique graffiti remover specifically formulated to remove spray paint without harming the underlying painted surface.

Clear biodegradable liquid with inoffensive odour effective on permanent marker, lipstick, crayon, tape residue, chewing gum and overspray.

**Available Sizes:** 10, 5, 1 Lt & 500 ml

### Nu EcoSafe Strip EcoZorb

Non-chemical, non-toxic, noncarcinogenic, odourless dry encapsulant.

Can be used in domestic and industrial applications:

- Paint & paint stripper - provides safe and rapid absorption of paints, varnishes, disinfectants, oils and solvents
- Waste paint hardener
- Workshops and garages

**Available Sizes:** 8, 4 & 1 Kg
