To comply with local building codes, some floor plans may require modification. Plans and renderings are subject to change without notice. For illustrative purposes, renderings may show items not included in Honest Abe Log Home packages. Square footage and dimensions are approximate.

From humble beginnings in the foothills of the Appalachian Mountains, Honest Abe Log Homes has risen to the upper echelon of its industry. Honest Abe started from an expansion of a small sawmill over 30 years ago, and quickly became one of the leading log home builders and manufacturers in the country.

Honest Abe is based in rural Moss, Tennessee, and serves most of the United States through four direct sales models in its home state and a vast dealer network, and has also serviced the international community. Honest Abe's hometown values have served thousands of homeowners from the western U.S. to Asia.

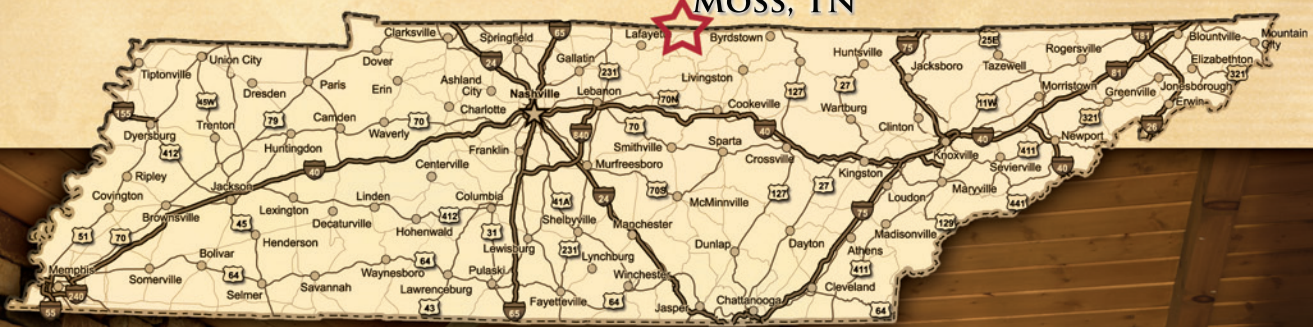

How did the company make such a quick rise? Innovative ideas led to quality homes produced by quality people. Honest Abe can help make your dream home a reality.

MOSS, TN

The LEGACY COLLECTION

Heavy Timber Roof:

A favorite of many of our customers, this roof system has it all. From large exposed beams and rafters to an impressive 2"x6" tongue-and-groove interior ceiling finish, the Heavy Timber style roof provides the look and feel of traditional log home living. Backed by the durability and strength homeowners expect from Honest Abe, our Heavy Timber roof brings out the beauty and elegance of homes designed with spacious high lofts and cathedral ceilings.

All floor plan pages contain a roof code diagram.

Roof Code Legend:

Conventional Roof = C.R.
Heavy Timber = H.T.
Regular Truss = R.T.
Scissor Truss = S.T.
Porch Roof = P.R.

Conventional Truss Roof

Used most commonly in our ranch-style one-story homes, this style affords the homeowner the option of enjoying large, open rooms and vaulted ceilings. Because of the flexibility of this roof style, homeowners can be more creative when designing the size, shape and placement of interior rooms. Our classic 1"x6" tongue-and-groove interior ceiling finish is part of this solid roof system option.

Conventional Rafter Roof

This roof system offers an affordable option with our classic 1"x6" tongue-and-groove interior ceiling finish. Honest Abe's conventional rafter roof style is a solid choice for homes with second-floor living space or lofts. Non-exposed rafters allow for the flexibility of vaulted ceilings at an affordable cost. Our conventional-style roof will meet any homeowner's needs with beauty and reliability.

SUBFLOOR SYSTEM

1. Foundation (By Owner)
2. Treated Sill, Sill Seal & Termite Shield
3. Joist (2"x10" @ 16" O/C)

HONESTABE[®] INC. Cottages

Family, friends and creating lasting memories, that is what Honest Abe Cottages are all about. Perfect for vacation homes, retirement or rental properties, the cottages offer layouts and amenities expected when seeking time away from everyday life.

Designed to include more outdoor living spaces than our typical plans, these homes inspire their guests to relax and enjoy the outdoors. We'll even help make modifications to the plan or the landscaping layout to create a get-away the family can enjoy for generations to come.

This series of plans is exclusive to our web site. The complete line of homes is waiting to be explored at:

www.honestabe.com

Create Your Own Dream Customer's Creations

While *Inspiring Home* is filled with so many great floor plan options, many of our customers already have a vision of their log home. Bring us a sketch on a napkin, or modify one of our existing plans as did the customer's below. Either way, our home owners end up with a wonderfully unique creation that is all their own. Read below about this "Customer's Creation".

Planning Starts

A family came to Honest Abe that really loved our Westport model (pg 47). However, they needed more space. Namely, they wanted an attached garage and needed to add a master bed and bath to the plan. They approached Honest Abe with the idea sketched below.

Dreams Take Shape

Working with the customer's suggestions, the Design Department at Honest Abe added on the extra space, allowing for a two-car garage and a master bedroom that features a spacious bath, twin walk-in closets and a sitting area.

Construction began soon after. The end result is this beautiful modified Westport plan, as seen below. At Honest Abe Log Homes, custom homes are what we do. If you did not find the perfect plan in this catalog, it is not a set-back. It is an opportunity to build something unique, your own "Customer Creation!" Go online at www.honestabe.com to find more examples.
