## Whitening FAQ

### How is Zoom different?

Over-the-counter whitening products are not customized to you. With Philips Zoom, the whitening process is tailored to your needs by your dentist, with custom-fitted trays for take-home treatments or just the right light intensity and duration in the dentist's office.

### How long will my Zoom results last?

Whitening treatments help to reduce existing stains, but consumption of coffee and soft drinks or even natural aging can discolor your teeth once again. Maintenance whitening can help combat recurring discoloration. Only Philips Zoom take-home products include ACP, which has been shown to help reduce fade-back.

To receive your Philips Zoom **\$50 rebate** and learn more about in-office whitening, visit **[zoomwhitening.com](http://zoomwhitening.com)** or call **(800) 422-9448**.
