# About GOOD NEWS MINISTRIES

Good News Ministries is a Christ centered mission organization founded by Agnes & William Massey out of obedience to God's call to prepare this generation to meet and be in the presence of Christ. Good News Ministries is focused on transforming generations by raising leaders and hosting revivals.

According to the social environment Good News means something that is positive, encouraging, uplifting or desirable but biblically it means the message of Jesus Christ concerning the salvation of the faithful.

And we strongly believe our youth needs both and therefore we found it a necessity to bring awareness to believe that the life of a youth can be a blessing for the whole mankind only if the spark of knowing Christ ignites in them because only that can bring empowerment in the generation. We strongly believe that Youth Ministry is essential in today's scenario for helping our teenagers integrate into a larger horizon and also be a part in the intergenerational community of the churches. It can also help in the status quo, helping the church stay relevant. Good News focuses on inviting those youth who are not a part of any church and can become pillars to narrate in fulfilling God's plan in a deeper sense by becoming disciples and future leaders. Youth Ministry in a church reminds its followers that teens cannot be considered as marginalized members of the body, but should be helped to be the co-creators and conspirators in the divine work of the church. As it will help the churches focus more on the way Jesus lead his life and be inspirations which will go beyond traditions, dogma and work.

The ministry has made an impact over 15 cities in last 3 years and overseas like Singapore, New Zealand, Fiji Islands and Indonesia and has equipped 23 leaders for ministry. It reach 4000 college students each year.
