

The new standard in lithotomy positioning

The Purple Stirrup Catalog

creators of the purple stirrup™

All KYRA® stirrups provide unparalleled pelvic site access,
larger boot sizing and better infection control.

Curved rod provides more ROM and working space

- The unique patent-pending design provides 22° more lithotomy range of motion than traditional stirrups
- Great for robotic surgery
- Design protects the gas spring for longer life

Larger boot and more padding for today's patients

- Fits patient's legs into the boots, not on top of the boot
- No exposed hard plastic edges
- Flexible lateral fin

VELCRO® free straps

- Medical grade silicone straps are easy to clean and snap-in securely
- Strong but flexible
- Non-propagating material

The KYRA® Comfort™ Family of Stirrups

- Designed to improve infection control with optional Secure-Lok™ straps
- Easy to clean durable silicone straps
- Boots sized to fit today's larger patient anatomy
- More pressure reducing padding
- 4" more working space with wider abduction range
- Lithotomy Range: +85° to -55°, Abduction Range: +25° to -9°
- Lightweight
