We have used A Plus Accountants for the last five years as our “accounting department and Financial Director role”. Julie and her team have seen us grow from one centre to 8 centres in this time. They are always there to help no matter what the problem, big or small. We would recommend them to anybody without hesitation.

My business partner and I took over a small company late last year. We simply could not have coped without the dedication and help we have received from the whole team at A Plus. A completely tailored service, delivered with professionalism and care.

John Seymour Director A14 Building Plastics Ltd.

Being a small company I don't have the time or expertise to manage the accounts. Having come *highly* recommended, “A” Plus continue to provide me with an exceptional all-encompassing service that keeps me on the right side of the tax-man at all times!

The whole team has a very friendly ‘*can do*’ attitude whilst undertaking their work with the greatest efficiency and exuding professionalism at all times! ... it's almost a pleasure paying them!
