Wood & Aluminum Clad Impact Approved

Folding Walls

Latest product innovation.

For redefining your residential or commercial area, exterior folding wall systems are a leading-edge design solution for indoor/outdoor connection. Transform your conventional solid walls into breathtaking, panoramic settings for entertaining and outdoor living.

The Exclusive Wood Doors Folding Wall offers ideal state-of-the-art living space designs for Florida and the Southeast market. Featuring solid panel and frame construction with heavy-duty, roller track hardware for an impact-approved system.

Folding Wall Features & Options

PG 4 Impact Approved

PG 5 Screening

PG 6 Aluminum Clad

PG 7 Configurations

Solid Wood

Accent your sightlines with the natural beauty of wood for a picture-perfect appearance. The enhanced energy efficiency of solid wood give the building the warmth and performance it deserves.

Narrow Styling

Capture your home's natural lighting while allowing for more glass in each door panel with our 3-5/16" narrow stile option.

Impact Approved

Designed to face the elements.

Having achieved design pressure (DP) ratings making it acceptable for high velocity hurricane zones (HVHZ). The Exclusive Wood Doors Folding Wall System has been engineered to pass Florida's rigorous testing standards for impact resistance and durability, to protect you from extreme weather conditions and keep you prepared for whatever Mother Nature has in store.

In addition to this, laminated glass options as part of our complete impact-approved system offer sound control, giving you the benefit of peaceful security.

Design Pressure (DP) Capacities

Door height in inches	118	+68.4 -68.4	+63.1 -63.1	+58.7 -58.7	+55 -55		
	117	+69.2 -69.2	+63.8 -63.8	+59.4 -59.4	+55.7 -55.7

We offer integrated screening to allow for an open-air environment without the hassle of annoying insects and bugs. This fresh-air option is retractable and operated with ease.

Aluminum Clad

A perfect pair.

We've combined the best of both wood and aluminum to deliver a tested, high-performing wood clad system. Solid wood profiles can be fitted with European engineered aluminum cladding for attractive weatherproofing and modernization. This integrated solution is particularly appealing due to its cost-effectiveness. The high-quality and low-maintenance aluminum cladding ensures long-lasting protection and offers many color choices to meet your design preferences.

We bring to you a wood clad system designed to perform in high exposure and heavy rain environments with outstanding thermal performance.

Opening Configurations

Options to best fit your design.

Outward opening door panels stack to the outside, maximizing your interior space. You can add more flexibility by including a swing door for when you don't need to fully open the system. This option is particularly useful if you plan on needing daily access.
