

Direct Glaze Fiberglass Exterior Doors

More glass. Less maintenance. It's a win-win.

Fiberglass entry doors from JELD-WEN have always been beautiful and easy to maintain. Now there's even more reason to appreciate them: direct glaze glass. This feature allows for greater glass surface without additional framing needed to hold it in place. The result is a wide open expanse of glass, more interior light and unencumbered views. Even when closed, these doors have an open, inviting feel.

THE BEAUTY OF FIBERGLASS

- Rich grain texture takes paint or stain equally well
- Energy efficient
- Durable
- Low maintenance

THE OPTIONS ARE WIDE OPEN

- Clean contemporary lines
- Wider viewing area to let in more light
- No frame means no unsightly screw holes or plugs
- Extensive styles and glass options

Set your sight on wider views

Our fiberglass doors have always been beautiful. Now they're even more beautiful with the addition of the direct glaze line. Slim silhouettes and large expanses of glass combine to let abundant light in and stunning views out. With even more options, this set provides the utmost in personalization.

Simulated Divided Lite (SDL) Bars

JELD-WEN® SDL bars allow you to create a wide variety of glass options on all direct glazed doors. Our simulated divided lite kits are individually packaged, precut, prenotched and mitered to easily fit the direct glaze profile.

- All JELD-WEN® direct glaze clear glass is low-E
- Privacy glass available in craftsman and beadboard doors
- All SDL bars 1 1/8" wide
- White SDL bars have a smooth surface
- Tan and mahogany SDL bars have a textured surface
- 3M VHB black tape .045" thick creates shadow effect
- Kit SDL bars for inside and outside of door
