New For 2019

Slate Colored Frames: 11 sizes

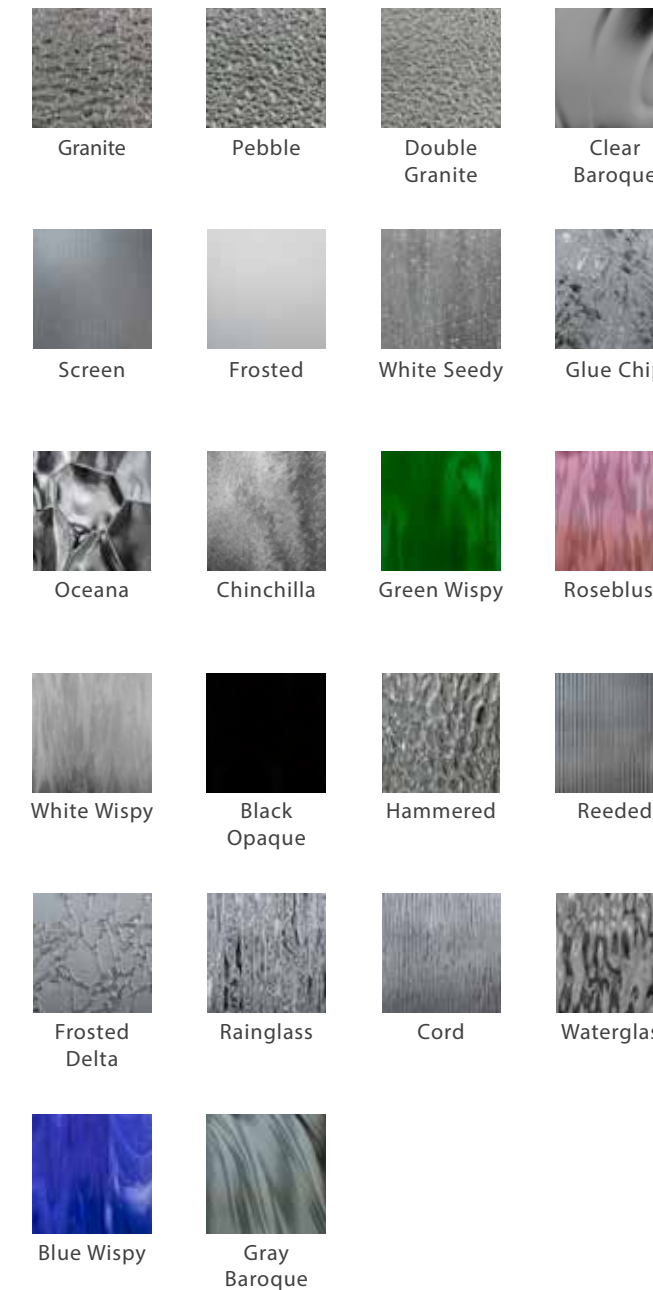

For your convenience, our decorative doorglass is presented by series (pages 6 - 45) or size (pages 46 - 77).

Customize Any Decorative Glass or Create Your Own Design:

You can customize any of our series or bring one of your designs to life. The only limit is your imagination!

- Choose black, zinc or brass caming
- Substitute with any of our diverse glass textures or colors
- Submit a photo or drawing of the design
- Include Protector or Impact laminated glass to increase safety and reduce sound transmission
- Provides homeowners, architects and builders the ability to get exactly what you are looking for

Privacy:

Each of RSL's decorative designs offer varying privacy levels. The lower the rating, the more transparent the glass. The higher the rating, the more obscure the glass.

Icons:

 **Textured Glass**
Series with this icon offer the most privacy.

 **Low-E Coating**
Available with energy efficient Hard Coat or Soft Coat Low-E.

 **Hurricane Impact**
Available for HVHZ approved use.

Want to Increase STC Ratings? Add Protector Laminated Doorglass

Sound Transmission Class (STC):

Sound Transmission Class (STC) ratings roughly equal the decibel (dB) reduction in the noise volume a door can provide. The higher the STC rating, the higher the noise reduction. Protector Laminated Doorglass has an STC range of 28-35 and is a simple and effective way to increase the STC ratings of exterior doors, ideal for multifamily housing, urban areas and housing near airports or highways.

Sound Pressure Level (dB)	Source	Sensation
140	Gun Blast	Painful
100	Airport	Extremely Loud
90	Train Horn	Very Loud

Want to Increase Home Security? Add Protector Laminated Doorglass

Every minute, four homes are broken into in the U.S., with an average loss of over \$2,230*. Protector Doorglass can help protect homeowners and their possessions against criminal activity by providing entryways an added layer of

security. Protector laminated glass is break-thru resistant; manufactured to stop a blow from a sledge-hammer. In situations where every second counts, Protector can provide precious time to allow police to arrive on the scene.

Hurricane Impact

HVHZ Approved Doorglass

RSL Hurricane Impact Doorglass is approved for use in a variety of entry doors to meet Florida wind-borne debris requirements in the High Velocity Hurricane Zone (HVHZ) where maximum wind speeds can surpass 180 mph.

(Florida Product Approval #15419)

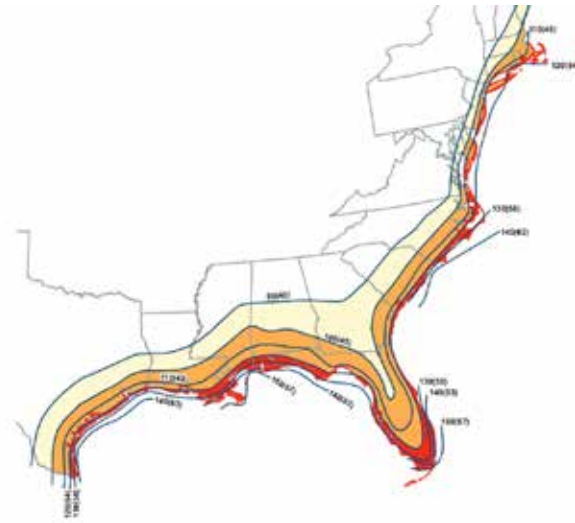

Impact Frame: White & Smooth

- Vinyl cap covers screws (no plugs)
- Fits 2'6", 2'8" and 3'0" doors with normal cutouts
- Eliminates the need for shutters
- Easy to paint or stain
- Added value of noise reduction

Wind Borne Debris Region (WBDR)

- Satisfies Design Pressure and wind and missile impact code requirements for HVHZ areas
- Laminated Glass Tests (ASTM C11172)
