### **Press Release**

We are delighted to announce that Wanray industry Group has invested in a substantial share purchase in Dunlop Systems and Components Ltd (DSC) based in Coventry UK.

Wanray were already long term supplier to DSC. This investment will enable both parties to get optimum leverage from the excellent engineering skills within DSC - taking the Dunlop brand for both current and new air suspension and anti-vibration system offerings to new levels in the Automotive Market. In particular to the emerging economies, that are starting to realise domestic market demand - in OEM and the aftermarket.

We believe the two companies working closely together will enhance and increase the portfolio of products and services we can now offer to new and existing customer in the global market place

Wanray have had a presence in the UK for 10 years, being a key supplier to private label companies across Europe on a wide range of products.

#### **Chris Davis CEO of Dunlop Systems and Components Ltd**

*"I am personally delighted, both with this exciting development and the opportunities it opens up for globalisation of the Dunlop Brand"*

#### **Ian Hamilton Managing Director of Wanray Europe Ltd**

*"We see this investment as a further sign of our intent to grow our group's interests in all parts of the world. Along with the strong brand recognition Dunlop Systems brings and the further design , engineering capabilities both parties can put together we see a great future for the business and the Brand "*
