For more event information visit: www.medicannresearch.uk
A two-day, invitation-only event designed to bring together medical researchers and clinicians working on cannabis-based treatments from around the globe to share their research methodologies and findings with peers in the United Kingdom.

Attendees will:

- Learn about current U.K. and international research projects focused on treatments for cancer, AML, epilepsy, gastrointestinal disorders, sexual dysfunction and other conditions;
- Exchange experiences on research and clinical trial best practices, funding sources and more;
- Discuss similar projects and opportunities for collaboration in an intimate professional setting;
- Hear first-hand treatment experiences from an international panel of patients;
- Receive an update on U.K. medical cannabis law and policy developments and what they mean for medical research.

About the Centre for Medicinal Cannabis (CMC)

The Centre for Medicinal Cannabis (CMC) is the UK’s first and only industry membership body for businesses and investors operating in cannabis-based medicinal products (CBMPs) and cannabidiol (CBD) wellness markets. We have a unique capability to engage intelligently and strategically with all influential political and public policy stakeholders as well as relevant regulatory bodies.

About Jamaican Medical Cannabis Group (JMCC)

JMCC is the premier provider of Jamaican medical cannabis to the world. We combine the country’s natural, year-round growing climate and distinctive cannabis cultivars with an unswerving commitment to international quality standards to deliver superior products via state-of-the-science cultivation, quality assurance, testing, processing, packaging, warehousing and global distribution. The JMCC Farmers’ Collective creates a pathway for small farmers to enter Jamaica’s legal cannabis industry. The JMCC Foundation, in which 10% of annual net profits will be invested over 10 years, is an endowment to support local scientific, educational, environmental and community support programs.
