

ATLAS MAST AND TOWER INSPECTION WINCH

A self-contained, self-powered diesel hydraulic winch unit designed to assist construction, maintenance and inspection operations.

INTRODUCING THE NEW MAST AND TOWER INSPECTION WINCH FROM ATLAS

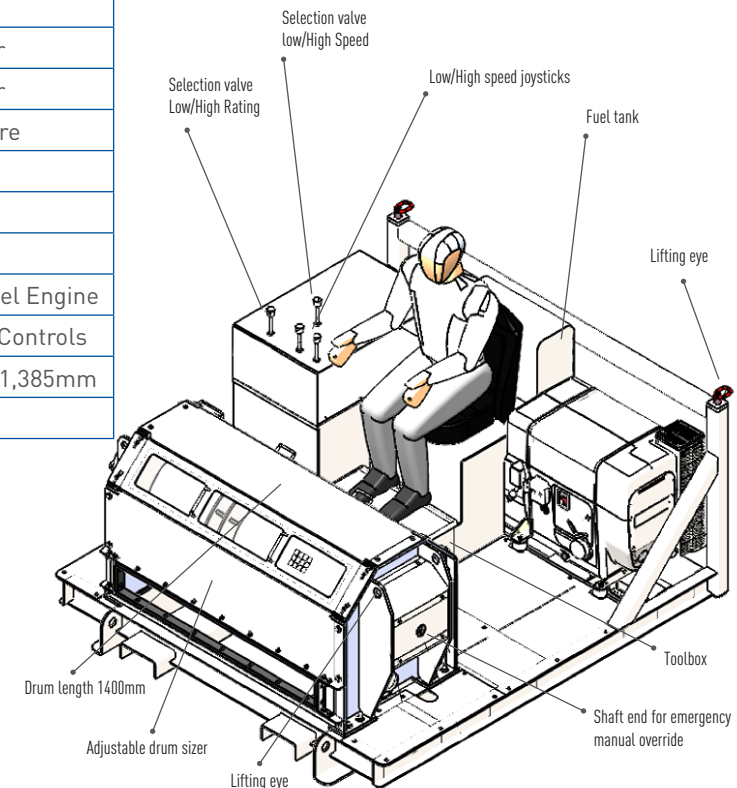

5TONNE MATERIAL LIFTING / 1.5TONNE MAN-RIDING

Designed and built specifically for the utilities sector for tower and mast erection, inspection and maintenance. This bespoke self-contained, self-powered diesel hydraulic winch means operators, riggers and fitters can carry out their work efficiently and safely.

The winch is rated at 5Tonne lifting capacity for materials and 1.5Tonne for man-riding. The unit is fitted with an operator seat with joy stick controls plus a wireless radio remote control. There is also an emergency manual override and brake release system.
