Genre: Puzzle

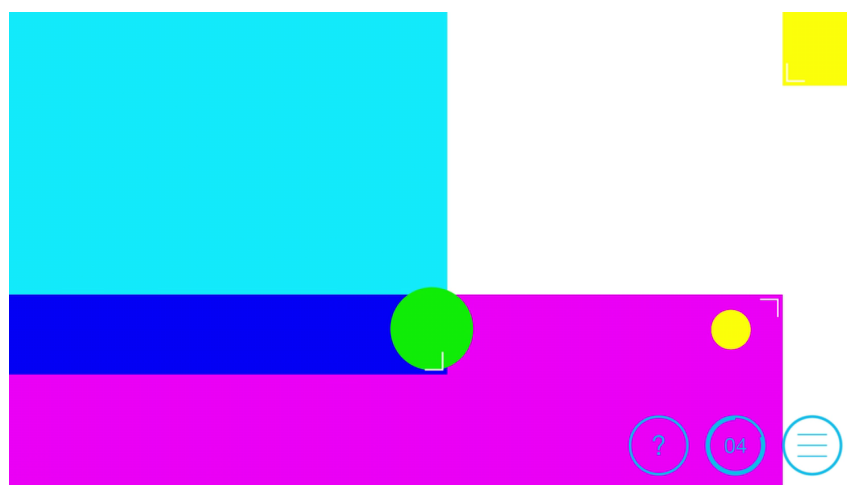

Platforms: Universal

Requirements: iOS 6.0+

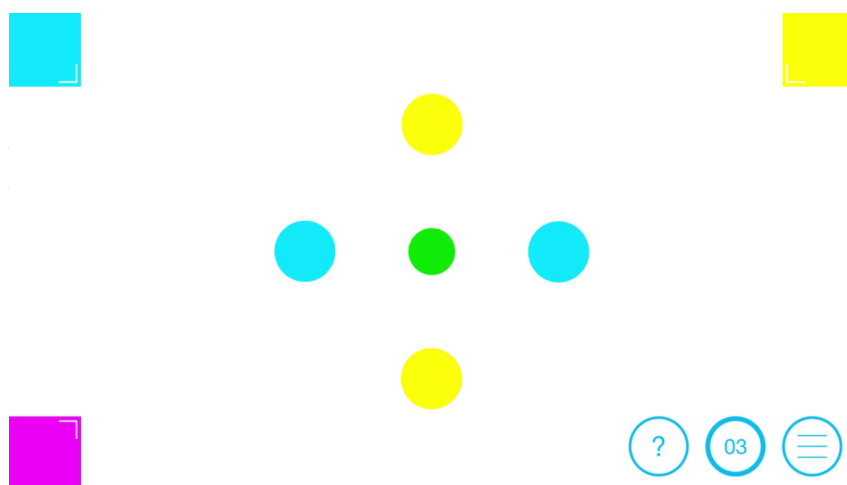

Game Synopsis

Overpaint is an edutaining, artistic puzzler all about color and how it amazingly meshes. In fact, your mission relies on masterfully combining colors by overlapping the three panels of primary colors to create others. This mixing allows you to match the colored circles and eliminate them from the board. There's no limit to solve, but only a color wheel connoisseur will lead with the least moves.

FeaturePlays

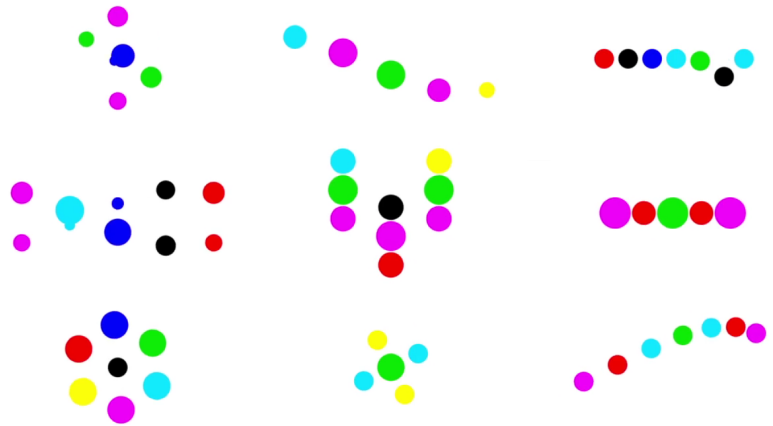

No upfront fee and no ads means it'll be tough not to say yes to start. Just purchase the premium content when you're ready and willing.

Play at your own pace and consider carefully before you make a move. Think twice, slide once.

The 200 included unique levels will test your wits for a seemingly

endless amount of time.

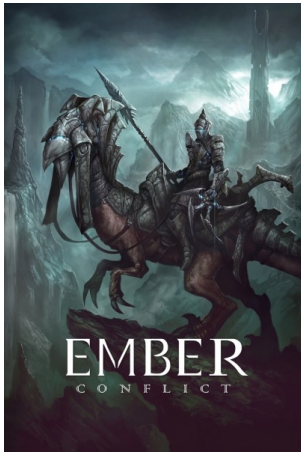

Developer
LANDKA

LANDKA is a mobile app development company focused on high quality products in the fields of education and entertainment. Our team consists of programmers, designers, and engineers who truly believe there is still much to be done in the art of merging technology and design. This vision determines our approach to every new product, and is deeply embedded in the company philosophy. LANDKA developed the acclaimed app Back in Time, a winner of the World Summit Award for Mobile in 2012, plus considered by the New York Times as one of the 10 best iPad apps of the year as well as one of the 10 best iPad Photo Books of the year by the American Photo Magazine. Also noteworthy, Kiwaka and Kiwaka Story, an educational game and a book app for children about sky observation and astronomy, was a combination project developed with the collaboration of the European Space Agency (ESA) and the European Southern Observatory (ESO) to display deep space images.
