

# PHOS Zn

RESISTANCE INDUCTOR  
EC FERTILIZER  
NP fertilizer solution with zinc

## COMPOSITION(%w/w)

Total nitrogen (N)	3%
Ureic nitrogen (N)	3%
Water-soluble phosphoric anhydride (P <sub>2</sub> O <sub>5</sub> )	34%
Water-soluble zinc (Zn)	10%

PHOS Zn is a zinc, phosphorus and nitrogen fertilizer solution designed to prevent and resolve phosphorus and zinc deficiencies, improving seed germination and post-transplantation. In addition, the formulation has a high ascending and descending system allowing nutrients to reach all the organs of the plant improving defense capabilities against biotic and abiotic factors thanks to a greater capacity to synthesize phytoalexins which have a recognized antifungal activity.

DOSAGE AND METHODS OF USE	CULTURE	APPLICATION	DOSE
<b>FOLIAR</b>	Fruit/Citrus fruits Horticultural Floricultural Industrial crops	2-3 Throughout the cycle	150 - 200 g/100L
<b>RADICAL</b>	Fruit/Citrus fruits Horticultural Floricultural Industrial crops	2-3 Throughout the cycle	5 - 7 kg/ha

Warnings: Shake the product well before use. For any mixtures with other products, make preliminary tests. Observe the dosages shown. The product is not combustible and is stable at ordinary temperatures and pressures. Store the product in adequately ventilated rooms at temperatures between + 5 °C and + 35 °C.
