

Flexi-Pak

PIE MAKING MACHINES

Packaging Machinery suitable for billeting, blocking, filling, sheeting and crimping pies & pastries

Flexi-Pak Ltd design and build a complete range of fully automatic pie making machines. Fitted with foil tray de-nesting, automatic pastry billeting, pastry blocking out, product filling, pastry sheeting, plain or lattice, with a scrap less waste system and pastry crimping heads, each pie machine is designed and built to meet our customers' exact requirements. Our innovative designs make our pie making machines very flexible and easy to use, whilst remaining very effective and reliable to run. Fully manufactured in stainless steel, open construction also provides easy access for cleaning and packaging changeovers.

Machine Specification / Options
