

# de BUYER®

DEPUIS 1830

U.S. COLLECTION 2017

De Buyer, located in the Vosges, France, is a company created in 1830. It designs and manufactures cooking and pastry utensils for catering professionals and top-of-the-range gastronomy. Thanks to its more than 180- year experience in working metal, today, the company offers more than 2500 products and exports to more than 95 countries around the world. De Buyer is recognized as a leading brand in the creation of new products and submits dozens of patents every year.

## FRENCH MANUFACTURER COOKING & PASTRY UTENSILS

Now, de Buyer products are also available to demanding private individuals who love cooking.

# marlux

## MARLUX French manufacturer of mills since 1875

Manufacturer since 1875, the French company Marlux, which obtained the EPV label (Living Heritage Company) granted by Ministry of the Economy, is a leading manufacturer of salt and pepper mills. In 2016, de Buyer Industries acquired Marlux to complete its field of activities. Both are reputed French companies sharing the same values of know-how, top-end production and also the same business goals in France and abroad.

De Buyer distributes Marlux, offering a rich and innovative range of high quality mills with products manufactured on a new production site, in Le Val d'Ajol, France.

2017 retail prices in US\$ from 3/1/2017

## SHARPENERS

### High tech 2-stage manual pro knife sharpener 'Diamond Cams'

code	Price in US\$
4290.01	<b>59.95</b>

Simple to use: swipe your blade down and back through the Diamond Cams until it is sharp!

- Swipe lightly for razor sharp daily honing
- Swipe hard and deep for resharpener worn knives through the diamond coated section of Cams.

### 3-stage manual pro knife sharpener 'TRIUM'

code	Price in US\$
4290.02	<b>54.95</b>

The TRIUM Sharpener was developed to produce very sharp professional cutting edges on any brand of knife. The patent pending Diamond Cams™ control the edge angle very accurately as you swipe the blade down and back between the cams, for a highly refined cutting edge shape with a perfect hone ever time.

# CONCEPT® CORE UNIVERSAL

Manual extractor that cores, tops and tails fruits/vegetables cleanly. Sharp and resistant blade made of special cutlery st/steel. Perfectly sharpened serrated edge to cut without mashing the fruits/vegetables. Ergonomic comfortable anti-slip handle made of polypropylen with a TPE coating. Universal: suitable for various fruits/vegetables (tomato, potato, apple, pear, strawberry, cucumber, onion, carrot, turnip, chicory...) Multifunctions:

## STUFFING

## HOLLOWING OUT

## REMOVING STALK

# marlux

**MADE IN  
FRANCE**

De Buyer distributes Marlux which offers a rich and innovative range of high quality mills manufactured on a new production site in France

• pepper mills • Salt mills • nutmeg mills • Spices or herbs mills, and even a chocolate mill, ... Various mills are proposed

Equipped with solid hardened steel mechanisms, stainless steel mechanisms or ceramic mechanisms depending on models and uses.

## WOODEN MILLS

This range of classical mills is made of beech wood (PEFC- Pan European Forest Certification, beech wood used comes from sustainably managed forests). Beech wood is either natural or tinted and then varnished.

These mills made of wood are available with different mechanisms:

- With high quality cut and hardened steel mechanism for pepper mills.
- With stainless steel mechanism for salt mills.

These steel mechanisms are lifetime guaranteed against manufacturing defects, within a normal use and does not cover damages caused by shock or misuse.

- With a ceramic mechanism for spice mills (coarse white salt, coarse sea salt, mixed peppercorns, herbes de Provence). These mills are guaranteed against manufacturing defects for three years.

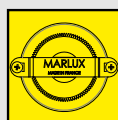

The upper knob sets grinding size. These mills are delivered empty.

## Info

The pepper mill with a steel mechanism must never be filled with salt : the salt is corrosive and will irreversibly damage the mechanism.  
The salt mill has its own mechanism made of a stainless steel which has been specially treated against salt corrosion.

The grinding size is set by adjusting the knob on the top of the mill : the more you tighten it up, the finer the grinding (spicy but less flavored). If you loosen it, the coarser the grinding is (flavored but less spicy).  
Always rotate the mill top in the same direction to get the best grinding

## Event

De Buyer was proud to support the US team as it prepared for the 2017 Coupe du Monde de la Pâtisserie, which took place on January 22nd and 23rd 2017 at the SIRHA trade show (Lyon France).

## DE BUYER in the US

De Buyer has a long history in the US started in the late 50's. In January 2015 the company decided to move the facilities in Chicago, a central location close to the biggest tradeshows in the US. We are adding new and unique products every year and we are glad now to offer more than 300 different items to our American customers. With a full operational center De Buyer Inc. is growing very fast and we want you to be a great part of it.
