# / ABOUT US

Graceland Architects is a specialist Healthcare Architectural firm. Our history dates back nearly 30 years with many projects completed across South Africa and Sub-Saharan Africa. We focus only on Healthcare. Simply put, we design for patient treatment and wellness in an ever developing healthcare environment where innovations in the medical environment are constantly improving. To respond to this rapid rate of change, we continually evolve our own knowledge, using the latest BIM software whilst working alongside our consultant teams and clients to understand the technicalities of operational requirements, the latest equipment and medical procedures. Our experience in, and enthusiasm for, the medical field has contributed to our hard-earned reputation for design excellence in the Healthcare built environment.

## OUR TOP 10 PROJECTS /

### 1 / MIDSTREAM MULTIDISCIPLINARY PRIVATE HOSPITAL #

🏠 176 / 🏠 24 416m<sup>2</sup> / 📅 Completion date: 2015 / 📍 Midrand

Midstream hospital is a multi-disciplinary hospital that also houses a specialised theatre complex with Cardio and Hybrid theatres. The hospital operates a Cath Lab, Electrophysiology Lab and an Endoscopy Unit.

### 2 / GARIEP MULTIDISCIPLINARY PRIVATE HOSPITAL #

🏠 188 / 🏠 20 431.37m<sup>2</sup> / 📅 Completed 2015 / 📍 Gariep

A new hospital designed to expand to include two multi-storey ward blocks and a day hospital. Certain additions, like the theatres and an additional ward block were completed in 2015. An additional consulting room block is set for completion in 2019.

### 3 / MEDFORUM MULTIDISCIPLINARY PRIVATE HOSPITAL #

🏠 279 / 🏠 21 491m<sup>2</sup> / 📅 Completion date: not determined / 📍 Sunnyside, PTA

Construction took place with limited space and access and the design of interior spaces and services was conducted within the constraints of the existing multi-storey building. The building received a refreshing facelift while at the same time retaining the identity of the original building.

### 4 / JWANENG HOSPITAL

🏠 66 / 🏠 9959m<sup>2</sup> / 📅 Completion date : Jan 2019 / 📍 Jwaneng, Botswana

The brief indicated a need for an Outpatient and Infectious disease department. Additional waiting areas were incorporated. The existing hospital was upgraded to provide safe quality patient care within a world class health facility which complies with international standards for private hospitals.

### 5 / EMFULENI MULTIDISCIPLINARY PRIVATE HOSPITAL #

🏠 155 / 🏠 17 862m<sup>2</sup> / 📅 Completion date: 2017 / 📍 Vanderbijlpark

# WHAT OUR CLIENTS SAY ABOUT US /

“ Our relationship with Graceland Architects goes back to mid 2016, and in that time, together with GlaxoSmith Kline and MediClinic, we have built a very successful Paediatric Out-Patients Department and Parental Sleepover facility at Chris Hani Baragwanath Academic Hospital. Graceland Architects always has great ideas and has been very patient with our re-iterations and unique requirements. Working with Graceland Architects is a pleasure. ”

/ **Surgeons for Little Lives**

For little people who need big operations.

“ We have worked with Graceland Architects for the last 25 years and they are definitely one of the best hospital Architects around! ”

/ **TMS quantity Surveyors**

“ Healthshare, a leading South African Hospital Management Services Consultancy, has successfully appointed Graceland Architects as a preferred architectural service provider on several occasions. Graceland Architects' expert knowledge and key healthcare design insights have assisted Healthshare in its ongoing pursuit of patient wellness and the development of efficient Hospital Management Services. ”
