Adel Dental practice has been established for over 50 years and owned by Mrs Palbir Grewal since 2006.

All of our team are GDC registered and highly experienced offering all aspects of dentistry including cosmetic smile makeovers and tooth whitening.

We have also been awarded the prestigious BDA Good Practice Award, so you are guaranteed dentistry of the highest quality.

## Implants

**A terrific way to replace teeth!**

From a single missing tooth to a full arch, from a small space to stabilizing full dentures, implants are a predictable, successful and highly aesthetic way to solve your dental concerns.

**Are you suitable for dental implants?**

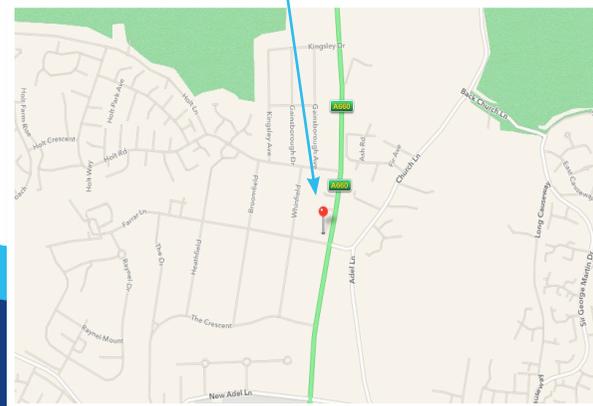

A large majority of people are suitable for dental implant treatment. Age is no limitation to successful implant therapy.

## Cosmetic Dentistry

We offer complete smile makeovers and a wide range of cosmetic dentistry services from veneers and implants to crowns, bridges, tooth coloured fillings and composite bonding.

We can help restore the appearance of cracked, discoloured or damaged teeth using the latest in dental technology and techniques.

### WE ARE HERE

## Tooth Whitening

For the brighter, whiter smile, why not opt for a professional teeth whitening treatment. This is a cosmetic dental procedure that results in the removal of stains and discolouration from your teeth, giving your teeth a fresher, whiter appearance.

This can be done at home in the form of a gel applied through a mould of your teeth or an in surgery procedure that uses bleaching agents to produce fantastic results.

## Orthodontics

Orthodontic treatments can help to straighten or realign teeth to improve their appearance and functioning.

Some of the treatments on offer are an almost invisible way to straighten teeth without braces. We offer the following treatments.

- C Fast
- Invisalign
- Smile Tru
