TG SERIES

COMPACT TRACTORS

36 – 60 HP
Iseki’s TG Series sets the benchmark for compact tractor performance. Designed and manufactured in Japan, the TG Series is built to exceptional standards of quality – starting from the front lights through to the back three-point linkage. Every component, including the engine and transmission, features Iseki’s stamp of approval for quality and excellence that is rarely seen in the compact tractor category.

With a host of options and features to choose from, the Iseki TG Series provides unrivalled reliability to get the job done fast, efficiently and in comfort. It’s how Iseki gives you the edge.

Powered by Iseki 3 and 4 cylinder engines, the TG Series offers more power when you need it. With peak torque developed at low engine speeds, it makes easy work of tough conditions. Access to regular service points and critical components is made easy thanks to the clever design of the engine and bonnet.

**POWERFUL ENGINES**

- Maximum power achieved at lower RPM
- Reduced noise levels
- Genuine Iseki engine made in Japan

**EFFICIENT POWER**

- Engine serviceability
  - Easy access to regular service points for easy maintenance and consistent performance
  - Built-in fuel filter means you don’t have to change the filter as often
  - Arrangeable screen protects the radiator from debris and is easy to clean
  - Air cleaner is easily accessed and cleaned, located at the front of the tractor

**TRANSMISSIONS FOR EVERY JOB**

Iseki’s TG Series transmissions offer the flexibility and performance required for today’s ever increasing workloads. With a choice of heavy-duty Power Shuttle and Hydrostatic transmissions, the TG Series makes it easy with smooth, effortless directional changes and a greater speed range for your desired application.

**HYDROSTATIC TRANSMISSION**

- Three-range hydrostatic transmission available in 39 and 47 HP models
- Standard with 4 wheel-drive and differential lock for exceptional traction in all conditions
- Single pedal forward/reverse feature
- Directional changes made via the feather touch shuttle lever

**12 X 12 SPEED POWER SHUTTLE TRANSMISSION**

- 12 x 12 speed, heavy duty Power Shuttle Transmission
- Quick directional changes without clutching
- Available in 36, 47 and 60 HP models
- Wet disc brakes - large oil immersed multi-disc brakes ensure longer lasting, as well as accurate and precise stopping

**JAPANESE BUILT QUALITY TRACTORS**

**CRUISE CONTROL**

- Electronically controlled cruise control
- Uninterrupted speed adjustment
- Manual and automatic speed setting

**ENGINE SERVICEABILITY**

- Easy access to regular service points for easy maintenance and consistent performance
- Built-in fuel filter means you don’t have to change the filter as often
- Arrangeable screen protects the radiator from debris and is easy to clean
- Air cleaner is easily accessed and cleaned, located at the front of the tractor

**TRANSMISSIONS FOR EVERY JOB**

Iseki’s TG Series transmissions offer the flexibility and performance required for today’s ever increasing workloads. With a choice of heavy-duty Power Shuttle and Hydrostatic transmissions, the TG Series makes it easy with smooth, effortless directional changes and a greater speed range for your desired application.
OPERATOR COMFORT

- Forward/reverse power shuttle
- Brake pedal
- Parking brake lever
- 4-speed gear/shift lever
- 3 range selection lever
- 4WD lever
- Deluxe mechanical suspension operator’s seat
- Large ISO mounted flat platform
- Full rubber-padded floor mat
- Hand throttle lever
- Joystick control of auxiliary hydraulics
- Three point linkage position control lever
- Electro hydraulic PTO engagement switch
- Rear auxiliary hydraulic levers
- Large instrument panel

LUXURY CAB

- All-work versatility. All-weather capability. That’s what you get with Iseki’s compact cabin tractors. The spacious and cleverly designed cabin allows you to put in a hard day’s work, day after day.
- Nothing says luxury, all-weather convenience and quiet operation quite like Iseki cabins. The deluxe design offers standard dual side entry, outstanding visibility and exceptional comfort that will keep you working at optimum performance for longer.

- The glass enclosed cabin has been designed with generous head and leg room.
- Featuring large doors on both sides for convenient entry and exit with hand grips on the door frames for easy access to the cab.
- Provides a comfortable working environment in all weather conditions.

- Heating and air-conditioning controls are located within easy reach in the cab headline.
- Two vents in the front of the cab, two in the centre, two on the sides.

- The wide front window on the cab offers excellent visibility, as do the side and rear windows, all of which can be opened.
- A rear view of light in the operator’s seat to the rear of the tractor allows you to see the implement working.
- Standard front and rear windshield wiper and washers help to keep you working in all weather conditions.

- The spacious cabin has been designed with generous head and leg room.
- Featuring large doors on both sides for convenient entry and exit with hand grips on the door frames for easy access to the cab.
- Provides a comfortable working environment in all weather conditions.

- Temperature control
- Top windows
- Front windows
- Front windshield wiper and washers
- Three point linkage position control lever
- Electro hydraulic PTO engagement switch
- Deluxe mechanical suspension operator’s seat
- Large ISO mounted flat platform
- Full rubber-padded floor mat
- Hand throttle lever
- Joystick control of auxiliary hydraulics
- Three point linkage position control lever
- Electro hydraulic PTO engagement switch
- Rear auxiliary hydraulic levers
- Large instrument panel
- Forward/reverse power shuttle
- Brake pedal
- Parking brake lever
- 4-speed gear/shift lever
- 3 range selection lever
- 4WD lever

TG SERIES COMPACT TRACTORS
When it comes to an all-round performer, you can’t go past Iseki. When the going gets tough, it’s time to turn to Iseki. Heavy-duty axles on the TG Series handle the heaviest of loads, making front-end-loader work a breeze, while the reinforced chassis accepts a wide range of multi-purpose accessories. The three-point linkage provides huge lift capacity and allows for quick and easy fitting of implements.

**FRONT-END LOADER**
- The TG Series can also be easily equipped with front-end loaders.
- The factory-fitted joystick gives the operator precise control of the loader.
- The robust front and rear axle capacities to handle the toughest of jobs.
- The reinforced chassis to accept a wide range of multi-purpose accessories.
- Ideal for front-end loader applications.
- Choose your desired footprint with a range of wheel and tyre options.
- Tight turning circle to give exceptional manoeuvrability in tight spaces.

**THREE POINT LINKAGE**
- Huge three-point linkage lift capacity up to 1,700kg.
- Cat 1 (and Cat 2 on TG5570) linkage with position and draft control.
- Designed for easy access and implement attachment with adjustable telescopic stabilisers and crank-type lift rod.
- Large 47.7L/min hydraulic pump capacity with open centre hydraulic system on all models.
- Electro-hydraulic PTO can be engaged by flicking a switch, without having to depress the clutch.

**HYDRAULIC VALVES AND JOYSTICK**
- Standard with two front hydraulic remote valves and joystick lever.
- Pre-plumbed for easy attachment of front-end loaders.
- Lever controls for rear auxiliary hydraulics.
- Two rear remotes fitted as standard.

**PRESSES**
- Standard with two front hydraulic remote valves and joystick lever.
- Pre-plumbed for easy attachment of front-end loaders.
- Lever controls for rear auxiliary hydraulics.
- Two rear remotes fitted as standard.

**BUILT TOUGH**
When the going gets tough, it’s time to turn to Iseki. Heavy-duty axles on the TG Series handle the heaviest of loads, making front-end-loader work a breeze, while the reinforced chassis accepts a wide range of multi-purpose accessories. The three-point linkage provides huge lift capacity and allows for quick and easy fitting of implements.
