Professional Two Way Radio Accessories

**5LWHS**

### Light Weight

The 5LWHS is an excellent all round lightweight accessory. The single ear pad provides a high level of comfort for extended periods of wear. The easily adjustable passive noise canceling microphone is very effective in reducing back ground noise. This product now includes our heavy duty polyurethane cabling, which has been upgraded in size for more durability.

**6AVBH**

### Industrial

The model 6AVBH is a Behind-The-Head fitting and the 6AVOH is a Over-The-Head model McKay headset. It utilizes an active noise canceling microphone. The unique design allows this model to be used with our WPTT Push-To-Talk assemblies for a wide range of popular two way radios. It is also compatible with our aviation leads. A Single sided Muff version is also available Part 6AVOHS.

**6AVBH-ECS**

### Behind - The - Head with Earcup PTT

This is a Behind-The-Head mounting noise attenuating headset with an ear cup mounted PTT switch. Refer to our Cable and PTT section for compatible leads. These are especially popular in the car racing industry.

**6AVOH-ECS**

### Over - The - Head with Earcup PTT

This is a Over-The-Head mounting noise attenuating headset with an ear cup mounted PTT switch. Refer to our Cable and PTT section for compatible leads. These are especially popular in the car racing industry. These have blue coloured ear cups.

**5LWBH**

### Twister

The 5LWBH Ultra Light headset is a behind the head style with a single left earphone. Both the microphone and speaker have replaceable foam covers. The ultra lightweight frame offers superior comfort in the most active environments. This comes standard with the appropriate radio connector and our reliable MPTT Push-To-Talk assembly.

**6HNHS**

### Stereo Headset

The 6HNHS is a Dual earcup stereo headset. These are popular in the racing industry where clear audio is required in medium noise environments. This comes standard with the appropriate radio connector and our reliable MPTT Push-To-Talk assembly.

**7PR**

### Ear Hook Style 1

The 7PR ear hook with flexible boom is extremely good for long periods of wear. The unique ear hook removes the weight from the ear canal and the flexible boom microphone is easy to adjust for close placement to the users mouth. Suitable for moderately noisy night clubs and outdoor use.

**9SB**

### Ear Hook Style 2

The 9SB ear hook with semi rigid boom is extremely good for long periods of wear. The unique ear hook removes the weight from the ear canal and the semi rigid boom microphone is easy to adjust to ensure user comfort.
