

# largeCorbels

a grand feature

These large corbels are commonly used as pilasters to put the finishing touch on fireplaces. They can also bring exquisite detail to any space when placed under kitchen counter tops or at the end of staircases.

Our products have been passed with CFC-Free certification, making them the perfect addition in any project to enhance your work!

# “Carved Creations”

Molded from polyurethane, our corbels have highly detailed features which come in many different styles. Corbels can be used under shelves, counter tops, bars, or cabinets. These corbels are not structured to be load-bearing and are for decorative purposes only.
