

LiftUp[®]...

The new injection solution for endoscopic resection

The new injection solution LiftUp®: for safe and easy resection¹

- Gels thermoreversibly in tissue at body temperature
- Creates a permanent cushion in the sub-mucosa even after mucosa incision²
- Time saving due to fewer re-injections³
- Separates and exposes layers and structures

Order Code: OVE-200.56.02

Description: 5 x Kits - Each Kit: 1 x 20ml LiftUp, Syringe & Injection Needle

Price: \$725 (+gst)
