

HANDLES

LINCOLN SENTRY TREND & STYLE

Lincoln Sentry's selected handle range is inspired by function and assists in creating the personality for your space. Not limited to the kitchen space alone, these designs will complement your office, retail, furniture

and commercial applications to provide the most simplistic and timeless of designer finishes. Handles are a personal and functional element that provide the finishing character to your space.

INSPIRED BY FUNCTION

The Lincoln Sentry handle collection includes Modern, Profile, Comfort, Designer & Provincial ranges

Modern

The Modern range encapsulates fashionable and functional design that will complement your space, featuring soft square lines in varied finishes.

Profile

The Profile range is streamlined and functional in design allowing your space to have a clean handle free look while still being practical and easy to use.

Comfort

The Comfort range evokes the free-flowing design trend that is organic and pure in its functional simplicity.

Designer

The Designer range promotes culture and personality with high quality manufactured styles, materials and finishes, making a statement to enhance your space with baroque and unique style.

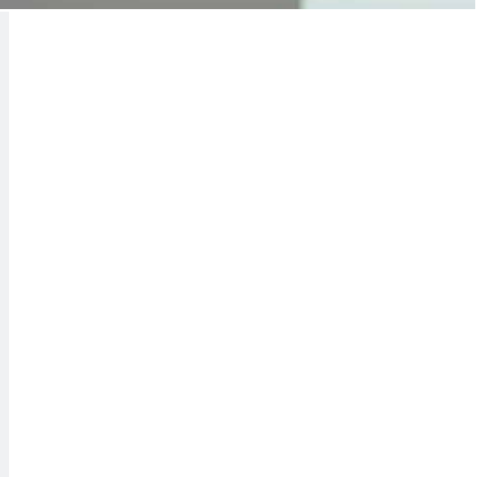

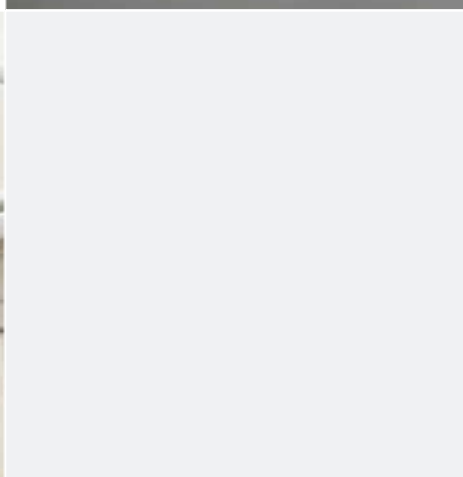

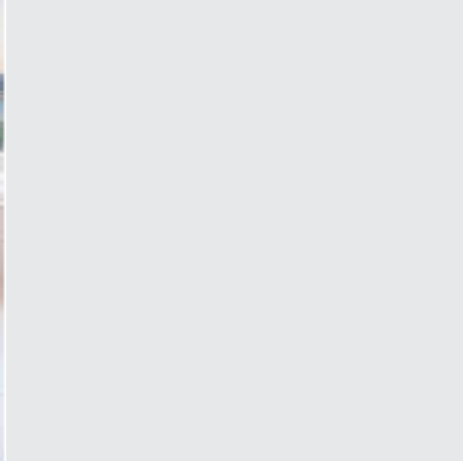

Provincial

The Provincial range extends from antiquity styling and promotes individuality through bold and subtle innovative inspirations, achieving a timeless rustic look with contemporary influences.

A modern kitchen interior featuring a staircase with wooden steps and a metal railing. The kitchen has white cabinetry, a black countertop, and a wooden island. A large, semi-transparent grey diamond shape is overlaid on the image, containing the text "01. MODERN".

01. MODERN

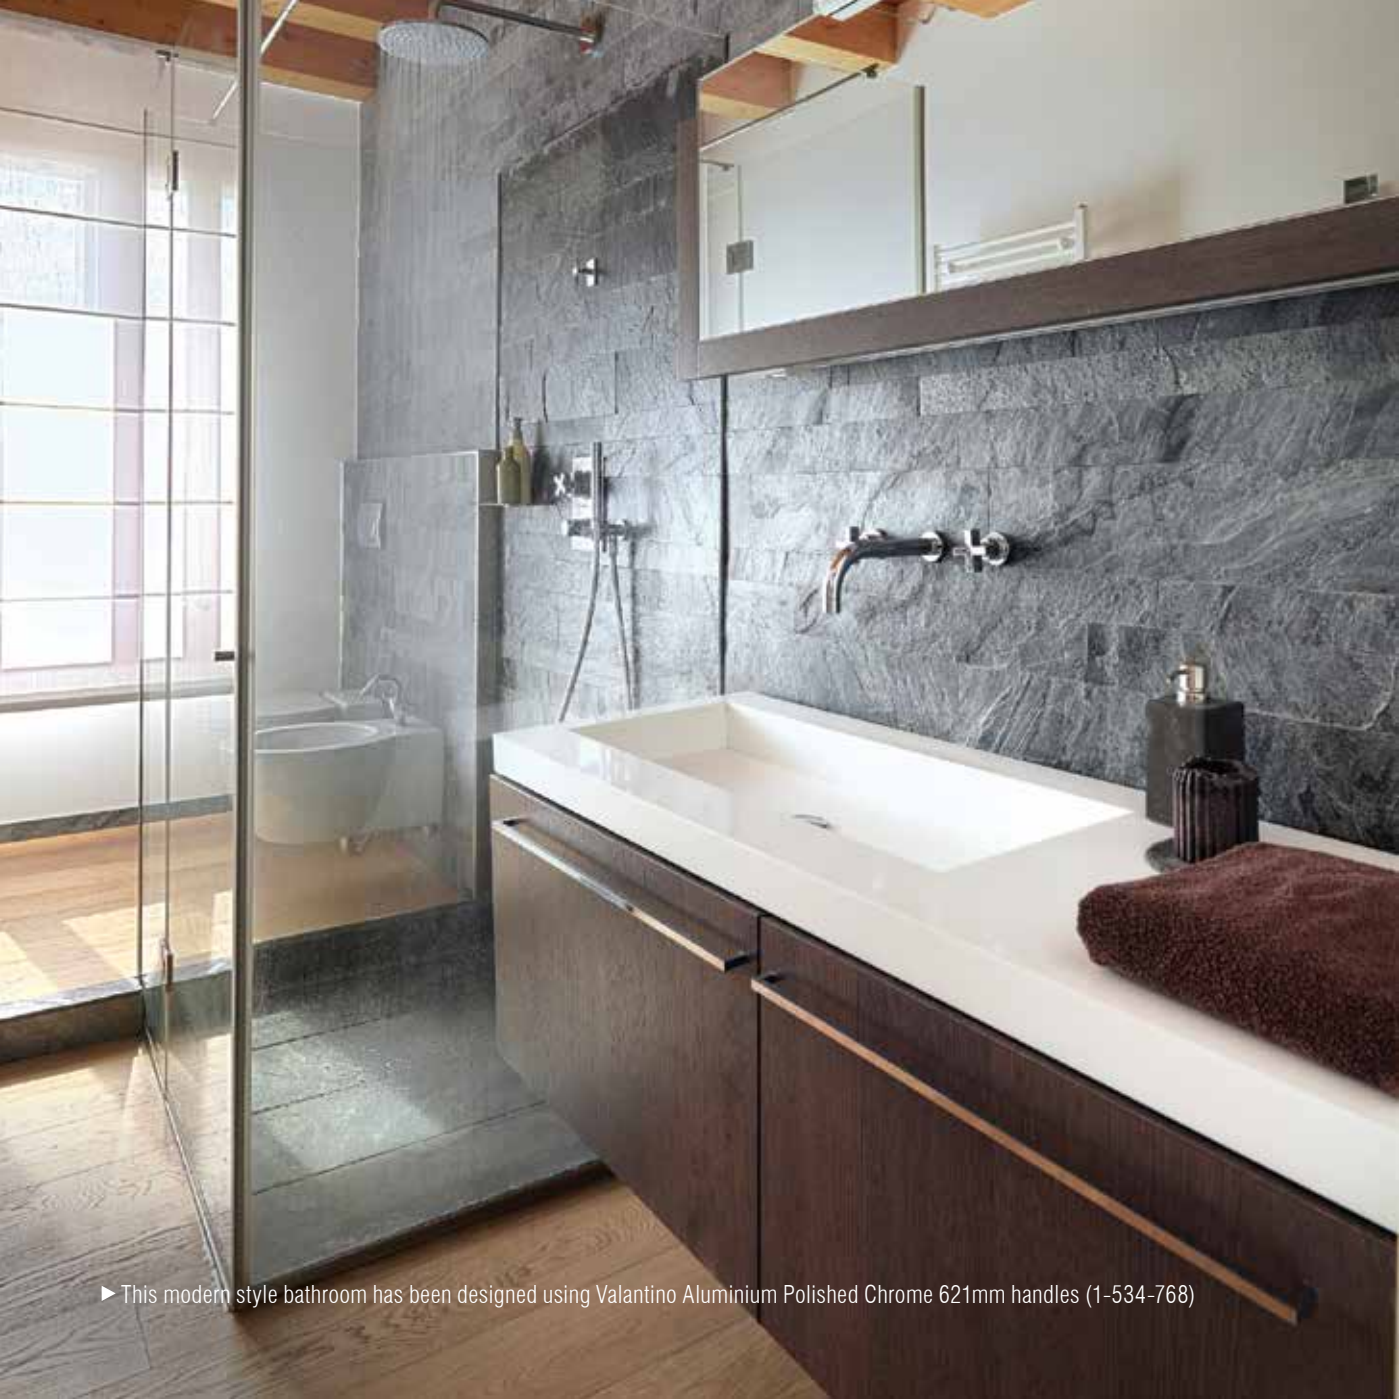

The Modern range encapsulates **fashionable and functional** design that will complement your space. Featuring softened square lines, clean finishes and a range of weights, these pieces are perfect for contemporary settings.

The Modern range works well in many different design themes. Here's how our designers see them working in these three design trends.

► This modern style kitchen has been designed using Platini Stainless Steel 143mm handles (1-536-183)

A modern kitchen interior featuring a light-colored wooden countertop. On the countertop, there is a clear glass vase filled with yellow lilies and green leaves. In the background, there are white kitchen cabinets and a dark countertop with a potted plant. A large, semi-transparent grey diamond shape is overlaid on the image, containing the text '02. PROFILE' in white, bold, sans-serif font.

02. PROFILE

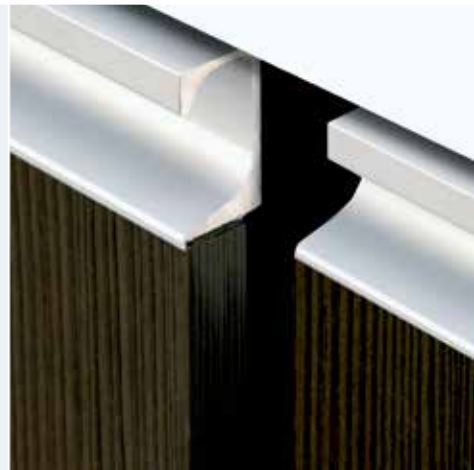

The Profile range offers a **versatile, modern and elegant** look where fronts are not broken by visible handle elements. Robust construction, enthralling designs and perfect finish of the Profile range enhances the entire ambience of the kitchen.

The Profile range works well in many different design themes. Here's how our designers see them working in these three design trends.
