Introduction

From September 2020, Health Education and Relationships Education will become statutory in all schools across the UK. Although, the Department for Education are encouraging schools to implement these changes from September 2019.

Following this decision by the DfE, the 1decision team have created a mapping document to support schools. This document looks at how the PSHE Association's Programme of Study and the 1decision resources are mapped against the new statutory framework.

Please note, we have referenced the three core themes of the PSHE Association's Programme of Study. For further information on each of the core themes, please view the full Programme of Study at: www.pshe-association.org.uk.

Throughout this document, you will be able to see how the 1decision programme covers the new statutory requirements. You will find every area of the new framework has been explored and referenced against our primary school resources.

1decision provides 17 modules, which are recommended for students in years 1-6. The core of the programme is a series of documentaries and videos with alternative endings, which enable children to explore various topics in a safe, educational environment. The 1decision videos feature within our collection of over 70 on-screen lesson guides and our workbooks allow students to document their learning and assess their own progress.

To view the full range of topics within each module, please see pages 18-19.

Every school has the right to choose the content which they feel is suitable for their students. This will be dependent on social need, maturity, and their environment. 1decision provides flexible content, which can be used as a standalone resource or alongside additional material, to fulfil the expectations of Health Education and Relationships Education. We look forward to supporting your school with our resources!

We hope you find this mapping document useful.

If you require any further assistance with our resources, please do not hesitate to contact us at: info@1decision.co.uk.
Relationships Education: Key stages 1 and 2

Topic 1: Families and people who care for me

Pupils should know:

- that families are important for children growing up because they can give love, security and stability.
- the characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other’s lives.
- that others’ families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children’s families are also characterised by love and care for them.
- that stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children’s security as they grow up.
- that marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong.
- how to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed.

Keeping/Staying Safe Module:

- Cycle Safety

Growing and Changing Module:

- Growing and Changing Assessment
- Relationships (Appropriate Touch)

Being Responsible Module:

- Coming Home on Time

Feelings and Emotions Module:

- Anger

The Working World Module:

- Chores at Home
- In-App Purchases

A World Without Judgement Module:

- Inclusion and Acceptance
- British Values

Please view the DfE’s guidance and PSHE Association’s guidance for further information on Relationships Education and Health Education.
Pupils should know

- how important friendships are in making us feel happy and secure, and how people choose and make friends.
- the characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences and support with problems and difficulties.
- that healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded.
- that most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right.
- how to recognise who to trust and who not to trust, how to judge when a friendship is making them feel unhappy or uncomfortable, managing conflict, how to manage these situations and how to seek help or advice from others, if needed.

### Relationships Education: Key stages 1 and 2  
**Topic 3: Respectful relationships**

#### Pupils should know

- the importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), or make different choices or have different preferences or beliefs.
- practical steps they can take in a range of different contexts to improve or support respectful relationships.
- the conventions of courtesy and manners.
- the importance of self-respect and how this links to their own happiness.
- that in school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority.
- about different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help.
- what a stereotype is, and how stereotypes can be unfair, negative or destructive.
- the importance of permission-seeking and giving in relationships with friends, peers and adults.

---

*Please view the DfE’s guidance and PSHE Association’s guidance for further information on Relationships Education and Health Education.*
Pupils should know

- that people sometimes behave differently online, including by pretending to be someone they are not.
- that the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online including when we are anonymous.
- the rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them.
- how to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met.
- how information and data is shared and used online.

Computer Safety Module

- Online Bullying
- Image Sharing
- Making Friends Online
- Computer Safety Documentary

Please view the DfE’s guidance and PSHE Association's guidance for further information on Relationships Education and Health Education.
Pupils should know

• what sorts of boundaries are appropriate in friendships with peers and others (including in a digital context).
• about the concept of privacy and the implications of it for both children and adults; including that it is not always right to keep secrets if they relate to being safe.
• that each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact.
• how to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know.
• how to recognise and report feelings of being unsafe or feeling bad about any adult.
• how to ask for advice or help for themselves or others, and to keep trying until they are heard,
• where to get advice e.g. family, school and/or other sources.

- KS2 H23
- KS2 H25
- KS2 R8
- KS2 R21
Pupils should know

• that mental wellbeing is a normal part of daily life, in the same way as physical health.
• that there is a normal range of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) and scale of emotions that all humans experience in relation to different experiences and situations.
• how to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others’ feelings.
• how to judge whether what they are feeling and how they are behaving is appropriate and proportionate.
• the benefits of physical exercise, time outdoors, community participation, voluntary and service-based activity on mental wellbeing and happiness.
• simple self-care techniques, including the importance of rest, time spent with friends and family and the benefits of hobbies and interests.

Physical health and mental wellbeing: Key stages 1 and 2

Topic 1: Mental wellbeing (continued)

Pupils should know

- isolation and loneliness can affect children and that it is very important for children to discuss their feelings with an adult and seek support.
- that bullying (including cyberbullying) has a negative and often lasting impact on mental wellbeing.
- where and how to seek support (including recognising the triggers for seeking support), including whom in school they should speak to if they are worried about their own or someone else's mental wellbeing or ability to control their emotions (including issues arising online).
- it is common for people to experience mental ill health. For many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough.

Please view the DfE’s guidance and PSHE Association’s guidance for further information on Relationships Education and Health Education.
Pupils should know

- that for most people the internet is an integral part of life and has many benefits.
- about the benefits of rationing time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others’ mental and physical wellbeing.
- how to consider the effect of their online actions on others and know how to recognise and display respectful behaviour online and the importance of keeping personal information private.
- why social media, some computer games and online gaming, for example, are age restricted.
- that the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health.
- how to be a discerning consumer of information online including understanding that information, including that from search engines, is ranked, selected and targeted.
- where and how to report concerns and get support with issues online.
