AI Driven Site Search In AEM

Add Intelligence to you AEM Content with Cludo For Better Customer Engagement

Rapidly Enable Search in AEM

Enable a powerful search-based experience without the painfully high implementation cost by simply installing the Cludo Connector for AEM by Hoodoo Digital.

Improve Content Discoverability

Enhance your customer experience by making relevant content easily discoverable with autocomplete, spelling corrections, derivatives, and more.

Get More Out of Your Content

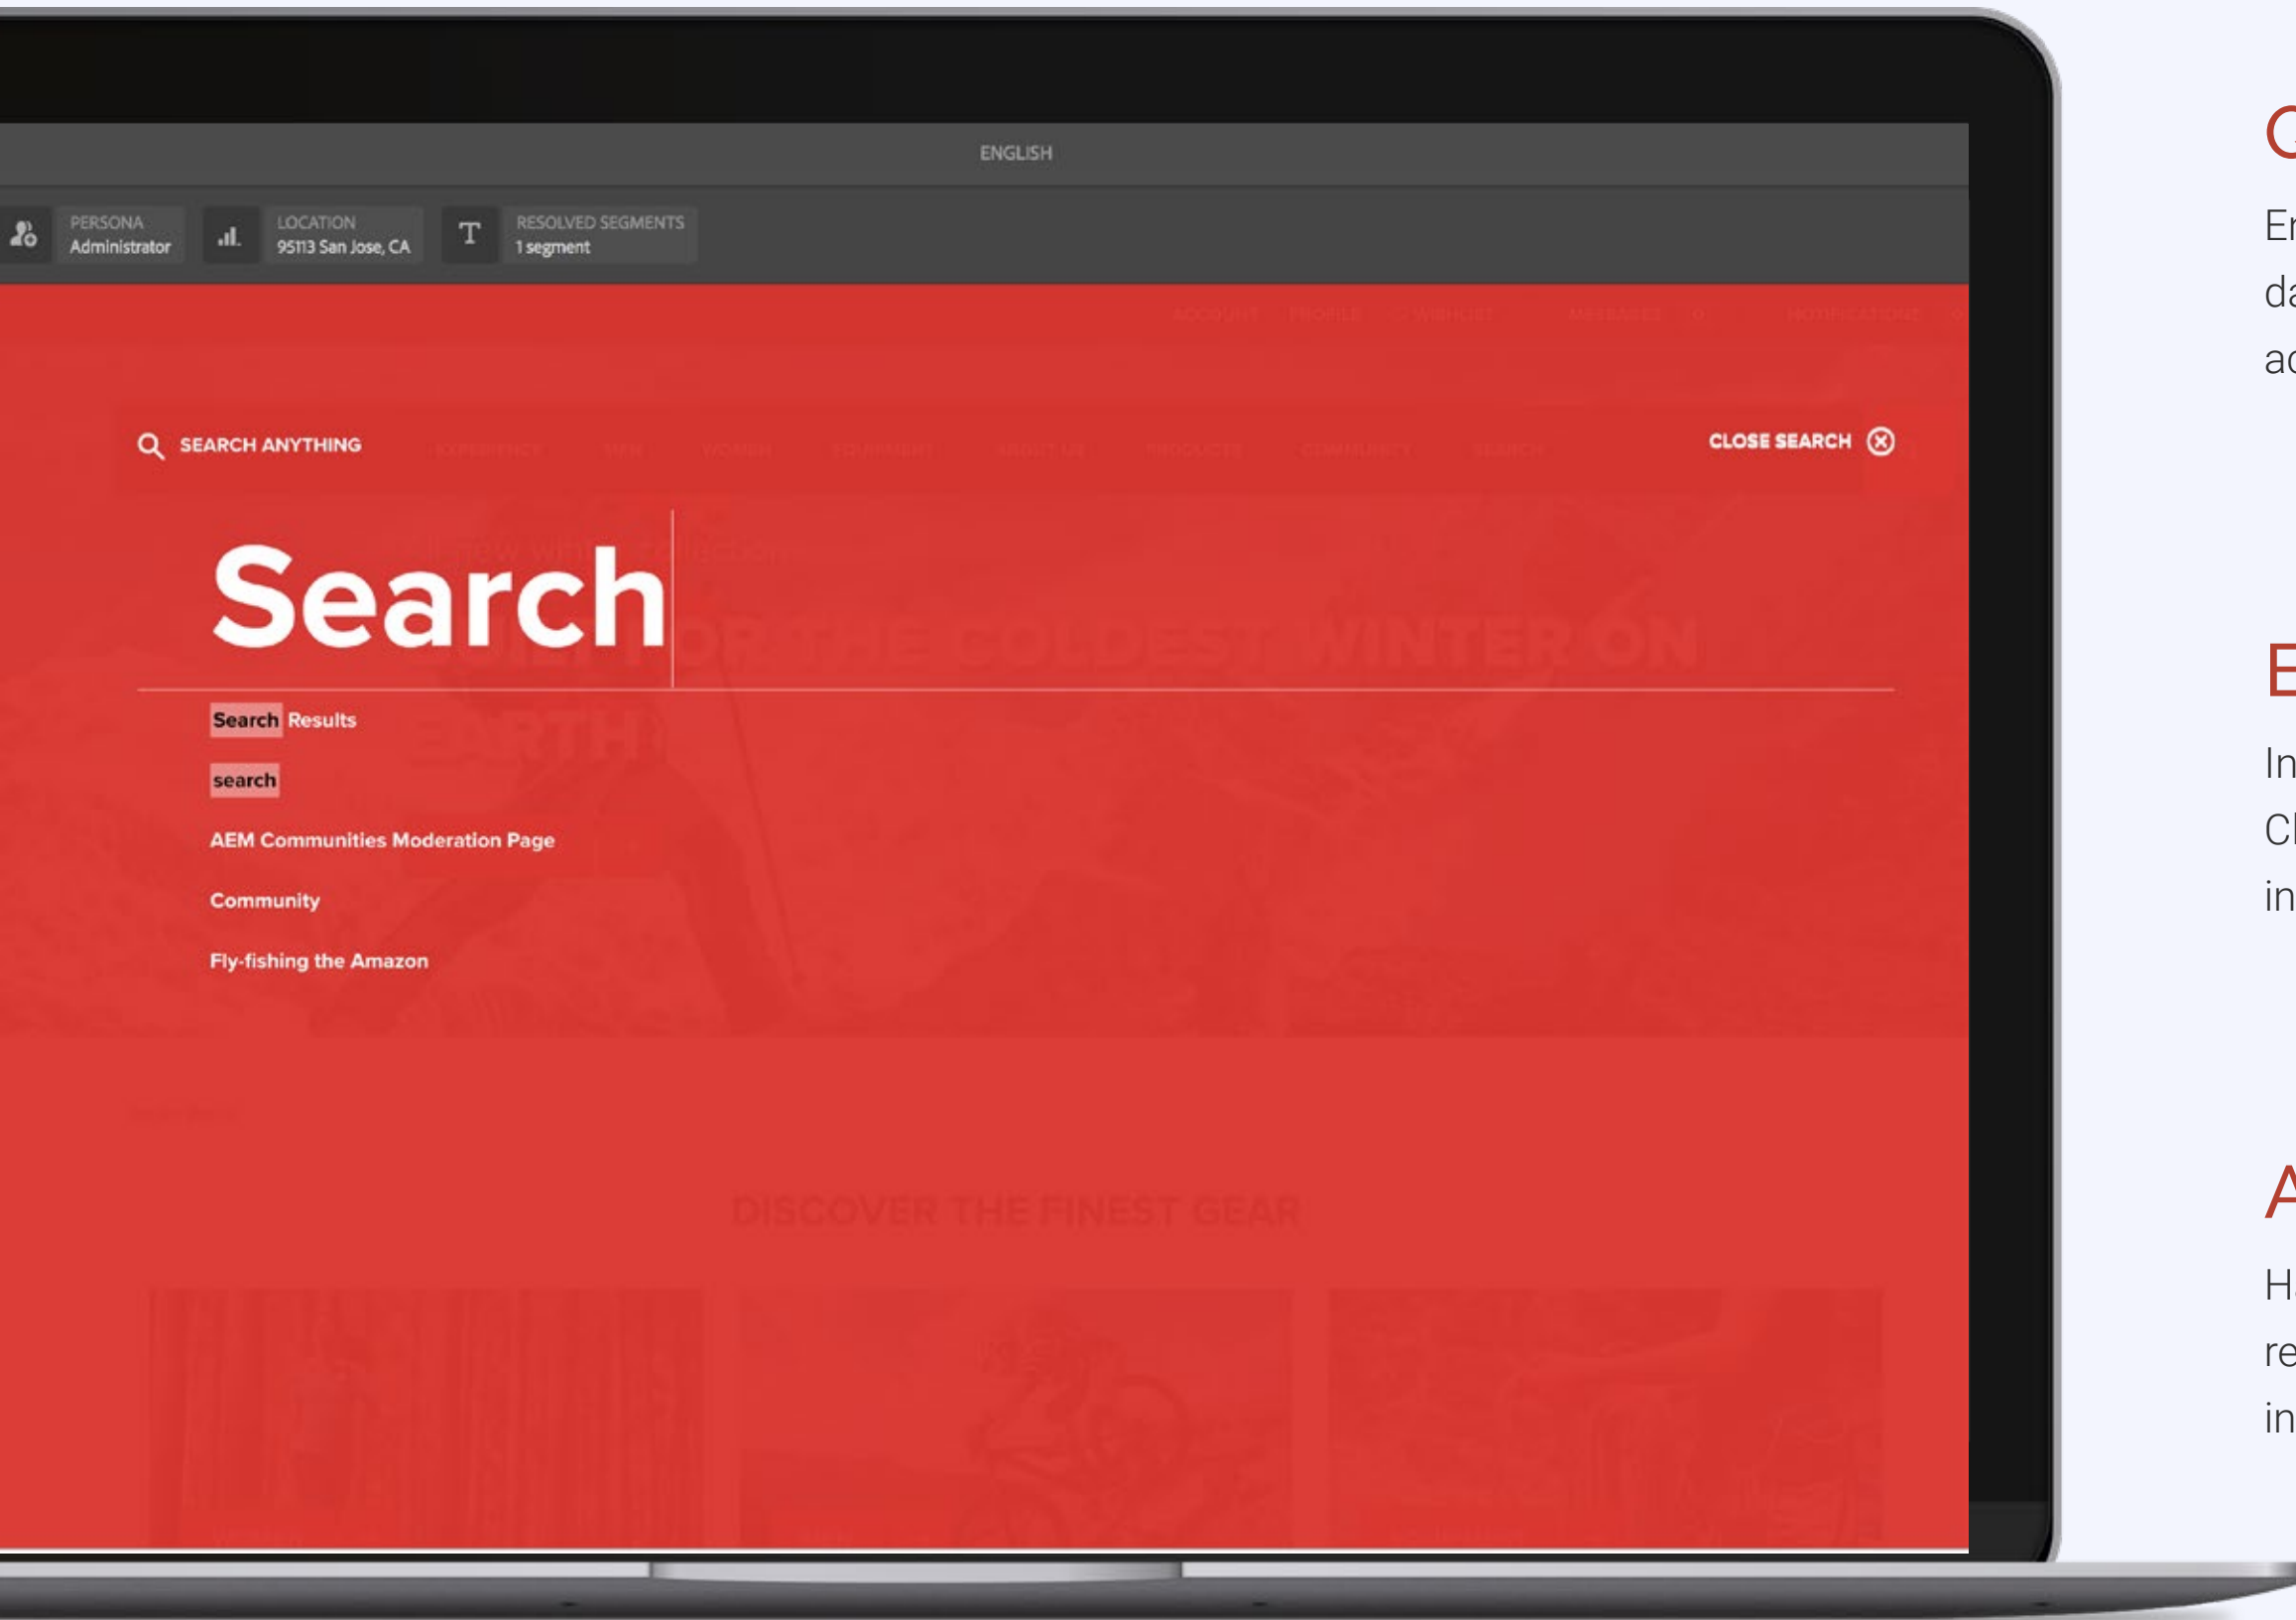

Maximize the value of your content through Cludo's AI-driven platform by controlling search results, learning from actionable analytics, and gaining deeper customer insights.

Take Control When Desired

Control the relevance of your search results, giving you guide the customer journey to maximize conversion and deliver on your engagement objectives.

Fully Integrated AEM Solution

Quick Connection to Cludo

Enable search through the AEM Cloud Service dashboard and securely connect to your Cludo account during a one-time setup.

Easy Integration Into Your Sites

Include the Cludo scripts by simply adding the Cludo Client Library to your template or embed it in your existing custom Client Libraries.

Automatically Recrawl Published Pages

Have confidence your content will appear in results immediately after publishing with an integrated Cludo replication agent.

Drag'n'Drop Cludo Components For Your Templates

Intelligent Autocomplete Input

Assist users by auto-completing their searches with intelligent results by simply placing a search component in our template.

Search Results

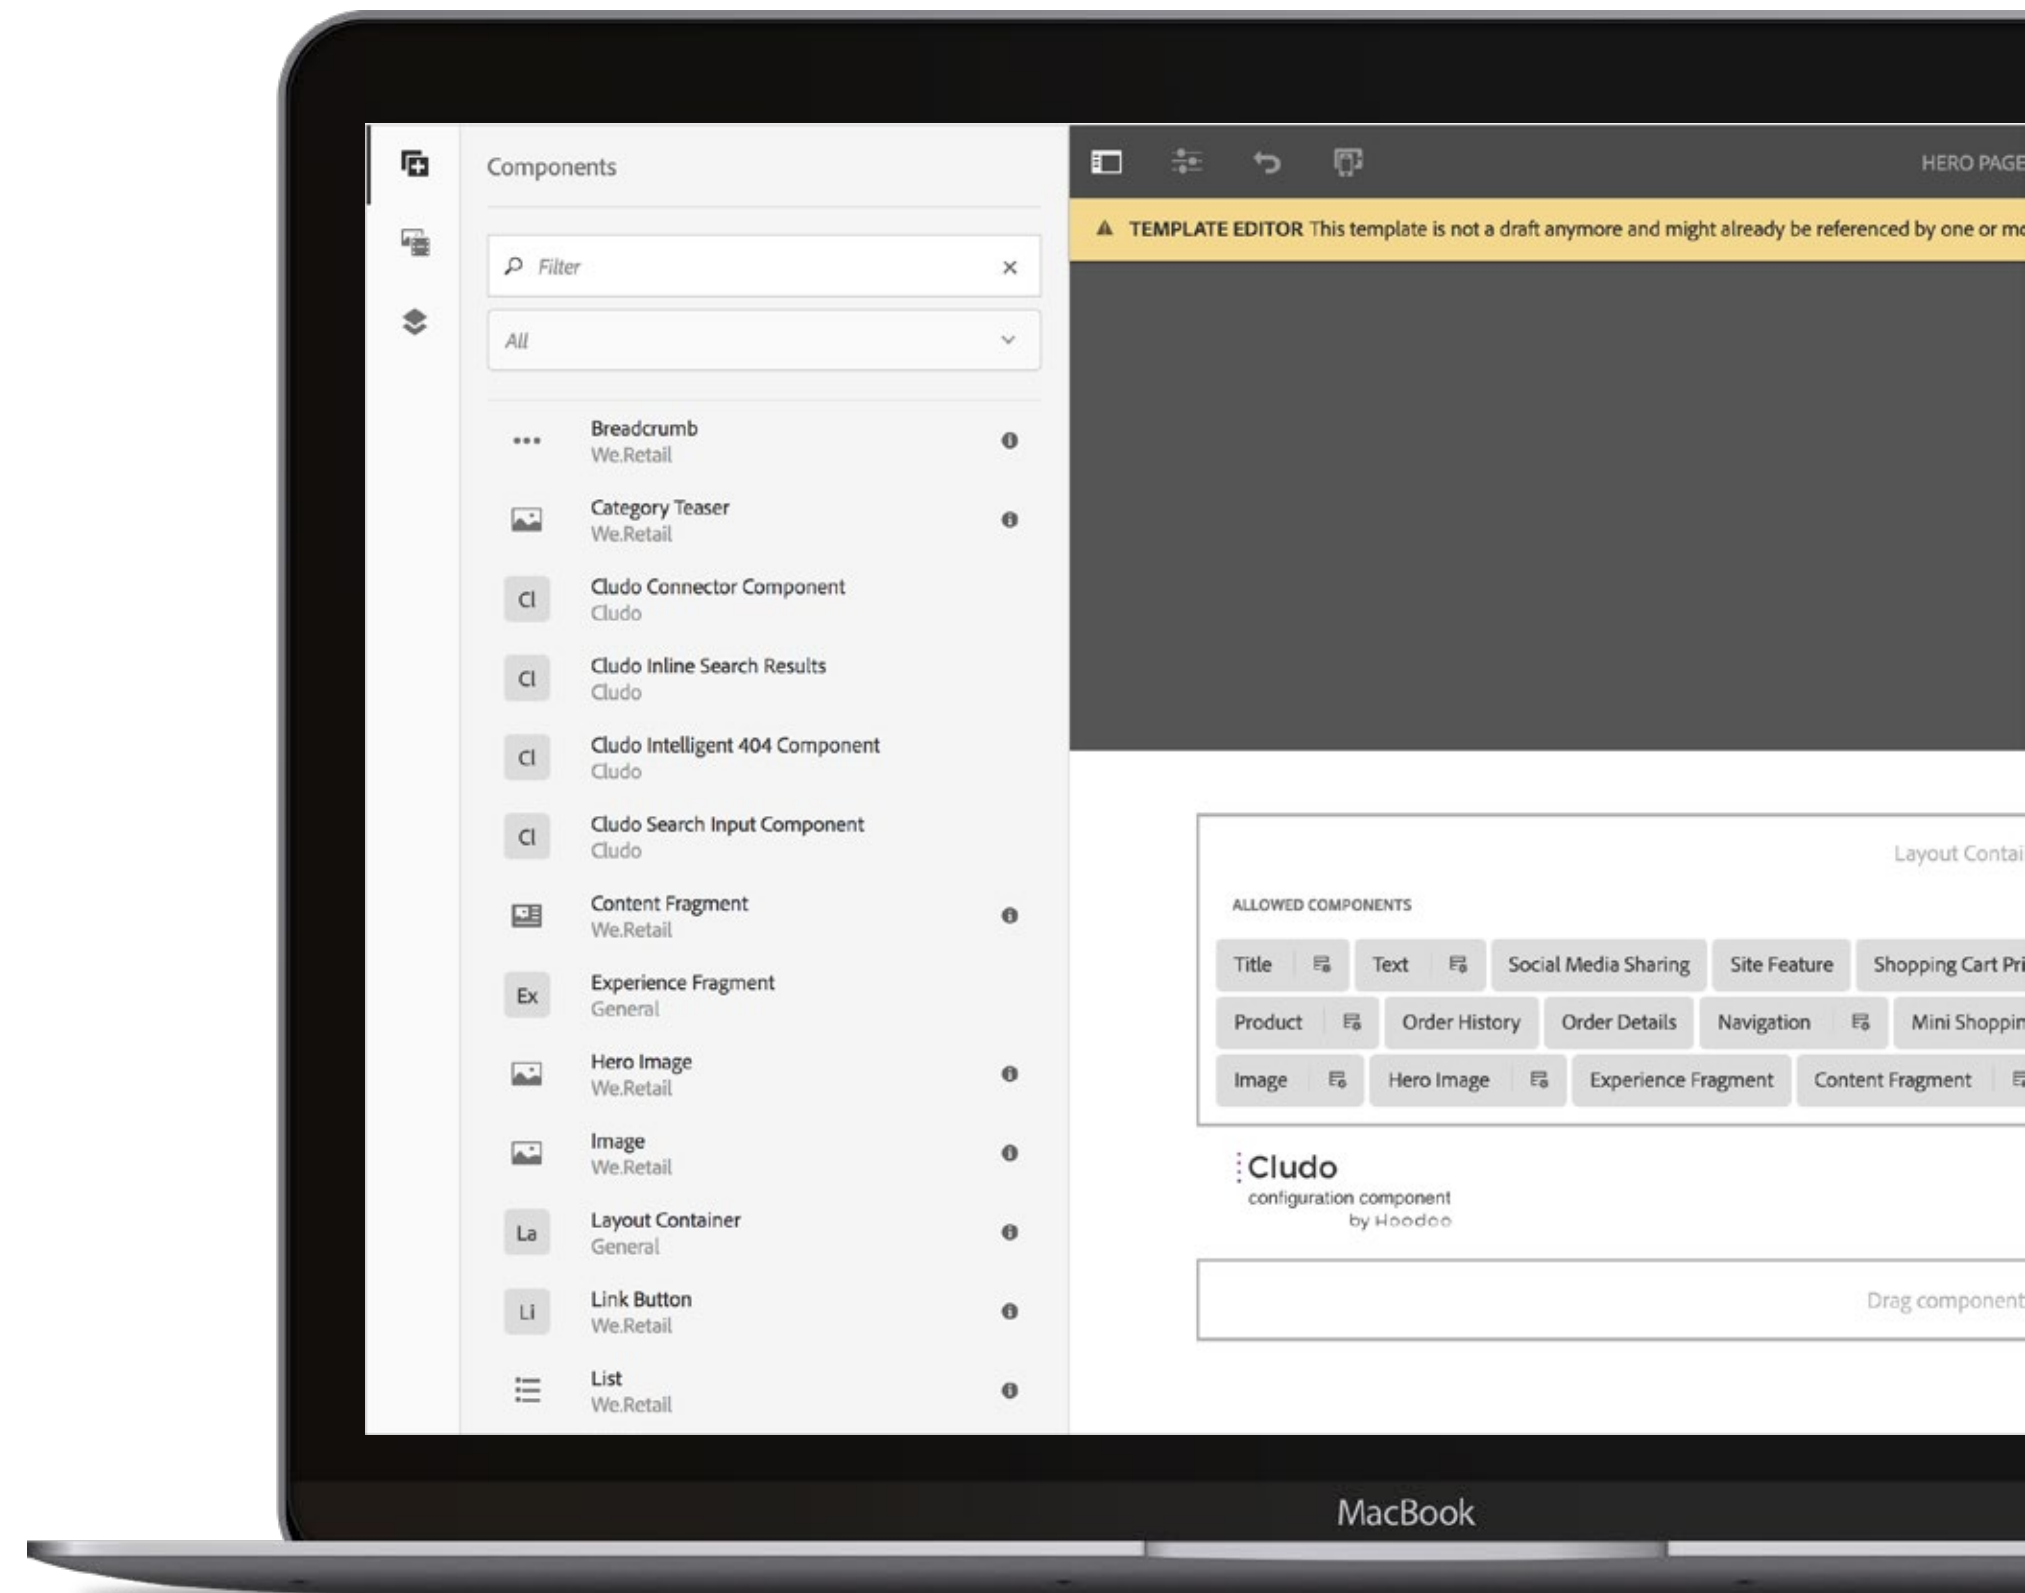

Customize the search results for any experience with an easy to use component.

Query-Driven Lists

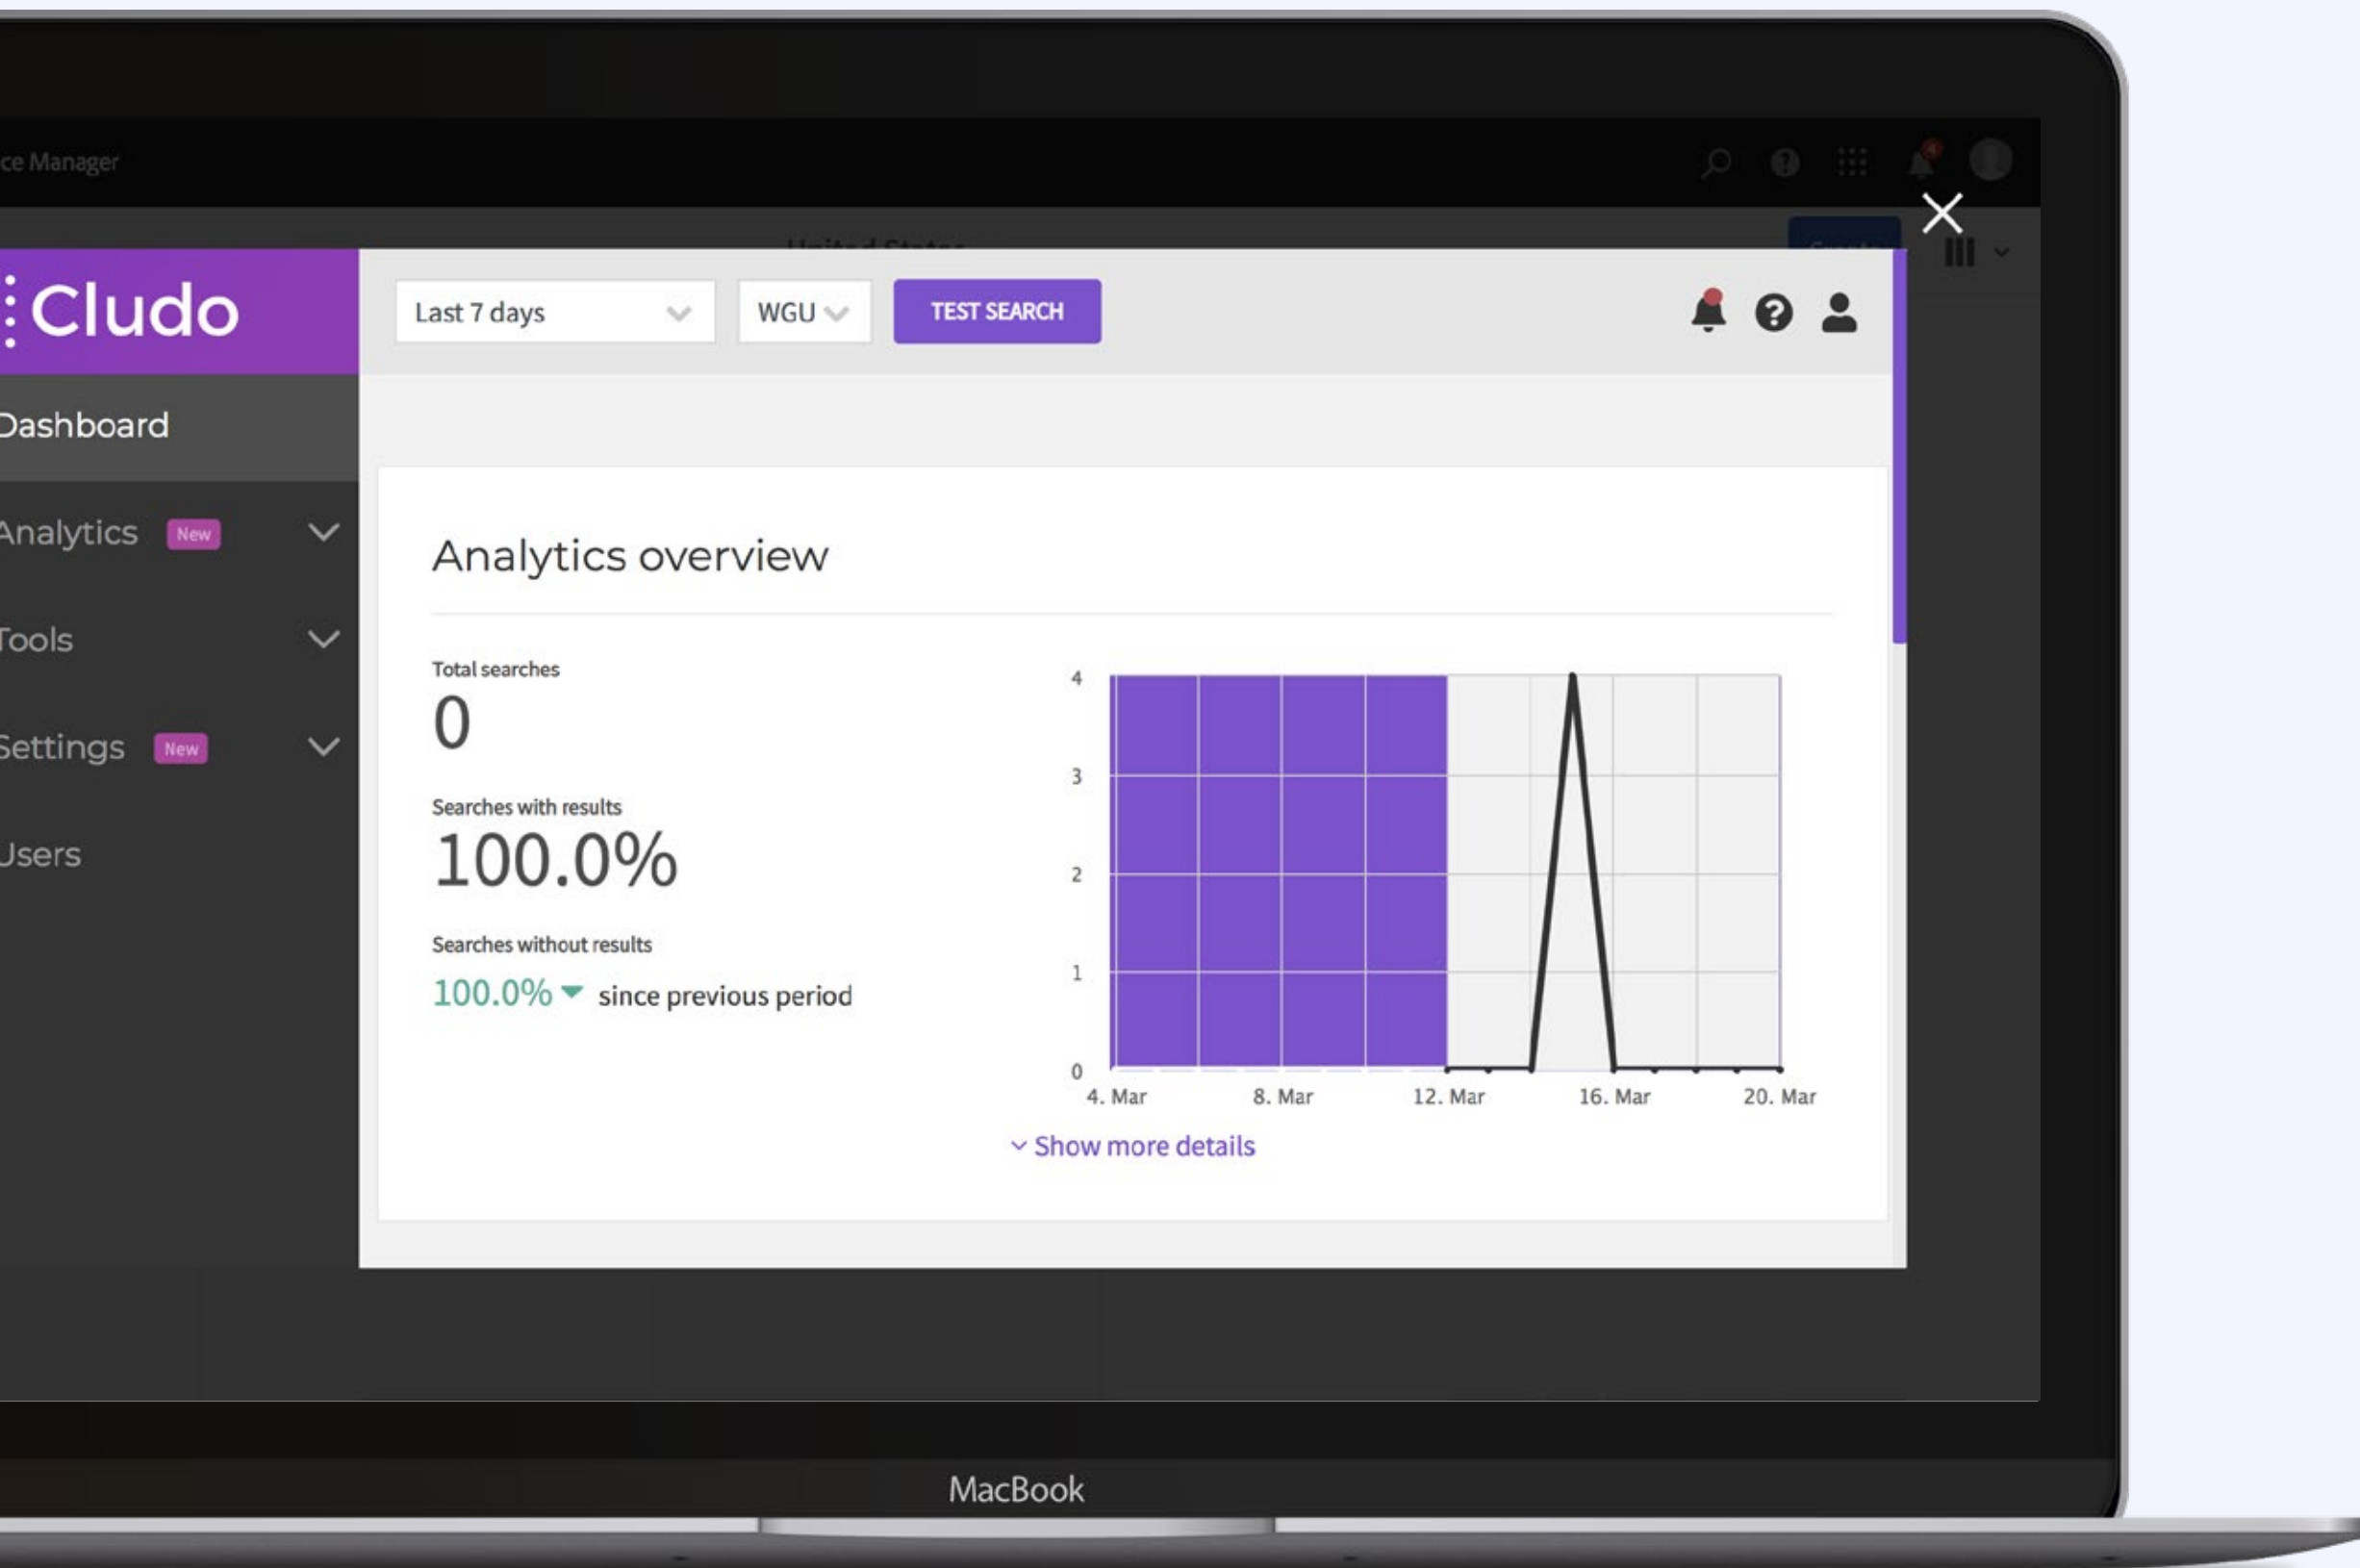

Drive smart page or asset listings from the Cludo API and get live content updates across pages without worrying about cache inconsistencies.

Intelligent Site Search Functionality

Enjoy smarter results with all components including bigram matching, synonyms, derivative words, spell check, keyword highlights, and "did you mean?"

Manage Cludo Directly In AEM

Quick Dashboard Access

Access your Cludo dashboard without leaving AEM through Adobe Experience Manager's Touch UI tools console.

Review Search Analytics

Quick access to Cludo's actionable search analytics allow you to optimize your site search right from the source.

Build Banners for Results

Generate new banners based on your search findings that will be displayed along side specific search queries.

Customize Page Rankings

Configure your site search results, so you can choose which pages you want to be on top for selected keywords.

Thank You

Hoodoo ❤️ Cludo

We're looking forward to hearing from you.
