

EVC FULL CONTROL

VOLVO PENTA WOULD LIKE TO ANNOUNCE THE EVC-FULL CONTROL PROGRAM

All 2013 model year boats equipped with Volvo Penta EVC engines and controls will be outfitted with our most popular EVC options:

	All Sterndrive Models	All IPS Models	All Inboard Models
Trip Computer	■	■	■
Cruise Control	■	■	■
Power Trim Assistant	■		
Low Speed		■	

TRIP COMPUTER tracks your fuel consumption, trip time and more.

CRUISE CONTROL allows fingertip control of your engine RPM. Fine-tune your boat's speed for best possible fuel economy.

POWER TRIM ASSISTANT automatically trims your sterndrive for perfect running attitude, optimal performance and fuel economy.

LOW SPEED gives you the opportunity to slow your boat down by letting the IPS transmissions slip. This is also a part of the joystick package so upgrading will be less costly.
