

Megacoon Cattery-Maine Coon Kittens 10-1-17

NOTICE:

Effective 8-1-17 deposits for MALE MC kittens will be frozen until further notice, due to the large number of deposits already received. May remain frozen 8-10 months or longer! Deposits for FEMALE MC kittens will continue to be accepted.

I am now taking deposits on female kittens and upcoming litters as detailed below. A \$100 refundable deposit will reserve a female kitten of your color choice. The deposit list is prioritized by the date of your deposit. Oldest deposit first.

Your deposit is refundable up to the date of your kitten pickup. At that time, it becomes a security deposit until the cattery breeder receives a copy of the spay/neuter statement from the kitten buyers Vet. Once received, the deposit will be refunded back to the kitten purchaser.

From breeding date to a kitten going home is a minimum of 5 months!!!!

I do not ship kittens!

I do not accept credit cards!

I do accept payment of deposits via PayPal (deposits only)!

The deposit is not part of the Purchase Price!

No declawing allowed.

Kittens are placed in new homes at 12-14 weeks of age.

There is a deposit waiting list for all kittens and all colors, regardless of sex. There is currently approximately a 10 month wait for new deposits for male kittens and approximately a 8 month wait for new deposits for female kittens. Black silver is the most popular color and the longest wait.

All pet/show kittens are sold with a required spay/neuter contract.

Declawing voids all health guarantees and your deposit refund.

Registration is included in the price and will be completed upon receipt of a copy of the spay/neuter statement from the Vet. A vet copy of the spay/neuter of your kitten is required to be sent to the breeder in order to obtain your \$100 kitten deposit refund.

Spay conformation is required for Female kittens at 6 months of age. Neuter conformation is required for Male kittens between 8 and 10 months of age.
