

We believe alwitra's Single-Ply Roofing System outperforms the rest and here's 22 reasons why...

Evalon® is a homogeneous membrane – it is not assembled from different layers, where the carrier layer is usually of inferior quality (e.g. not UV stable).

Evalon® is not affected by exposure to hydrocarbons like kerosene (aviation fuel etc) or micro organisms that can have a detrimental effect on some other membranes.

Evalon® maintains dimensional stability in fully adhered applications.

Evalon® is bitumen compatible – it does not change over time when laid over bitumen and can be easily used to overlay failed bituminous membranes.

Evalon® does not require internal reinforcements for additional strength and stability.

Evalon® does not require lap sealant to protect the membrane weld.

Evalon® is available in 3 standard colours – special colours are available.

Evalon® is available as a self adhesive membrane, Evalon VSK.

Evalon® is available in a wide choice of widths for detailing work and for upstands & gutters.

Evalon® has as an impeccable track record with a life expectancy in excess of 30 years.

Evalon® is suitable for flat or pitched roofs.

Evalon® comes with full Technical support back up, including specifications and site inspections.

Evalon V® can be fully adhered with specialist adhesive or hot bitumen, mechanically fastened, or loose laid and ballasted.

Evalon® has a much higher solid content than PVCp, making it a more stable material.

Evalon® does not require a lacquer coating to seal in plasticiser or to repel dirt.

Evalon® can easily be repaired even after many years by welding new onto old.

Evalon® can be simply, reliably and homogeneously welded with either heat, or solvent welding agent, using hand-held tools or automatic seam welders.

Evalon® is compatible with most insulation boards including polystyrene.

Evalon® is BBA certified.

Evalon® is Root resistant without any further protection.

Evalon® has an amazing dedicated range of accessories including rooflights, green roof system, edge trims, standing seam detail, roof drains and more available.

Evalon® qualifies for an Insurance backed warranty.
