SOPREMA
GROUP

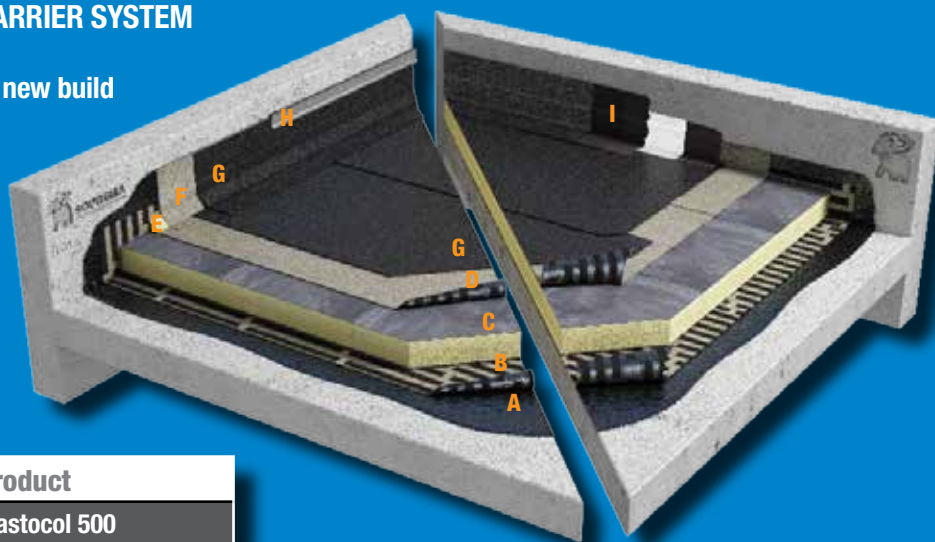

WARM ROOF WITH VAPOUR BARRIER SYSTEM

Project type: Refurbishment and new build

Substrate: Concrete

Installation: Torch applied

Warranty: 20 Year

Component	Product
A Primer	Elastocol 500
B Vapour barrier	Sopravap Alu Activa 2
C Thermal insulation	Sopratherm
D Vented underlayer	Ventirock SBS 3TF
E Angle fillet	
F Upstand underlayer	Sopralene Flam 250 TF
G Waterproofing membrane	Sopralene Flam 250 AF
H Termination bar	
I Liquid flashing	Alsan Flashing System

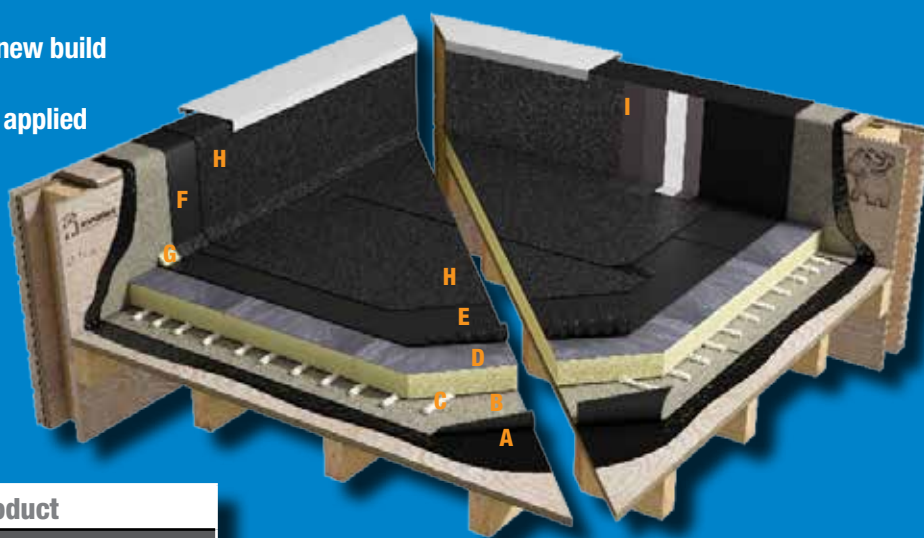

WARM ROOF WITH SELF ADHESIVE VAPOUR BARRIER SYSTEM

Project type: Refurbishment and new build

Substrate: Timber deck

Installation: Self adhesive / torch applied

Warranty: 20 Year

Component	Product
A Primer	Elastocol 600
B Vapour barrier	Sopravap Alu S16
C Insulation adhesive	Coltack Evolution
D Thermal insulation	Sopratherm
E Vented underlayer	Soprastick SI
F Upstand underlayer	Soprastick 30
G Angle fillet	
H Waterproofing membrane	Sopralene Flam 250 AF
I Liquid flashing	Alsan Flashing System

SOPRALENE FLAM 250 AVANTAGES

- + Elastic and flexible down to -20 ° C
- + Trusted and proven product
- + Excellent tensile strength
- + Root resistant variation available for green roofs
- + Easy to install
- + Attractive finish

SOPRALENE FLAM 250 SYSTEMS

The Sopralene Flam 250 Waterproofing Systems have been developed in accordance with the demand for premium quality, high performance waterproofing. These systems have been designed for ease of application and superior performance.

GREEN ROOF WATERPROOFING

Sopralene Flam Garden 250 is an anti-root variant specifically designed for green roof applications. SOPREMA have a wide range of systems available to suit all projects. Bespoke and hybrid systems can be specified to achieve specialist and complex project requirements.

SOPRALENE FLAM 250

SOPREMA has long been the manufacturer of choice for waterproofing membranes, based on high quality SBS modified bitumen, in the highly competitive waterproofing market. Sopralene Flam 250 is one of SOPREMA's leading products. Due to its proven track record, Sopralene Flam 250 has been installed on thousands of projects across the UK and Europe.

Sopralene Flam 250 outperforms other SBS modified bitumen membranes with its unique bitumen blend, ease of installation and resistance to extreme temperatures down to -20 ° C. This gives the product excellent ageing characteristics. The polyester reinforcement provides excellent dimensional stability and the black slate finish maintains a superior aesthetic appearance throughout its lifetime.

BLACK SLATE FINISH

sopralene flam 250

INSTALLATION

Sopralene Flam 250 is torch applied on multilayer systems.

CERTIFICATION

Sopralene Flam 250 is BBA certified. We know from experience that roofs waterproofed with Sopralene Flam 250 have a life span of over 30 years. Sopralene Flam 250 is manufactured according to the principles of sustainable construction, respecting the environment, human resources and the economy!

COMPLIMENTARY SYSTEM COMPONENTS

Depco bituminous outlets

Soprema paving support plots

A full range of ancillary system components and accessories are available to compliment the Sopralene Flam 250 waterproofing systems, all of which are covered under the Sopracover Warranty.

SOPRACOVER WARRANTY

10 to 20 year warranties are available for Sopralene Flam 250 as standard, determined by the system specified.

All SOPREMA products are installed by approved contractors to ensure a consistent standard of workmanship. There are no minimum surface area or project value requirements to qualify for the Sopracover warranty.
