 Boat + 60HP Mariner

# Pro-Fish 560

Length	5.6m	Weight	680kg	Max HP	74kW (100hp)
Beam	2.2m	Crew	7 - 8	Category	C / D

The strong and durable hull of Pro-Fish 560 has been designed for intensive use by anglers, both amateurs and professionals. The boat handles perfectly in rough weather whilst offering shelter from all weathers with its spacious cuddy. In the cockpit of the Pro-Fish you can find everything you need for a good days fishing; high and safe side with additional grab rails, four rod holders installed on the stern of the boat, on the starboard side you will find a live bait well that allows long storage of bait whilst on the port side there is a worktop for gutting fish. The

boat boasts large amounts of storage for both your catch and all your gear. It has 10 practical storage compartments which help keep all your kit in order. In the front part of a superstructure there is a liftable hatch giving you access to service the bow section and allow for access to your bow anchor. The Pro-Fish 560 is a compilation of a practical working boat while maintaining a slim profile that gently cuts through any wave giving you the ultimate comfortable ride. The boat has been designed for easy recover and transportation on to any trailer.

 Boat + 75HP Mariner

# Pro-Fish 660

Length	6.5m	Weight	870kg	Max HP	86kW (115hp)
Beam	2.5m	Crew	8	Category	C

The Pro-Fish 660 is a universal motorboat designed for inshore/ offshore cruising and fishing. The specific design of the hull makes this boat very agile and easy to steer. There is a large amount of various lockers so that you get a lot of space for your gear and equipment. The Pro-fish 660 has been designed to give you a smooth and comfortable ride in all weathers and provides a large and spacious area to shelter from the weather. This boat has been designed for the demands of real fishermen, who need something

professional. The designers and engineers have really focused on making this boat user friendly and practical. The front window can be fully opened which gives an opportunity to sit on the bow and give you full and easy access to the anchor and bow locker. The seaworthy hull makes the boat very stable. To give that extra protection the Pro-Fish 660 has additional grab rails, rubbing strakes and a strong reinforced hull to give you that extra security.
