

# CRUISER RAMP

HD 95th Anniversary Fat Boy

## CRUISERRAMP.COM

- ◆ The Cruiser Ramp system eliminates the need to ride up a steep angled 2" X 12" plank, or backing your pick-up into a ditch in order to load your motorcycle into the bed.
- ◆ Safer than motorcycle ramps or wooden planks. More feasible than pulling and parking a motorcycle trailer.
- ◆ The effort free, unique return system pulls the motorcycle back out of the bed. No need for a second or third winch with confusing electronic switching.
- ◆ The system incorporates a hand held remote switch with 15 feet of cable.

Dodge 3500 8' Bed
