Thermal Antifouling System

✓ No sea water pollution
✓ No installation of copper anodes
✓ No chemical corrosion damages
iTAS integrated Thermal Antifouling System

 iTAS - Permanent Fouling Protection

✓ iTAS-unit on box cooler cover
✓ iTAS during Main Engine cooling
✓ Use of HT-water waste heat
Efficient TAS in every Harbor

Flap installation in sea chest
- Efficient and fast process
- Several clothing devices
- First installation 2001

Patent 1999 • Proven by Practice
