## *Producers of Quality Fruit Wines*

Prestons Kiwifruit Winery is a privately owned family company established in 1980.

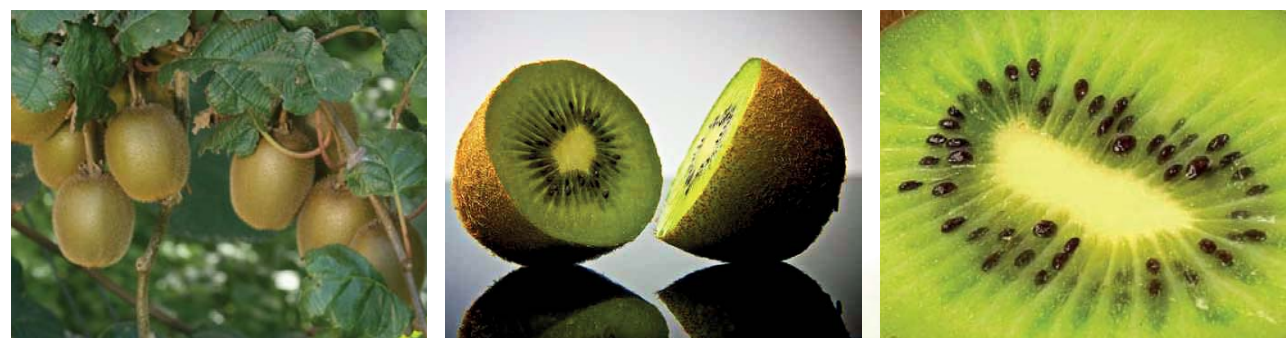

We are New Zealand's largest producer and exporter of high quality naturally fermented fruit wine.

The winery is based in the sunny Bay of Plenty region, home of kiwifruit growing in New Zealand.

Our kiwifruit wine production methods are modern, using stainless steel tanks and refrigeration for precise temperature-control.

What's more, kiwifruit is recognized as a super-food with excellent health benefits, notably high in Vitamin C, Niacin (Vit. B3), Folic acid (Vit. B9), Vitamin E, along with several essential minerals, all promoting general health and well-being.

Our unique product – Medium Kiwifruit Wine – is produced from quality kiwifruit harvested annually, and has become famous for its unique flavor and award-winning quality.

## MEDIUM

### GOLD

Fruit Winemakers of NZ National Awards 2009  
Fruit Winemakers of NZ National Awards 2012

### TROPHY

Best White wine – Fruit Winemakers of NZ 2009  
Best White wine – Fruit Winemakers of NZ 2012

This medium kiwifruit wine is made from sun-ripened New Zealand kiwifruit, grown in the beautiful Bay of Plenty region.

A unique expression of our pristine maritime climate, it shows lovely ripeness and captivating freshness.

Enticing tropical fruit notes of kiwifruit, guava and honeysuckle intermingle with floral rose-petal perfume and the kiwifruit's natural gentle acidity, to yield a delicious and delicately textured wine which persists to a satisfyingly long fine finish.

Consistently judged New Zealand's best fruit wine - nine times Gold medal winner and New Zealand's most awarded fruit wine!
