MESSAGE FROM THE MANAGING DIRECTOR

By Jenny Coetzee

Dear Parents and Guardians

In the 137 days since the announcement of schools closing on 15th March 2020, we have all experienced trials & challenges which we could never have imagined. The impact of COVID-19 has been devastating to many, whether financially, emotionally or socially. No-one has been left untouched and it is easy to fall into a state of despair or anxiety. However, as role models to our children we need to remain positive, be protective and celebrate the many highlights that we have been able to achieve during this time.

Our online teaching was a success and I thank the many parents who have complimented our teachers for their resilience and their ability to adapt and change to an entirely new mode of teaching.

I have been exceptionally impressed by our students who have also adapted, become more resilient, improved their organization and self-management and, consequently, many students improved their results in the last term of the year. Although it has not been easy for them not being with their friends, I am exceptionally proud of their efforts.

Reflecting on this COVID-19 period, we have much to celebrate:

- Our teachers rose to the occasion and presented good quality online lessons. The growth-mindset attitude, management of change and teamwork amongst the staff was outstanding.
- 98% of our students logged onto the online teaching.
- Crawford International School was one of the few private schools in Kenya which has continued with the educational process without any interruption on the secure and robust MS Teams platform. All syllabi content was covered. All assessments were completed, reports were finalized and our students progressed into the next academic year.
- During the lockdown we still held our
 - Careers week
 - Languages week

... cont'd message from the Managing Director

- Shakespeare week
 - Peer mentoring sessions
 - Environmental Art and Mother's & Father's Day Poetry Competition
 - IGCSE graduation
 - KG-Year 3 Prize-giving and Graduation
 - Year 4-6 Prize-giving
 - Year 7-10 Prize-giving
 - All Stars Awards for Clubs and Extensions, Cultural, Sports and Leadership and Service
 - Virtual Art Showcase
-
- Our first cohort of IGCSE students completed their qualification. The Cambridge exams were cancelled but predicted scores have been considered with portfolios of work presented for moderation. We eagerly await these student's results in August.
 - We are blessed that our school continues to grow, and we will introduce 5 new streams next year.
 - A Levels will be introduced starting September. We already have many students interested in joining our school at this level.
 - Our staff component will also increase as a result of the growth within the school. Crawford has become a school of choice for educators because of our staff development opportunities.
 - The parent initiative to provide food parcels for our support staff was well supported and I thank those parents who rallied together to consider those who are less fortunate. This act of kindness was very appreciated.
 - We have been able to continue to pay our staff their salaries due to the support from the school community in keeping to their contract and paying their school fees.
 - Although schooling has been stopped for many children in Kenya, we will continue our educational journey online as we start our new academic year on 1st September 2020.
 - Using our online platform we have been able to keep in contact with families who have experienced tragedies due to losing loved ones in this

... cont'd message from the Managing Director

time. I thank the parents for the support and comfort they have also extended to these families.

Whilst we have had much to celebrate there have been opportunities missed. I would have liked to see our school community further strengthened during this time and feel it unfortunate that a group of parents petitioned the school to court and that others withheld fees for the entire term. The judgement in the court case should be made by the end of July and I will inform parents of the outcome. The school has respected the parents' right to disagree on decisions taken and as a result no child has in any way been disadvantaged by being disconnected from the online learning platform.

However, operationally it will not be possible to continue providing "free schooling" where parents are not fulfilling their contractual obligations to the school as a form of protest. It is also not fair to those parents who have paid their fees to subsidize parents who have taken this stance. Therefore, we ask that all outstanding fees for the 2019/2020 academic year are settled by the end of July for children to remain connected to the online platform at the start of September.

Any school fee discount, if decreed by the court, will be credited against the 2020/2021 first term fees. The credits for meals and transport, not provided as a result of COVID-19 during the last two weeks when schools were closed, will be credited against those services once school physically resumes.

Billing invoices will be sent out at the by 7 August with the other pertinent information on stationery, school calendar, control test timetables and orientation for new students and parents. Students will be informed if their new teams as they move into new classes at the start of the academic year.

All new students joining the school will be taken through an orientation session on how the platform operates and a general introduction into Crawford. We are organizing ice-breaker sessions to assist these students in making new online friends.

... cont'd message from the Managing Director

Another celebration is the growth of the Tatu City development. Tatu City has remained open and fully operational during Covid-19, while enforcing strict distancing, hygiene and monitoring measures. The city is experiencing a surge in home buyers who, perhaps cramped in congested areas of Nairobi during the lockdown, are seeking plentiful green space and a range of house and apartment prices.

At Kijani Ridge, more than 30 homes are under construction and 100 plot owners are going through the design approval process. Of Kijani Ridge's 647 plots, more than 500 are sold. Meanwhile, over at Unity Homes, keys have been handed over to the first 48 owners, with at least one Crawford parent among them, just one year after construction began.

The business and light manufacturing district of Tatu City are also busy. In July, Tatu City announced the arrival of Cold Solutions, which will spend USD 70 million building state-of-the-art cold storage facilities in Kenya, with the flagship facility at Tatu City. Cold Solutions is an investment driven by Africa Rainbow Capital, whose founder, Patrice Motsepe, is one of South Africa's most prominent entrepreneurs.

ADvTECH has also launched its online university programmes in Kenya, Ghana and Zambia called Oxbridge Academy. This will be to great benefit to students during this time. Oxbridge offers a wide range of vocational courses. Since its launch in Kenya last month there has been particular interest in three courses: Entrepreneurship, Occupational Health and Safety and Logistics and Supply Chain Management.

On a closing note we were very sad to say goodbye to two excellent teachers. Ms Shelly James and Ms Tabitha Makau. Ms Shelly has decided to return to South Africa and not renew her secondment opportunity and Ms Tabitha has accepted a lecturing position at the University of Tanzania. We thank these teachers for their dedication and love for our children. They were impactful teachers and will be sorely missed. We wish them everything of the best for their future.

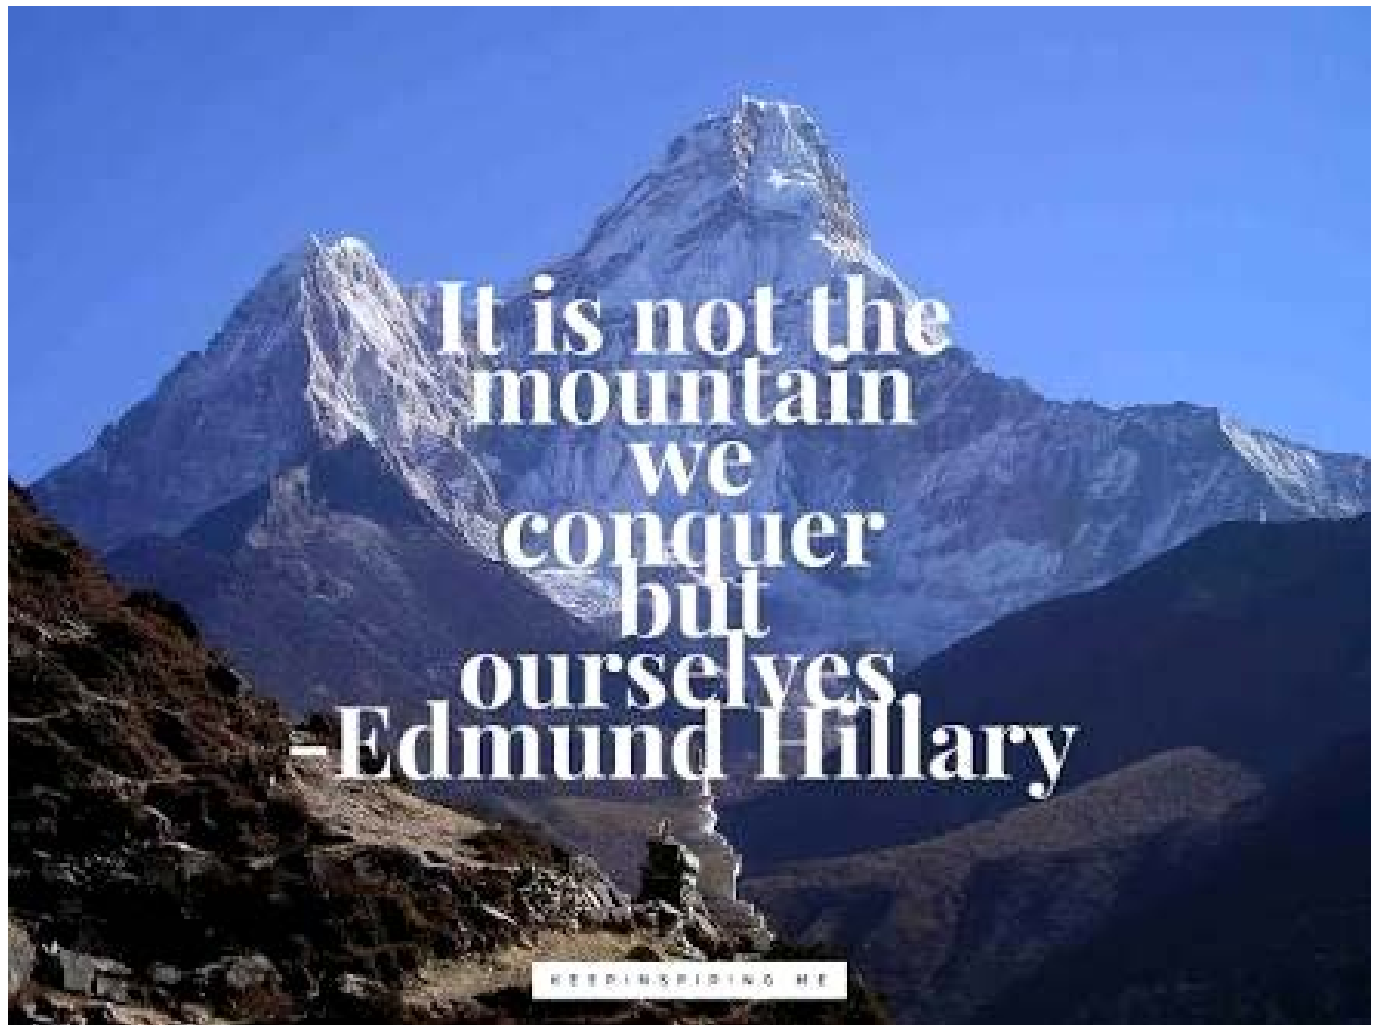

... cont'd message from the Managing Director

A sincere thank you to our parents for their unfailing support of their children and our school. Your positivity has carried us through these 137 days.

Enjoy the holiday break. Please take care and stay safe!

Kind Regards

Jenny Coetzee
Managing Director.

IN LOVING MEMORY

*Dr. Doreen Adisa Lugaliki
& Mr. Antoine Musinga*

We are deeply saddened and heartbroken for the loss of
CIS parents Dr. Lugaliki and Mr. Musinga. We pray for
comfort and solace in this difficult time.

Music gives a soul to the universe, wings to the mind, flight to the imagination and life to everything.
-Plato

Exceedingly Abundantly Above All

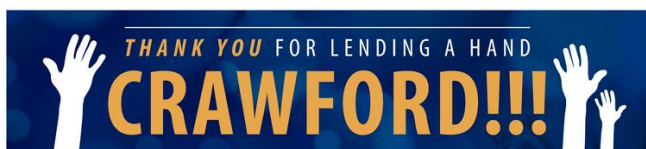

by Crawford Parent Ms. Karin Olsen

A few weeks ago, a few Crawford International School (CIS) parents joined together in a common goal, to support our loyal Facilities Staff through this difficult time.

It was a simple but exciting idea: a Hamper Scheme that we hoped would make a difference and reconnect our CIS families. We were very aware of the notion Helen Keller puts so simply, "Alone, we can do so little; together we can do so much."

After much prayer and discussion, we started preparing. We had little time and resources but great hope in our Lord who is able. We designed a flier, which we asked the School to share with our CIS families.

COVID-19 SUPPORT STAFF FUNDRAISER

The response was heart warming. Some of our Crawford children shared their savings and even birthday money; some children rallied their school friends in support of the initiative. We can truly say that our CIS families are generous

and our children caring, even now during this difficult time.

We managed to collect Kshs 100,000 which enabled us to purchase a hamper for all 81 Facilities staff members, we are so very grateful to you our CIS families. The verse "God is able to do exceedingly abundantly above all that we ask or think," Ephesians 3:20, comes to mind. Our Lord provided above all we thought possible and we are so very grateful for how He opened the way and your hearts.

Friday the 10th July was a joyous day. The hamper truck arrived at School to a sea of twinkling eyes seen over face masks. The staff thanked the parents for their contributions and for acknowledging them. We addressed the staff in turn and thanked them for all their hard work and assured them of our prayers.

We asked the staff to accept the hampers as a sign of appreciation from all the CIS families, for all they do for the School and our children. Here is a glimpse of what each hamper contained: 2kg rice, 1kg sugar, 2kg beans, 1kg green grams, 1L cooking oil, 4kg maize meal, 150g tea leaves, salt, matches, detergent and a long bar of soap. The remaining 8 hampers that were not collected were donated to the Zaidi Ya Dreams Children's home which the school supports.

We are honoured to be part of the generous culture seen at our School and are eager to witness how the Lord continues to grow us as a School family "above all we ask or think". God bless you and your family now during this time.

Celebrating Our Resilience

by Ms. Lucy Simiyu

Here we are at the end of Term 3 and it is unbelievable how far we have come. We made it! We made it, Crawford!

It has been a long three months or so with all the teachers and staff members having no break whatsoever for a breather as we all shifted gear from face-to-face learning and interaction to the online learning platform. In addition, all our students had to gear up for months of lack of social interaction with their school peers and friends.

For our students, COVID-19 has stolen crucial aspects of their childhood; a developmental stage that is often characterized by play, peer friendships and talent development.

In spite of the pressure and the stresses exerted by the change in the learning arena on students, teachers and staff alike, there is one trait that defines the Crawford community. Resilience.

When it all began, there was insurmountable pressure to adapt to the new normal with teachers and staff undergoing numerous training sessions without a break in sight, and parents and students adapting to the new way of learning.

The initial online sessions were characterized by challenges that are now a thing of the past e.g. students muting teachers, or teachers forgetting to record lessons, or a student accidentally joining a wrong class, etc. All in all, though, COVID-19 suddenly propelled us into a situation where we all needed to learn and learn fast. Now, three months down the road, the

... Celebrating Our Resilience

by Ms. Lucy Simiyu

knowledge and skills sharing that have been accomplished through MS Teams are an invaluable addition to both students and teachers.

Both groups are adequately prepared for the new mode of future learning that will combine both face-to-face and online interactions. The future is indeed here, and our adaptation means that we will remain relevant for future generations of learners.

Over the past three months, the Life Orientation (LO) lessons with Year 4 – Year 9 students, have focused on life skills and attitudes paramount to thriving in the COVID-19 era.

Students have explored the following topics, respectively:

1. Compassion, Gratitude, Positive Mental Health (or, Our Feelings for Year 4 & Year 5 students)
2. Body Image (specific to Year 6) and
3. Growth Mindset (Thinking Positive for Year 4).

As the term drew to a close, we explored the topic of Resilience. Discussions with students revealed the need to celebrate our resilience as a community. Most students were able to point out instances when they have been resilient, and these are worth celebrating.

Some of the statements from the students include:

- “My mum asked me to help her with gardening and even though I did not feel like, I still helped her.”
- “I believe COVID-19 will end and we will go back to school.”

... Celebrating Our Resilience

by Ms. Lucy Simiyu

- "Sometimes I feel like sleeping but I wake up and join the class."
- "I was not feeling well the other day, but I sat in front of my computer for my lesson."
- "My family has been supporting an orphanage by buying foodstuff for them."
- "We bought our security guard and house manager sanitizers and masks for their families."
- "I really wanted to play with my friends at school, but I understand it is not possible for now."

While these statements may seem simplistic, they are an expression of how resilient our students have been during the pandemic. Rather than let the new circumstances overwhelm and paralyze them, students have risen to the occasion and adapted to the new normal.

I am especially proud of our students for having stuck in there, to the very end of Term 3, in spite of various challenges.

As we come to the end of the academic year, let us all take time to celebrate our resilience. Below are some of the tips discussed during the LO lessons about how we can develop resilience (Ref. Twinkl, On Building Resilience):

- **Believing that you are in control of your life.** Let go of what you cannot control e.g. when the pandemic will end and instead, take control of what you can e.g. your diet or exercise routine, growing your hobbies, spending quality time with family, etc.

... Celebrating Our Resilience

by Ms. Lucy Simiyu

- **Believing that you have value.** Each member of our community is important, with each adding value to both the school and to his or her family. You are valuable, you are important, you matter. The use of positive statements to describe yourself helps in adding value to who you are.
- **Believing that you can do what you set your mind to.** This calls for a growth mindset which emphasizes "the power of yet"

Carol Dweck: "The Growth Mindset"

- **Understanding and managing your own emotions.** Being able to identify or name feelings and seeking help when overwhelmed contributes to our resilience.
- **Looking forward to the challenges life brings.** Challenges enable us to practise skills we have already developed, solve problems, learn new skills and become more confident along the way!

- **Engaging in life.** While COVID-19 may have curtailed our interactions, we can find new and creative ways of engaging in life e.g. gardening, baking, jogging in the neighborhood, learning a music instrument, creative writing, etc. Doing something we enjoy will always make us feel better.
- **Feeling a sense of purpose.** When we realize that we are needed by others and that we have an important role to play in life, it helps us to pick ourselves up, dust ourselves off and carry on when times are tough. For example, the needy in society need us and we can help.

- **Appreciating what you have and being grateful.** Rather than focusing on what we do not have, let us focus on what we have e.g. family, friends, hope, nature, teachers, etc.

... Celebrating Our Resilience

by Ms. Lucy Simiyu

Engaging in life. While COVID-19 may have curtailed our interactions, we can find new and creative ways of engaging in life e.g. gardening, baking, jogging in the neighborhood, learning a music instrument, creative writing, etc. Doing something we enjoy will always make us feel better.

Feeling a sense of purpose. When we realize that we are needed by others and that we have an important role to play in life, it helps us to pick ourselves up, dust ourselves off and carry on when times are tough. For example, the needy in society need us and we can help.

by Mark Kinuthia, Year 9

Resilience

by Chloe Khaoya, Year 8

This is a story about resilience.

Nuri is a Sherpa who has spent his life helping climbers from all over the world hike the mountains of Nepal.

When the earthquake hit Nepal in April 2015, Nuri was helping Don Bowie and his team climb the Annapurna Circuit. News spread fast of hundreds of villages flattened or decimated by the earthquake, villages nestled deep in the mountains that were cut off from any supplies. Bowie's team decided to remain in Nepal and help where they could.

Though Nuri's own home had been destroyed, and he longed to be with his family, he chose to stay and join Bowie's

team in their efforts to help the World Food Programme provide humanitarian relief.

The Larke Pass is a passageway that used to provide access to these isolated villages before it was cut off by a landslide. Nuri and the crew worked for three weeks to get the Lark Pass open for supplies, then prepared mules for the long journey to bring WFP food to remote villages.

Larke Pass in Nepal

The team trekked through cold temperatures and low oxygen — and 5,100 m altitude! — to reach village after village. They were completely self-sufficient, carrying their own food, equipment, and medical supplies on mules.

With every stop on their journey, they assessed the needs of the community and relayed them via satellite phone back to WFP's operations team.

... Resilience

by Chloe Khaoya, Year 8

Nuri is one of thousands of people doing their part to help Nepal following its devastating tragedy.

Nuri lost his village, and he wanted to be with his family. However, he stayed and helped others who were in trouble. He knew that even though he faced a tragedy he should still bounce back and try his best to overcome this. Nuri had resilience.

Isolated Villages in Nepal

During this Covid-19 era, we should all be like Nuri. We should all have the resilience to flatten the curve of this pandemic, so that we can all meet again.
