Tastemaker

Just like Drew and Jonathan, the Tastemaker collection is handsome and modern. By combining wood, metal, stone and plush fabrics, this collection is luxurious, yet still casual and comfortable at the same time. It has bold design elements that is well balanced with clean lines and sculptural shapes. Most importantly, every piece provides comfort, functions and completely Scott Living!

Workshop

One of the most well loved decorating styles has been the Industrial Loft style and it is exactly what the Workshop Collection offers. With its cool layers of wood, metal and upholstery, the look is all about utility meeting beauty. It's about finding something new in the old and breathing new life into vintage designs while redefining functions in clever ways. Our Scott Living's Workshop collection is chalked full of must haves and can't live without.

BUNKIE BOARD

- Our bunkie board is a 2" wood foundation wrapped in tan fabric, which is ideal for bunk beds, daybeds, and beds that require a very low profile foundation to support the mattress.

Using a foundation is equally as important as the mattress components. The mattress and foundation are engineered to work together to provide the proper support and comfort. The foundation fully supports the mattress and absorbs impact on the mattress, which helps to protect the mattress from unnecessary wear over its life.

LOW PROFILE OR REGULAR FOUNDATION

The main function of a mattress foundation is to fully support the mattress and absorb impact on the mattress. It helps to protect the mattress from unnecessary wear over its life. The mattress and foundation are engineered to work together to provide the proper support and comfort. Rigorous research and development ensure product strength, stability and quality.
