about

EKENA MILLWORK

Our goal at Ekena Millwork is to do nothing short of revolutionize the millwork industry. Our focus on how to do that is simple: performance. We take today and tomorrow's technology and integrate it with the beauty of architectural millwork. We exist to provide not just a product line, but an entire millwork solution for your needs.

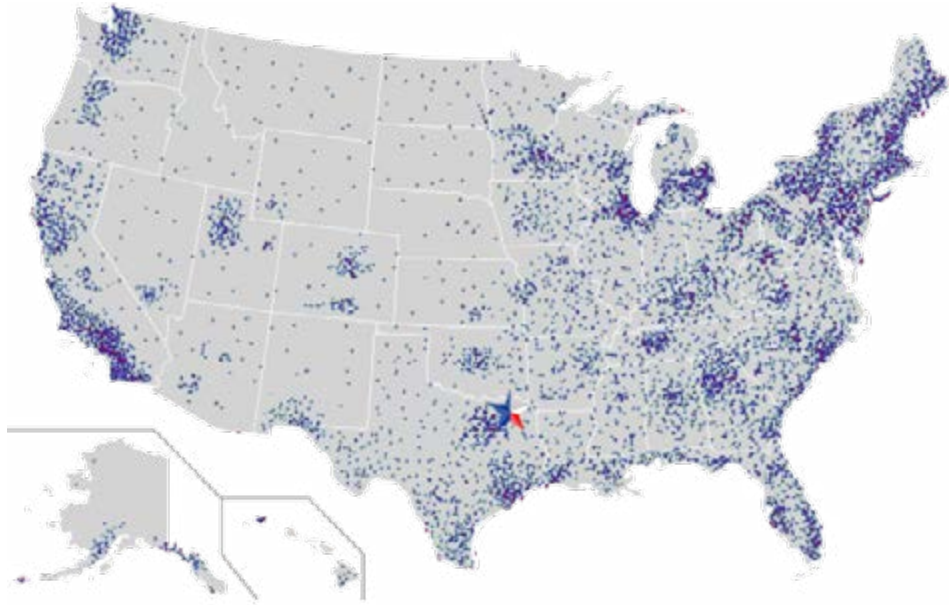

THE EKENA MILLWORK DIFFERENCE

- We are the only manufacturer of both urethane and wood products
- All of our standard products are deeply inventoried and ship within 72 hours
- Our pricing is the best in the industry
- We have the largest selection of urethane and wood millwork available
- We have the only composite balustrade certified at 16' lengths
- We will ship directly to your job site at no extra charge
- We are always adding new products. If we don't have what you need, we will make it!

NATIONWIDE SHIPPING

RAVE REVIEWS

"What a great company to deal with. The items are well made, well packaged, and shipped quickly. The company is a breeze to work with."

**-Michael S.
Huntsville, AR**

"To meet the custom and specific needs of commercial properties in a timely and professional manner is something that is priceless in our line of work. Ekena not only met our demands but exceeded them, and most importantly delivered in perfect time to install and meet our customer's demands. We are completely satisfied and our customers are completely satisfied. You cannot beat that combination of satisfaction!"

**-Alejandro S.
Houston, TX**

"Ekena Millwork's delivery is 'amazon-quick' and priced reasonably. The product quality is excellent and the service is really extraordinary. I wish I was always so lucky on "out of amazon" experiences."

**-James H.
Boston, MA**

"Ekena provided an easy solution for a \$3.5 million construction project where the architect didn't know what to use. This was easy and efficient and reasonably priced."

**-Frederick R.
Baltimore, MD**

POLYURETHANE

THE EKENA MILLWORK DIFFERENCE

At Ekena Millwork, we understand that when it comes to choosing a product, price is highly important, but we also understand that quality is just as critical. That is why we hold all of our polyurethane products to the utmost scrutiny and replace our molds as soon as they show signs of wear. Each product is hand-inspected before it ships to you or your customer to ensure only the highest quality products on the market. Because your reputation depends on it so does ours.

Polyurethane is a high-density composite material that has the crisp detail of traditional plaster or even hand-carved wood millwork, but with the benefit of being light weight, easy to install, and able to be used on exterior projects. All Ekena polyurethane products are factory primed and backed by our limited lifetime warranty. Let us be the difference on your next project.

ARCHITECTURAL INTEREST
 & EASE OF INSTALLATION

A close-up, black and white photograph of various white polyurethane moulding components. The image shows several different profiles, including a decorative scrollwork piece, a simple rectangular profile, and a profile with a series of small, rounded protrusions. The components are arranged in a way that creates a sense of depth and texture. The text is overlaid on the left side of the image.

WAINSCOTING FOR LESS

Use panel moulding to create the elegant look of wainscoting without the price. Here is what you can do:

1. Use a chair rail as the top moulding.
2. Use any moulding you desire (we suggest a simpler one) to make the panels.
3. Use a baseboard for the bottom moulding.
4. Paint the wall white in-between all of the moulding.

PANELS

UNLIMITED OPTIONS

Our panels were designed to add architectural interest with simplicity of design as well as ease of installation. These panels can function in a variety of ways. From dressing up walls, adding style beneath your chair rail, or applying some design to your doors. The Ashford series of picture frame panels come in a wide variety of sizes and proportions to best suit any application. But if the size you need is not available you can easily fabricate existing panels or create your own panels by using our Ashford (PML01X00AS, pg. 83) panel moulding. As always we are here to help you out in any way possible so if you have any questions do not hesitate to give us a call.

The image features several intricate, white, three-dimensional decorative appliques scattered on a dark, textured surface. The appliques include various designs such as acanthus leaves, scrolls, and floral motifs. The lighting highlights the relief and detail of the carvings. Overlaid on the center of the image is the text 'POLY URETHANE APPLIQUES ONLYAYS' in a bold, green, sans-serif font. The text is arranged in four lines: 'POLY' on the first line, 'URETHANE' on the second, 'APPLIQUES' on the third, and 'ONLYAYS' on the fourth. The 'ONLYAYS' part appears to be a typo for 'ONLY' or 'ONLYAYS' as a brand name.

SHIPS OUT IN
24 HOURS

A stack of white polyurethane sponges and shelves. The sponges are arranged in a neat stack, with some showing their porous texture. The shelves are also white and appear to be made of a similar material. The background is dark, making the white objects stand out.

One of the newest trends in interior design is using ceiling medallions as wall decor. It is a quick, easy, and inexpensive way to add unique character to a blank wall. Our "wall art" ceiling medallions have been featured in multiple magazine spreads, a music video, and hundreds of homes across the country.

WOOD CARVINGS

THE EKENA MILLWORK DIFFERENCE

True wood carved millwork is the most authentic category in millwork. Holding fast to the design of carver these products display unique designs with impeccable detail. Using historical and modern designs our millwork will meet any design requirements.

In pursuit of providing the best possible product our wood millwork is crafted using only the highest quality of wood. The wood used to craft our millwork either meets or exceeds the requirements of the AWI, NHLA, KCMA, and The Hardwood Council. To ensure the quality of these products the strongest Type-1 waterproof glue in the production process. All of this adds up to make the Ekena Millwork difference.

Hillsborough

A close-up photograph of intricate hand-carved wooden decorative elements, possibly for a ceiling or wall. The carvings feature complex, repeating patterns of floral and geometric motifs, creating a textured, three-dimensional effect. The wood is a light, natural color, and the lighting highlights the fine details of the craftsmanship.

A close-up photograph of several circular wooden medallions with intricate carvings. The medallions are arranged in a slightly overlapping pattern, with some in sharp focus and others blurred in the background. The wood has a warm, light brown tone. The text 'CARVED WOOD CEILING MEDALLIONS' is overlaid in a bold, green, sans-serif font across the center of the image.

RUSTIC WOOD COLLECTION

MADE IN THE

USA

RUSTIC COLLECTION

CORBELS, BRACKETS, BRACES, & OUTLOOKERS

Our Rustic Collection is an instant classic. Our Rustic wood millwork utilizes technologies of today to build the 'log and timber' wood products that have been in architecture for centuries. Because our products are not kiln dried, each item in our Rustic Collection is 100% unique and will contain the natural variations that the wood species offers. Your wood bracket, corbel, rafter tail, or gable vent will contain unique colors, grains, textures, knots, sapwood, and heart wood content as well as possible sap bleeding, and even natural checking, splitting and cracks. These natural variations are what make the Rustic Collection stand out from the rest as truly natural wood products.

LARGEST COLLECTION CUSTOM SIZES HAND-CRAFTED UNIQUE VARIATIONS UNLIMITED SIZES RUSTIC LOOK

WOOD SPECIES

We offer our Rustic Collection in both traditional Pine or durable Cedar. All of our wood is carefully chosen and hand inspected before being assembled into your vent. After each item is made, it is again inspected to ensure you receive only the highest quality product on the market.

ROUGH SAWN OR SMOOTH

The smooth finish Cedar or Pine is milled to perfection in our state-of-the-art wood shop. The smooth finish vents are also the perfect option if you plan on painting them. The rough-sawn finish offers a natural rustic look. The rough sawn products are timeless, offering the saw-textured surface obtained during the milling process that give you the look of freshly cut lumber.

PITCH CHART

A close-up photograph of handcrafted wooden gable vents. The image shows several curved wooden slats and a central wooden beam, all made of light-colored wood with visible grain. The background is a blurred wooden surface. The text 'HANDCRAFTED WOOD GABLE VENTS' is overlaid in a bold, green, sans-serif font.

GABLE VENTS**

GABLEVENTS

BRICK MOULD OR FLAT TRIM

All of our vents are available with either a brick mould frame or a standard 1"x4" flat trim. Brickmould is perfect for new construction or when you need to run siding up against the vent. For all other application, the 1"x4" trim will work perfectly for you.

ROUGH SAWN OR SMOOTH

The smooth finish Cedar or Pine is milled to perfection in our state-of-the-art wood shop. The smooth finish vents are also the perfect option if you plan on painting them. The rough-sawn finish offers a natural rustic look. The rough sawn vents are timeless, offering the saw-textured surface obtained during the milling process that give you the look of freshly cut lumber.

UNFINISHED OR PRIMED

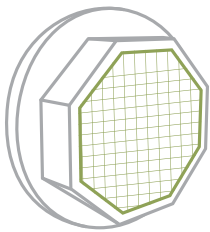

You have the choice of ordering an unfinished gable vent or a primed one. If you prefer the natural look of freshly cut wood, unfinished is for you. If you prefer to paint your vent, we will prime it for you with two coats of high quality exterior grade primer.

DECORATIVE OR FUNCTIONAL

All our vents are available as either a fully functional air-flow vent, or as a surface-mounted decorative vent. The louver boxes on our functional vents are designed to maximize air-flow while also protecting your attic from the natural elements. Decorative gable vents are designed to be non-functional, surface-mounted vents.

WOOD SPECIES

We offer our vents in both traditional Pine or durable Cedar. All of our wood is carefully chosen and hand inspected before being assembled into your vent. After each vent is made, it is again inspected to ensure you receive only the highest quality product on the market.

A close-up photograph of several stainless steel metal brackets. The brackets are dark, polished metal pieces with curved, semi-circular ends. They are arranged in a row, with some overlapping. The background is a plain, light-colored surface. The text "STAINLESS STEEL METAL BRACKETS" is overlaid in a large, bold, green font across the center of the image.

**STAINLESS

METAL
BRACKETS**

METAL BRACKETS

Metal brackets are one of our newest product lines! The brackets are extremely durable and heavy duty, ready to hold up any counter-top or surface that is put on them. They come in stainless steel as well as rolled steel and are ready to install the moment they arrive. Pre-drilled holes make installation as easy as it gets and all welds are on the back, providing a clean look. All of this combined offers a contemporary, high end, and high quality project that is guaranteed to meet all expectations.

- **1/4 inch of steel provides ultimate support**
- **Pre-drilled holes make installation as easy as it gets!**
- **Great for supporting counter- tops and shelves**
- **Both steel and brushed stainless steel options**
- **All welds are on the back for a clean and finished look**
- **In stock and ships within 24 hours**

STEEL VS. STAINLESS STEEL?

The main differences between Steel and Stainless Steel are the corrosion resistance of stainless as compared to raw steel (or steel). Stainless resists corrosion and does not require finish treatment to prevent rusting. Raw steel does require a finish such as painting, plating or galvanizing in order to inhibit rusting.

WHERE TO BUY EKENA MILLWORK PRODUCTS

We have an extensive network of great dealers that both carry our products and let you special-order Ekena items that can then be shipped directly to the jobsite. Email or call us to find your local dealer.

Email: sales@ekenamillwork.com

Phone: 866-607-0435

ORDERING INFORMATION

HOW TO PLACE ORDERS

There are three basic ways to place the order:

PHONE

Call (866) 607-0453 to place your order over the phone. Make sure to reference your customer account number.

FAX

Fax your Purchase Order (PO) to (866) 591-3143 and put it Attn: Order Processing. Your order will be processed within 24 hours.

EMAIL

You may email your Purchase Order (PO) to orders@ekenamillwork.com.

*When **emailing** a purchase order, please save the file as a PDF and attach it to the email. If there are any special instructions, please include them on the PO, not in the email content.

NOTE: Please include the following information on all purchase orders faxed or emailed:

- Ship-to Address
- Contact telephone number for jobsite delivery
- Billing Address
- Item part numbers
- Item quantities
- Special instructions

SHIPPING INFORMATION

LEAD TIMES

All standard products are available to ship within 24-72 hours. We deeply inventory all of our products - our goal is to never run out of anything. If you need an order to ship the same day, that is very possible - but you need to call us now! NOTE: Items that cannot ship within 72 hours are: rough-sawn brackets, corbels, rafter tails, and gable vents.

HOW MUCH IS SHIPPING?

We can do shipping (3) different ways (whichever makes the most sense for your company):

OPTION 1

All UPS or FedEx standard ground shipments are a flat 15% of the total price of the product. There is a minimum charge of \$15 and a maximum charge of \$100. This is the most popular option because it allows you to quickly and easily calculate the shipping charges while quoting your customers.

OPTION 2

We will simply invoice you for the exact amount of shipping charges that were incurred on your order. Our warehouses ship a considerable amount of product, so our shipping rates are very reasonable. These rates will simply be passed along to you. This is a great option if you already have a Fed Ex or UPS shipping calculator that you use for other products.

OPTION 3

If you already have an account with FedEx or UPS, we can ship each order on your account as a 3rd party. This allows you to receive any special terms or discounts you may have set up with those carriers.

IS THERE A MINIMUM ORDER SIZE?

Nope. Order whatever you want.

DELIVERY INFORMATION

RECEIVING SCHEDULES

Most often common carrier rules and regulations require that orders be delivered during "Normal Business Hours." This generally means between 8:00AM to 5:00PM, but could vary depending in the community or the freight company. If the delivery is arbitrarily refused during these normal working hours, an additional charge may be inflicted by the carrier.

ACCEPTANCE AND RECEIPT OF GOODS

Many of our orders ship UPS or FedEx, but when the order is large, or contains a large item, then it must ship via Common Carrier. When shipping on a carrier truck, please follow the guidelines on the next page.

WHILE THE DRIVER IS PRESENT:

1. Check the driver's delivery receipt and/or Bill of Lading (BOL)

- a. Is the shipment/order yours?
- b. Is all the necessary information or documentation present? (i.e. PO numbers, job name specified, deliver terms, number of items, etc.)

2. Count your freight

Inspect all packages. Make sure that every product you ordered is accounted for and present.

3. Is there any damage?

It is very important that you confirm the product is received undamaged, from shipment, and is the correct item. To do so, please examine the shipping box and all contents immediately upon receipt for any signs of damage, wrong item(s) or defective product(s). All damaged or incorrect items must be noted on the BOL in driver's presence.

4. Signing the BOL/Delivery Receipt

By signing the BOL and not noting any damaged or missing/incorrect items, the customer is agreeing that the order arrived in perfect condition and was fulfilled correctly. In the event of concealed damage, the customer is responsible.

5. Freight claims

All claims must be initiated within 72 hours of delivery.

CANCELLATIONS AND RETURN POLICY

CANCELLATIONS

1. Custom Orders

- a. "Custom" manufactured orders can be canceled for up to 24 hours after the order is placed. After 24 hours, the order cannot be canceled.
- b. Customers will be charged the full product price for "custom" manufactured orders that are canceled after 24 hours.

2. Stock Items

- a. Orders placed for standard catalog products or "stocked items" can be canceled or adjusted within 24 hours after receipt of order.
- b. An order that is canceled and/or refused after the order has shipped will be charged a 20% restocking charge along with all applicable "to and from" freight costs and charges associated with the canceled order.

RETURNS

1. All requests for product returns must be approved and receive a designated RGA (Return Goods Authorization) number associated with the order by an authorized Ekena Millwork Customer Service Representative.

2. RGA numbers are only good for 21 days after date of issue. No returns will be accepted or received after the 21 days after the RGA number has been issued.

3. Orders must be approved for return within 60 days of original shipment.

4. All returns that are approved with a designated RGA number are subject to a minimum 20% re-stocking fee. Customer is responsible for all freight charges associated with returning an approved order.

5. Customer "credit" will be issued only after the product has been received back into inventory, all items are accounted for as specified on the RGA, and the items are in re-sellable condition. Any damaged product received back will not be credited and all associated re-stocking charges may apply. Payment deductions against RGA's are not allowed without an authorized "credit memo" from Ekena® Millwork.

6. Customer "credit" will be issued within 1 week of receiving the returned goods in acceptable condition, less:

- a. Re-stocking charge
- b. Freight charges (if applicable)
- c. Damages, concealed shortages or discrepancies

Ekena Millwork® Urethane Millwork General Information & Limited Lifetime Warranty

Before you use or install any Ekena urethane products, please review the information below. Ekena urethane products:

- Should be used for decorative applications only (unless clearly stated otherwise in catalog).
- Are very easy to repair. With the use of wood filler or automotive bondo/filler, dents or gashes of any size can be quickly filled.
- Will resist the natural elements, except for direct sunlight to the unpainted yellow/tan underside of the millwork. It is important to fill damaged or cut surfaces within a few days.
- Can withstand temperatures of about 140°F. However, the items should never be placed in an area subject to solar temperature building, such as behind a storm door or similar application.
- Should never be installed with mechanical fasteners only. Best installation requires non-corrosive fasteners along with urethane base PL Premium Adhesive.
- Should not be stored in extreme heat. Ekena urethane products should be acclimated for two days prior to installation.
- May require altered installation procedures to meet local specifications. Please check local building codes prior to installing.

Ekena Millwork Urethane Millwork Limited Lifetime Warranty

Ekena Millwork provides a LIFETIME WARRANTY to the original purchaser of our line of urethane millwork. This LIFETIME WARRANTY provides that the urethane material will be free from manufacturer defects in material and workmanship under approved normal use.

If a defect is discovered in an Ekena urethane product and the above conditions have been met, the customer should notify us in writing within thirty (30) days of discovering the said defect. The customer may be required to return the product to Ekena Millwork for evaluation. Ekena will then review the product and installation methods, and determine if replacement, repair, or refund is appropriate. This warranty does not cover or include labor, transportation costs, or any other expenses incurred in connection with the purchase, use, or installation of the item(s). Replacements, repairs, or refunds are the only options under this limited warranty.

This limited warranty does not cover damage from the result of mishandling in transportation, acts of God, customer modifications, vandalism, misuse, abuse, improper maintenance, unreasonable care, or other causes that did not arise from manufacturer defects in workmanship and/or materials. No person, retailer, sales rep, dealer, service facility, or entity of any type is authorized to change, modify, or amend the terms of this limited warranty in any manner. Ekena shall not be liable to the customer or to any other entity for any incidental or consequential damages or loss of profit from any defect in any items.

EKENA MILLWORK SPECIFICATIONS

1.1 PRODUCT DESCRIPTION

1.1.1 Ekena Millwork® Urethane products are made with high density polyurethane with an overall density similar to white pine at 13 to 17 pounds per cubic foot. The Ekena urethane process provides a greater skin density than core density for increased durability.

1.1.2 All products are manufactured with a white or semi-white color coating. Further, these products receive a primer coat finish before they are shipped to customers. The combination of the integral shell-like skin, the barrier coat, and the primer top coat provide an excellent substrate for durable finishes.

1.1.3 Ultra violet rays do not affect properly coated products.

1.1.4 The compressive strength of polyurethane products falls within the 300-400 P.S.I. range. (The parts are not intended for structural use).

1.1.5 The tensile strength of polyurethane products falls within the 350-400 P.S.I. range. (The parts are not intended for structural use.)

1.1.6 The degree of flexibility of any given polyurethane product is determined by the size and shape of its cross section.

1.1.7 Ekena urethane has a closed cell structure which provides protection from most solvents and renders it almost completely hydrophobic. It will not rot.

1.1.8 All Ekena urethane products resist the growth of mildew and fungus and further provide no nutritional value for other organisms such as small rodents.

1.2 SUBMITTALS

Submit Ekena urethane product data and shop drawings for customer approval.

2.1 ACCEPTANCE MANUFACTURER

Ekena Millwork
2300 West Main Street
Clarksville, TX 75462

3.1 INSTALLATION

3.1.1 Ekena Millwork, Inc. urethane products are handled in the same manner as wood millwork.

3.1.2 Ekena adhesives refer to model PL Premium.

3.1.3 Fasteners refer to nails, screws, bolts etc.

3.1.4 Ekena adhesives and fasteners must be used for installing all Ekena products on concrete, metal, vinyl or wood. Adhesive must be used on all joints to ensure the beauty of your installation for years to come.

3.2 FINISHING

Ekena Millwork, Inc. products are supplied with a white or beige primer base coat, ready for finishing top coat. A good quality exterior or latex or oil base paint may be used on rigid Ekena, Inc. product. The surface must be clean, dry, and free from all greases or waxes before all finish work is begun.

3.3 WARRANTY

3.3.1 Ekena Millwork, Inc. warrants its Ekena urethane product upon the following conditions against defects in materials and workmanship for the product's lifetime when used and installed under recommended conditions.

Purchaser and installer must inspect each piece prior to installation. Both parties waive all defects which could have been discovered by reasonable inspection prior to installation.

3.3.2 Warranty will automatically be void if Ekena installation methods are not used as per section on Installation.

3.3.3 In the event claim is made under this warrant, Ekena has the right to inspect the part and determine at their discretion, that the parts supplied are defective. Ekena will repair, or if necessary, replace the defective parts if returned freight prepaid to Ekena place of manufacturing. If Ekena determines the parts cannot be repaired or replaced, Ekena will refund to the distributor the amount paid to Ekena for the said defective parts.

3.3.4 Ekena shall have no liability to any person, firm or corporation whatsoever for incidental or consequential damages such as but not limited to, labor, finishing, parts damaged by freight carriers, freight charges, installation, lost profits, and lost sales or the like.

3.3.5 No purchaser may take any deduction or credit against any amount owed to Ekena or make any charge back without the expressed written consent of Ekena.

3.3.6 Further warranty information can be found in the Lifetime Warranty Section of the catalog.
