VERANDAH FEATURES

- **Fully bespoke Verandah solution** – straight lean to, splayed end bars, 'L' shapes around corners.
- **Traditional aesthetics** – post, column covers and brackets, with decorative casting to column base.
- Gutter system or bar overhang detail, with a variable roof pitch.
- **Pad foundation cast beforehand** – Verandah has a fixing plate hidden beneath ground level or can be fixed directly onto existing patio (at the discretion on the installer) if paving is bedded on a suitable foundation.
- Built in tolerance for post height levelling / fixing.
- Superior crackle black finish as standard (other colour options and finishes available).
- Option for delivery of post and eaves beam in one complete goal post section (depending on size) for even easier fitting.
- Can be installed in under 4 hours.
- Available with traditional Quantal aluminium roof or contemporary Ultraframe roof with 24mm double glazed units or 25mm polycarbonate.
- Available on 10 day lead time from signed confirmation.

Contact your nearest branch to discuss your next project and for any further technical details.
